Eyes are Seldom Mates

After middle life, and frequently earlier, the eyes are apt to be of unequal strength. If this inequality is not corrected, the weaker eye will be overworked and be thus made weaker still. This shows the necessity of always having each eye separately examined. We fit spectacles that will correct every defect of vision and strengthen weak eyes.

The new manager appointed is F. P. Thyme of Lowell, Mass. The team will meet and report at Boston on April 18, and will on their way up to Calgary play exhibition games in New Hampshire, Vermont and Massachusetts, arriving in Calgary on May 15 in time to play Edmonton on the 20th.
