The Westwood Home Broken Up.

TORONTO, Nov. 1 .- The house and furniture of Benjamin Westwood, father of young Westwood, who was so mysteriously assassinated a few weeks ago, were sold by auction this morning, the family being anxious to move away from the scene of the murder. An enormous crowd was on the premises. The house is one of the largest and handsomest in the west end.

Imposing Funeral Foreshadowed. MONTREAL, Nov. 1 .- The funeral of Mr. Mercier tomorrow promises to be the argest seen here since that of Cartier. It is computed that 20,000 people will participate. The cortege will include political clubs of the city and Province, bands, college cadets and students, bench and bar, Zouaves, St. Jean Baptiste Association and a dozen other societies. The members of the Opposition at Quebec have sent a huge floral tribute. The mayor and city council and the councils of several municipalities will be in line. The pall-bearers will be ex-Mayor McShane, Hon. Pierre Garneau, Hon. Mr. Joly de Lotbiniere, Hon. F. G. Marchand, Mayor Dessaults, of St. Hyacinthe, Hon. W. WITH A GUN-TRAP.

How a Staten Islander Killed His Sonin-Law.

NEWDORP, S. I., Nov. 1 .- Thomas S. Burke, who killed his son-in-law, Frederick Bergmann, Aug. 16, by means of a gun set as a trap in his hut at South Beach, pleaded guilty of manslaughter in the second degree. He was sentenced to ten years in Sing Sing Prison, which term may be commuted to six years and six months for good

behavior. It had been expected that Burke would insist on a trial, and a panel of 150 talesmen were ready when Justice Edgar M. Cullen opened the Richmond County Court of Oyer and Terminer. Burke held a

consultation with counsel, and then his plea was announced. Burke is 75 years old. He and his sonin-law, Bergmann, lived in an old hut at South Beach. Bergmann's child died, and while it was lying in the hut Burke began hammering in his apartment. Bergmann went to remonstrate with him, and was killed in front of his door, the pushing in law had never been friends.

TRADE IN CANADA,

As Shown by Dun & Co.'s Weekly Statement,

Lack of Confidence Restricts Business-Fifty Failures in a Week.

TORONTO, Nov. 1 .- R. G. Dun & Co.'s weekly statement of business affairs in

Although there is some improvement in the business outlook confidence is by no means restored, and it is owing to this fact that the accumulation of money in the banks is so large.

The weather has been mild and farmers have taken advantage of it, in plowing and in the prosecution of other farm work, The marketing of produce in consequence has been somewhat restricted, and the retail trade in the country has suffered.

Wholesalers are receiving only small orders from travelers. Stocks in the country are generally acknowledged to be small, and with a return of confidence some activity is anticipated.

The movement of sugars has been limited this week and prices are easier, granulated selling at 41 cents per pound. The receipts of Mediterranean fruits are increasing and prices are unchanged. Wheat at Ontario points is undergoing

no change. There is a small business to millers at 49 cents to 50 cents for red and white. Stocks of spring wheat are unusually small, the crop of 1894 being the smallest for many years, and holders consequently look for better prices.

The decline in hogs has been followed by lower prices for cured meats. Mess pork is 50 cents to \$1 lower than a week ago. The failures for the week are 50, as against 25 for the corresponding week last

FOR LAW-MAKERS.

Here Is a Subject Worth Their Serious Consideration,

It Affects the Public Health, and Whats ever Affects Health Should be Investigated-Cold Facts Bluntly and Truthfully Stated-Let the Truth be Known No Matter Whom It Hits.

To the close observer it often seems as though the days of the secret and worthless compounds are numbered. Every time the worthlessness of a secret mixture is exposed by the medical profession there is a public reaction in favor of the legitimate preparations which really have merit. The public is also gradually awakening to the possibilities, not only of fraud, but of actual harm in many preparations whose proprietors hide behind the inability of the chemist to trace the elements in their nostrums. The result is that people are becoming more cautious about buying new preparations or old ones that are enshrouded in mystery.

If the truth were known, there are surprisingly few remedies in the market that would stand legislative investigation. This is made apparent, even to a layman, whenever it is proposed to require all proprietors to give information about their preparations before they will be allowed to offer them for sale. This suggestion, although prompted by public welfare, is as a bomb thrown in the midst of many remedies. This fact shows only one thing, which anybody can

understand. The public has a right to demand thorough investigation of everything sold to benefit health. If there is any reason whatever why any preparation should be taken only on a doctor's prescription, for the sake of public health this fact should be made known. If, on the other hand, a prepara-tion is utterly worthless and will not do what is claimed for it, the public should not be allowed to be deceived.

One fact will surely stand. The pro-prietors who are afraid to have public investigation of their preparations by a national health board created for the purpose, have some reason which makes it all the more imperative for such an investiga-

When the time comes for the public to demand action in this matter on the part of national legislators there is one preparation which will come out with flying colors. This preparation is Scott's Emulsion. For twenty years Scott's Emulsion has had the highest indorsement of the medical world. The formula for making it has been published for years in the medical journals, and as for there being anything secret about its ingredients, that is impossible, for any expert chemist can find out by an analysis everything that is in it.

Scott's Emulsion is both nourishment and medicine. It presents the medicinal properthe taste. Scott's Emulsion is good for a dyspeptic person, for it aids the digestion of other foods, and to all persons who suffer from any wasting condition Scott's Emulsion offers the most effective cure.

For all affections of Throat and Lungs. like Coughs, Colds, Sore Throat, Bronchitis and Consumption, Scott's Emulsion is in valuable. It soothes the Throat, cures Coughs and Colds, relieves inflammation and possesses the power to overcome the wasting of Consumption up to the last stage of the disease. Persons who have been so far gone with Consumption that they have raised quantities of blood have been entirely cured by this great remedy.

For weak babies and children with wast-

ing tendencies Scott's Emulsion has been prescribed by physicians until it is a household word in hundreds of thousands of families.

Scott's Emulsion gives strength. It enriches the blood, makes healthy tissue, restores a healthy action of the vital organs and nourishes a weakened system back to health and strength. All druggists sell Scott's Emulsion at 50 cents and \$1. The only genuine Scott's Emulsion is put up in salmon-colored wrapper and has our trade mark of a man carrying a fish on his back. Refuse inferior substitutes.

Discovery of an Ancient City.

PANAMA, Nov. 1 .- Advices from Honduras report the discovery of the remains of an ancient Toltee city in the center of a manogany swamp near Rio Grande. They comprise hundreds of large, well-built dwellings and three temples, each 100 feet long, 50 feet wide and 35 feet high. The streets are paved. These ruins are now covered with nine inches of soil.

Found Only Her Bones.

CAYUGA, Ort., Nov. 1 .- Mrs. J. Lint, wite of Mr. J. Lint, sen., strayed away from her home in the village of Kohler on May 7. The entire neighborhood searched the woods and dragged the river in the attempt to find her, but in vain. This moring three young men who were out hunting in Mr. Leggith's bush, about a mile from Kohler, found the body of Mrs. Lint. There was nothing of the remains left, but the dry bones and the clothes that she wore on leaving home.

PRISON REFORM IN CANADA.

The Work of the Prisoners' Aid Associa-

The Prisoners' Aid Association of

Canada has been engaged in its noble work of prison reform and rescue work for the last 20 years, although the prison reform movement proper dates back to only about four years ago. The objects of this Association, as stated in their constitution, are: "The reformation of offenders, their welfare when discharged, the prevention of crime and prison " Among the most zealous memreform. bers of this Association was the late ex-Mayor W. H. Howland. The Hon. S. H. Blake, Q. C., has been the President for a number of years, while Hamilton Cassels, Esq., Barrister, has been connected with the Central Prison Sunday School also for several years. Dr. A. M. Rosebrugh, the well-known specialist, has during the last ten or twelve years, been actively connected with the Association, firstly as Treasurer, but laterally as Corresponding Secretary and Honorary Secretary. Among the Vice-Presidents may be mentioned the following well-known gentlemen, viz.: J. G. Hodgins, LL.D.; E. A. Meredith, LL.D., for ten years one of the Board of Inspectors of Asylums and

Hoskin, Q.C. Among the means employed for carrying out the objects of the Association may be mentioned the following, viz.: 1. A Sunday School mission in the Central Prison.

2. A Sunday School mission in the Reformatory for Women. 3. A Sunday School mission in the County Jail.

4. A Night School for secular education in the Central Prison. 5. The employment of an agent and a Bible woman for the welfare of dis-

charged prisoners. 6. The distribution of prison reform literature, and the use of other means for awakening a more general interest

in the cause of prison reform.

7. The maintenance of a central office in the City, at 150 Simcoe Street, as a place of call and temporary shelter for prisoners after their discharge. 8. Assisting with tools, and making

temporary loans to discharged prison-9. A preaching service weekly, in the Central Prison and Female Reforma-

tory, by members of the Toronto Minissterial Association. It was through the influence of this Association that the Ontario Prison Reform Commission was appointed in 1890, and it was through these combined agencies that the "Act for the Better Protection of Children" was passed, as also the establishment of the proposed reformatory for young men by the Dom-
