Supplied Under
Royal Warrant of Appointment to
**HIS MAJESTY
KING GEORGE V.**

Naval Conference in Canada.

London, August 9.—The conference with the Canadian ministers on the naval question have practically concluded. It is probable that, by wish of the British Government, an invitation will be extended by Mr. Borden to Sir Wilfred Laurier to meet Mr. Winston Churchill, first lord of the Admiralty, in Canada at the end of September and discuss the matters involved. There is no doubt here that the existence of an emergency has been proved, and that Canada will make a contribution of an amount to be determined after Mr. Borden consults his colleagues, after which Mr. Churchill will go to Canada. A permanent naval policy will be decided upon, if possible, at a round table conference of all political parties in Canada. The British desire is to remove the scheme from the sphere of party politics, as has been done in Great Britain.

Mr. Churchill will arrive in Canada with Admiral Prince Louis of Battenberg and an imposing naval squadron.

Mr. Churchill and Mr. Hamar Greenwood, M. P., will make a tour of the principal cities of Canada and discuss imperial defence. The ministerial opposition here to Mr. Churchill's visit is due to an unwillingness to influence Canadian opinion; but the Unionists urge prompt action and Mr. Churchill is willing.

Prominent Government and Opposition members says Australia is becoming popular with British investors owing to its naval contribution. It is strongly felt that Canada must show practical loyalty, remain a part of the Empire and keep the confidence of Great Britain financially.

It is authoritatively stated that Mr. Borden has promised nothing definite in regard to the navy. As to the references to imperial co-partnership, the best minds here urge that all should go slow. It is only proposed now that there should be a Canadian minister in London for a part of the year for the exchange of confidential information on foreign policy. The union would be consultative. British Ministers see the danger of a rigid compact, hindering the Dominion's action in any Imperial Council.

Mr. Asquith declined Mr. Borden's invitation, and Mr. Churchill's visit is not with the object of stampeding Canada, but to return the compliment of the Canadian Cabinet.

NO PENNY POSTAGE.

The French Government holds that it cannot allow Great Britain to share in a penny postage scheme, and therefore such an arrangement with Canada cannot materialize.

Mr. Sempel, the British postmaster-general, and Mr. Pelletier discussed thoroughly the state cable question but with intangible results.

Man's Greatest Task Is Ended When He Wears an O-P-C

If it isn't work that wears men so much as a needless waste. There is a ceaseless tax on the nerve force which comes through a needless strain.

It is ended at once by an O-P-C suspensory.

To men on their feet an O-P-C is a necessity. Golfers and athletes wear them. Army men in Europe are compelled to wear suspensories.

But every man who values vim ought to conserve it with an O-P-C. It multiplies capacity for work or play.

Comfort and relief are immediate. The first day shows results. One month may make you twice the man you are.

No one who tries one will ever go without.

The O-P-C is the scientific suspensory, famous for 20 years. Our book tells why you need it. Write us for it now.

All druggists guarantee you satisfaction with an O-P-C. No. 2, Lisle, Ill.—No. 3, 311, E. 10th. Mailed direct from 45 W. Twenty-fifth Street, Chicago. If your druggist will not supply you.

Bauer & Black

Chicago and New York

Charged With Poisoning Her Husband.

Philadelphia, Aug. 12.—Mrs. Frieda Trost, proprietress of an uptown saloon, who was arrested yesterday on a charge of having caused the death of her husband, William Trost, within a week after her marriage to him by administering poison, was committed to prison for her appearance to-morrow when an inquest will be started in the case. Edmond Guentle, bar-tender for Mrs. Trost, was also committed as a material witness in the case, which the police say will have sensational developments.

After the arrest of the woman, the police say they found a druggist from whom she purchased poison on Monday of last week, or shortly before her husband was taken ill. At the hearing to-day a Coroner's detective testified that in his investigation of the Trosts he learned that Mrs. Trost was a widow, and when she married a second time was deeply in debt. An autopsy performed by a Coroner's physician, the detectives said, showed that Trost's death was caused by poison.

The police said Trost had a bank account of \$4,000, and that his life was insured for \$2,000.

Insect Stings and Summer Sores

Insect bites and stings; blistered feet and sunburn! These three things, or any one of them may spoil some days of your vacation, or make your work a bore! Zam-Buk is the remedy you need! It takes the "burn" out of these red, inflamed patches where the sun has got home on you; it eases bad mosquito bites, and it soothes and heals blistered feet and hands.

In the hot weather young babies suffer greatly from heat spots and chafed places. Here, again, Zam-Buk will give almost instant ease! Mothers should always keep Zam-Buk handy, and should use Zam-Buk Soap for baby's bath.

For cuts, burns, and more serious skin diseases, such as eczema, blood-poisoning, etc., and for piles, Zam-Buk is absolutely without an equal. All druggists and stores 50c. box or Zam-Buk Co., St. John's, Nfld.

Shot Two Children Dead.

Pittsburg, Pa., Aug. 12.—Frank Kenyon shot his wife through the heart, shot his eighteen months old baby and then killed himself with a bullet from the same revolver in the Lafayette Hotel at noon to-day. Kenyon accompanied by his wife and child, registered at the hotel Saturday from Turtle Creek, a suburb. No cause is known for the crime.

Mrs. Tucker Meets a Tourist

Who Is Looking for the New Hotel.

Mrs. Tucker was down town shopping yesterday evening, and as she hurried along Water Street one of the tourists on the Florizel approached her in a dignified manner and asked if she would direct him to the "New Hotel."

Mrs. Tucker has been placed in tight boxes, but this was positively the most awkward position that she ever occupied. She looked at the dashing-dressed Yankee and pretended she didn't quite understand his question, and at the same time felt ashamed that, after all our loud talk in the stormy winter time, after all our big long letter writing on the New Hotel, here she was face to face with a Yankee visitor inquiring about its whereabouts, and what in the name of common sense was she to say? If she told this long, lanky stick of chewing gum that our hotel wasn't yet erected, she so far forgot herself as to intimate that the site hasn't yet been selected, would he of the golden teeth fall dead on the sidewalk? The risk was far too great, and to save the honour of the Board of Trade and to protect our city from the jeer of tourists she turned to the Yankee as quick as a mouse trap, and putting on a face like a funeral, she respectfully informed the Round Tripper that that Hotel had been destroyed by fire, but she added, with the usual go-aheadness of our Board of Trade they are now holding meetings that will bring forth even a better Hotel, though the last one was a dandy.

Very sad, said the tourist, as he sped around for the blackened site.

Very sad, indeed, said Mrs. Tucker, and he parted with a gentlemanly salute, while Mrs. Tucker forced on a "good day" smile that failed to rub off till she struck the looking glass at home.

Nothing makes a person made like finding themselves smiling, when they're as mad as a hatter, and 'twas the same with Mrs. Tucker. Just think of it, said she, being asked to point out the New Hotel and the bloomin' site not yet selected. If I had my finger and thumb on the windpipe of the scorial Secretary of the Board of Trade at that moment, I tell ye 'd make him bow out so loudly that every dogfish on the Banks would make tracks for their lives. New Hotel, how are you, that kind of thing makes me tired, and flinging herself on the couch she clasped her hands and closed her beautiful orbits to shut out for a time at least the grand array of codelogy that abounds in this ancient and historic town.

TIM SHANAHAN.

Minard's Liniment Co., Limited. Gentlemen,—In June, 98, I had my hand and wrist bitten and badly mangled by a vicious horse. I suffered greatly for several days and the tooth cuts refused to heal until your agent gave me a bottle of MINARD'S LINIMENT, which I began using. The effect was magical, in five hours the pain had ceased and in two weeks the wounds had completely healed and my hand and arm were as well as ever.

Yours truly,
A. E. ROY,
Carriage Maker,
St. Antoine, P. Q.

There is a good deal of two-fisted temper used in the home circle from time to time. It is especially prevalent on wash day and causes thousands of hollow-eyed husbands to consort nervously with the lunch counter.

There are two kinds of temper—quick and slow. Quick tempers come equipped with a hair-trigger and are liable to explode under gentle pressure on a pet corn or on being fed into an upper berth. A slow temper is a smouldering variety which will go along for years without having an eruption, and then it will think of something that happened way back in 1885 and commit justifiable homicide with a hoe handle.

The best way to cure temper in small children is to seize them firmly by the jugular vein and throw them across the parental knee in an inviting and expectant attitude, after which they should be spanked at high tension.

After a man has allowed his temper to run around without a halter or run strap for several years, it becomes a grouch and can hardly be told from inbred depravity and original sin. This is the deadliest form of temper, and has slain more good impulses than any other form of human vice.

Remarkable Escape.

The signman at Killree Junction, Co. Sligo, had a miraculous escape from death during a very severe thunderstorm which recently passed over the district.

Two of the signalling instruments in the cabin were struck by lightning, and the operator's hand was badly scorched and he had a bad shock. So heavy was the rainfall that at one spot the road to the station was flooded four feet deep.

Low-lying lands are under water and the potato crops have been flattened by the hail.

VISITS FOOD DEPOT.—Yesterday Colonel Mapp, Colonel Purniore, Brigadier Morahan and Staff-Captain Cava paid a visit to the Salvation Army Food Depot. They were favourably impressed with the surroundings of the place and praised the work of Ensign White who is in charge.

MINARD'S LINIMENT CURES DIPHTHERIA.

Final Match.

The last football match for the season was played on St. George's Field last evening, the opposing teams being the Highlanders and Methodist Guards. Notwithstanding that the weather was all that could be desired and that the teams were evenly matched, there was not a "hand-full" of onlookers present and the gate receipts did not realize a single dollar.

The game was refereed by Mr. E. Pissent who blew the whistle sharp at 6:30. In the first half no goals were scored, but after lemon time the Killies worked, with renewed determination, and notched up two goals. At the close the score stood: N. H., 2 goals; Guards, 0.

The schedule of games in both the Brigade and Senior League is now finished.

The Highlanders have advanced a step. For the past four years they have been the wooden spoon holders, but through their grit, pluck and attention to practice this year were amongst the runners-up, giving their position at the bottom of the ladder to the "Old Guard," the C. L. B. The Highlanders deserve great credit for their splendid showing considering that they have not half the number of members to pick from as the other Brigades.

The Ladies of St. John's May Now Grow Beautiful Hair.

McMurdo & Co. backed up by the manufacturers of SALVIA the Great Growth, guarantees, it to grow hair.

SALVIA destroys Dandruff in ten days. The roots of the hair are so nourished and fed that a new crop of hair springs up, to the amazement and delight of the user. The hair is made soft and fluffy. Like all American preparations SALVIA is daintily perfumed. It is hard to find an actress who does not use SALVIA continually. A large bottle for 50c.

Florizel Here.

FILLED WITH PASSENGERS.

The Red Cross Liner Florizel, Capt. Smith, 5 days from New York via Halifax, entered port at 3.30 p.m. yesterday. Since the opening of the service this season this trip was probably the most unpleasant as thick fog was continuous. Saturday afternoon last New York was left when conditions were adverse and the ship was late setting into Halifax. Here a longer delay than usual was occasioned, as the steamer took on board a considerable quantity of freight which was landed at the Nova Scotian port by the S. S. Senandoah. Leaving Halifax on Tuesday evening at 6 o'clock, the passage to this port was made in less than forty six hours. She brought 20 packages of mail matter, a full freight and 160 passengers, nearly all round trippers.

McMurdo's Store News.

FRIDAY, Aug. 16, 1912.

If you have not yet procured your Cabbage Seeds for Winter Plants, kindly remember that time is now getting short. We have some very good cabbage seeds, English and American, of quality that has stood the test of years, and among these you will surely find the kind of seeds you need. Prices from 10 to 30 cents an ounce.

Sanditen Tooth Paste is popular because it does all we promise or claim for it—it cleanses the teeth, removes unpleasant tastes from the mouth and odors from the breath, it removes tartar and whitens and preserves the teeth. It is delicious in flavour and economical in use. Price 25c. a tin.

NEW MACHINE SHOP.—The starting touches to the erection of a new machine shop for the Reid Nfld. Com. were made yesterday. The building will be 23 feet wide and 30 feet high and the roof will be made of iron. Another new engine is nearly finished at the machine shops and will be ready to go over the road a fortnight hence.

Chafed and Aching Feet

How far can you walk without suffering in one way or another from discomfort to your feet? Modern footwear is a prison house and the result is chafed, scalded, inflamed feet.

You can get a world of comfort by using Dr. A. W. Chase's Ointment when your feet get in trouble. This treatment is so delightfully soothing and healing that it helps you as soon as applied.

Unlike insensatory powders which log the pores, Dr. Chase's Ointment takes the skin soft and smooth and prevents corns and bunions.

When the feet are chafed, scalded, itching and tired, it takes out the stinging and burning and its benefits are both quick and lasting. In scores of ways Dr. Chase's Ointment is of the greatest value in every home, as a means of relieving itching, scaling the skin and curing all sorts of chafing and skin irritations, and chaps and cracks. It is sold by all druggists or by Dr. Chase & Co., Limited, Toronto.

ABSOLUTE SECURITY THE PROFITS PROFITABLE POLICIES

allotted to Canada Life Policyholders in 1910, amounted to over **\$2,000,000.00**

and the large increase in Surplus for the past year insures that Canada Life Policies will continue to be profitable.

Mr. J. H. T. insured under Policy No. 051,854, writes: "I desire to express my satisfaction with the outcome of my policy in your Company for \$2,000. I can now draw in cash over \$100 more than the total premiums paid, and besides I have had insurance protection for twenty years."

At age 30 a Profit-bearing, 30 year Endowment Policy of \$5,000 can be purchased for a quarterly investment of \$44. This amount, together with accumulated profits, will be paid to you in one sum or in a number of instalments, as desired. It will pay you to invest in a Canada Life Policy. Ask for a proposition suited to your age and means.
