

Are You Troubled with INDIGESTION

Does Your Food Distress You After Eating? **WOULDN'T YOU LIKE TO FEEL "GOOD AND HUNGRY"** every time you sit down to your meals? That's the way one should feel, but you never can unless your digestion is perfect.

The Remedy is

"JO-RI-CO" DYSPEPSIA TABLETS

Manufactured by The JOHNSON-RICHARDSON CO., Limited, Montreal, Can.

One of these Tablets taken about the middle of a meal, and one at the end, will digest your food perfectly. Digestion will not have been accomplished by these Tablets alone, as is the way with most Indigestion Tablets, but by their helping the stomach perform what it fails to do by itself. That's the splendid thing about these "Jo-ri-co" Dyspepsia Tablets. You don't "get the habit." They are not only an aid, but a cure for Indigestion and all Stomach Troubles. A trial proves it. 25 Cts. a Package, from Your Druggist, or Dealer.

Better Be Safe Than Sorry.

Are you sufficiently protected from loss by fire? Why not cover your property adequately? The Winter Season with its fire hazard is now on. Strong Companies, low rates and prompt payments are good inducements. Look up our record and you will find how promptly we settle claims.

The Evening Chit-Chat

By RUTH CAMERON

—teaching, needlework, taking boarders, work in cotton factories, typesetting and domestic service, women could now be found in all but two walks of life, which two are telegraph linemen and United States soldier or sailor.

And yet when you come right down to it, how very few women comparatively go beyond the beaten tracks. At college the commonest answer when a girl was asked what she was planning to do when she finished her course was, "Oh, teach I suppose. There doesn't seem to be much else to do."

School teacher, librarian, typist, stenographer or private secretary, musician, or artist, manicure or shampooist, telegraph operator, clerk, factory worker, waitress, or housework girl—how many women do you know who are not one of these things? Very few I reckon.

Therefore it seems to me that it ought not to be uninteresting if I devote this column occasionally to telling a few of the other things women can do and are doing in this world.

Percance I may convey a suggestion to some woman who has her living to earn and yet to whom none of the more beaten paths particularly appeal.

Beginning with April 10, 1910, a new census of the United States is to be taken, and the announcement has just been made by the census director that there is nothing in the act

providing for the taking of this census to prevent women from being employed as enumerators. For a woman who prefers trudging about in the open air to being cooped up in an office, why is not that a good opportunity for a year's outdoor work?

A unique position is that of Dr. Amy Tanner, who has been chosen to supervise the work of measuring and testing defective children at the Institute for child study, which has just been opened at Clark University.

Somewhat similar is the field of corrective gymnastics, which brings young women have been entering lately.

This work is the correcting of deformities by the application of the proper gymnastic exercises. It requires a gymnastic and semi-medical training and is very lucrative. I know one young woman who is earning \$1,500 a year at it.

Although very few women, of course, are fitted to follow in her footsteps, it may be interesting to womankind to know that Ruth Bryan Leavitt has been making good to a very remarkable extent as a lecturer. The title of her lecture is "A Pilgrimage Through Palestine," and so successful has she been that she had an offer from a lecture bureau of \$1,000 a week for platform work for next year.

I wonder if some among my readers are saying "My work is quite as unusual and interesting as any of these things." I hope so. Because I want to hear about it if it is, and I am going to ask any reader who has some unique vocation or business to find a moment to write me about it. Tell me how you prepared for it and if it pays.

Yes, I know you are busy, but wouldn't you enjoy a chance to talk in this column instead of always being talked to?

Ruth Cameron

Almost Died of Malignant Tonsillitis.

Another Case Proving that Catarrhizone Cures When All Else Fails.

The case of Mr. James E. Barton, the well-known publishing agent, of Stratford, is most remarkable. For seven years he suffered from weak throat, treated with numerous physicians, used a score of remedies—but was not cured. Among the symptoms from which he suffered were: **Badness of Breath, Bronchitis, Nasal Catarrh, Hoarseness, Weak Throat, Croupy Cough, Frontal Headache, Sore Chest.**

For years I suffered from a chronic weakness of nose, throat and lungs. My chest was sore, my throat irritable, and I had a harsh, croupy cough that was always worse in the morning. During bad weather I was completely prostrated with Catarrh, bronchial irritation, and all the manifold discomforts of influenza.

"When I began using Catarrhizone a beneficial effect was noticeable at once. My breathing became free and easy. I slept better, my chest was eased, and the thick phlegm and coughing that made me so sick passed away. Once, when my son was threatened with malignant tonsillitis, Catarrhizone cured him in two days."

Catarrhizone is certain to cure because its healing vapor is carried with the breath direct to the seat of the chest, nose or throat trouble. Being composed of the purest balsams and pine essences, it immediately allays irritations, facilitates the ejection of mucus, soothes and stimulates the lungs and bronchial tubes.

To those in fear of changeable weather—those who easily catch cold—those who work among lung-chilling surroundings, or where dust, impure air, fog, or damp can affect them—let them get Catarrhizone and use it several times daily. Large size, sufficient for two months' use, guaranteed, price \$1.00; smaller sizes 25c. and 50c. Beware of imitations and substitutes, and insist on getting "Catarrhizone" only. By mail from the Catarrhizone Company, Kingston, Ont.

CURLIANA.

To-night several curlers whose Christian names are William will engage in a curling match in the new rink with all-comers. The Williams were only defeated once and that by only one point. The players are: **Williams.** All-comers, W. C. Job, T. C. Duder, W. R. Warren, C. R. Duder, W. Shirran, A. H. Salter, W. H. Duder, skp. H. Jardine, skp.

Intercollegiate Hockey.

The first match in the second round of the intercollegiate hockey games took place in the Prince's Rink yesterday forenoon, between the Fieldians and St. Bon's. There was quite a crowd of spectators present, and the game resulted in a walk-over for the Fieldians, who continuously bombarded St. Bon's goal. The latter team did not find the net once and the Fieldians won by the big score of 23 to nil.

ST. JOHN'S M. I. A.—An open meeting of St. John's Mutual Improvement Association will be held in the Congregational Lecture Hall this evening, commencing at 7.45. Mr. J. E. Ray, Canadian Trade Commissioner, will read a paper on Dr. Johnson and James Boswell. All are invited.

NOTE OF THANKS.—The family of the late Henry Gosse desire to publicly thank Dr. Duncaan, Miss Field (the matron), and Messrs. Butler, Barnes and King for their attention and their many acts of kindness and consideration shown to the deceased while under their charge; and also to the friends who from time to time visited the Asylum.

Do You Feel This Way?

Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at night unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your lazy liver to work. It will set things right in your stomach, and your appetite will come back. It will purify your blood. If there is any tendency in your family toward consumption, it will keep that destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about a cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose advice is given free to all who wish to write him. His great success has come from his wide experience and varied practice.

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good." Dr. Pierce's medicines are or known COMPOSITIONS. Their every ingredient printed on their wrappers. Made from roots without alcohol. Contains no habit-forming drugs. World's Dispensary Medical Association, Buffalo, N. Y.

Fads and Fashions.

Immense hairpins of tortoise shell, or small ones with curved tops, set with tiny brilliants, keep the hair in place.

A bright bow of velvet at the neck, either in contrast with or matching the suit and hat, will be worn this spring.

For evening, fewer jewels are seen, as the rich embroideries and spangles seem to be sufficiently brilliant by themselves.

Very pretty are the flowers of stiffened lace or great roses of gold or silver gauze, which are often the only trimming of a hat.

Many of the tailored suits have wide striped silks for their linings. Colored linings are more in vogue than for some seasons past.

All the odd shapes that were used in cloths and silks this winter are reproduced in linens and other washable materials for the coming summer.

On colored dresses, beads are usually of the same color as the material, the different shapes and sizes lending variety to ensemble.

Skating costumes entirely of broad-tail, seal or jaunty little Russian pony coats with velvet skirts, the latter very short, are the thing.

There is every reason to believe that black footwear is to be permanently modish this spring, and even in the ballroom black is worn in many cases.

With the return to favor of the

three-quarter and elbow length sleeves, which are promised on the new spring modes, the long glove will again be worn.

Novelties in shoes of patent leather or black satin, covered with coars white net and ornamented with pretty net rosettes clasped with buckles of jet, are finding favor.

A new material of wonderful softness, thick yet featherweight, is Worumbo Polo cloth. This is intended for coats for golfing, for the seashore and mountains.

New parasols are shaped like a Chinese pagoda, with the ribs turning up at the outer ends. An ivory ring runs on a silk cord to keep the folds in place.

Pendants of dull enamel, of topaz, aquamarine or turquoise, set in quaint golden scrolls, or moonstones in silver, are the accompaniment of the tailored costume.

Hatpins are enormous, and are in the form of grasshoppers, gigantic beetles, bats and toads. Prettier are metallic ones, showing a half-blown rose in natural colors.

Turbans of Circassian or Arabesque design are made of loosely plaited fancy straw or raffia, folded and draped to imitate the familiar turban of velvet and fur of this winter.

Mottled and mixed effects are much in evidence, and many mannish suitings will be chosen for chic tailored costumes. The unfinished worsteds are to have a decided vogue in dark, soft tones.

BILLIARD MATCH.—Mr. E. Cooper won the handicap billiard match at the Star of the Sea Hall last evening, defeating M. King. The game will be continued to-night.

Your Hair is Worth It

Afraid to use hair preparations? Don't know exactly what to do? Then why not consult your doctor? Isn't your hair worth it? Ask him if he endorses Ayer's Hair Vigor for falling hair.
