The Question of Disarmament.

BERLIN, Jan. 21.—The Saale Zeitung says that at the dinner which Herr Miguel, the Imperial Minister of Finance, gave, and at which the Emporor was present, the reports as to the possibility of general European disarmament were the subjects of some hilarity. The Emperor remarked that Germany was satisfied and had no thoughts of fresh conquest. It was possible that the Emperor may have added that smokeless powder would eventually result in terminating the era of war, and although there existed no question in regard to disarmament the new conditions of werfare rendered war-like developments imperative.

Lord Salisbury attributed the suffering and discontent in Ireland to natural deficiencies, due to elimate and absence of mineral resources.
