I Since the beginning of the present year large quantities of smoked hams and bacon have been purchased in Ontario for the English market; for the same destination if the market for the same destination. If the market for the same destination in the market for the same destination in the past, the continent to buy in for some time past; the continent to buy in for some time past; the continent to buy in for some time past; the continent been purchased for the other side. For instance, the same quality of hams that have been sold at equal to 13z to 14z here could not be bought in Chicago at under 15c to 16c per 1b. Then as regards pork, it would cost \$25 50 to lay down the lowest grade of Chicago new mess pork, while a quality equal to Canada short cut, which is selling here at \$32 50 and as hort cut, which is selling here at \$32 50 to \$23 per bh, would cost over \$27 laid down here; so that Chicago tork is practically excluded from this market. The sale of a lot of 50 bbis of Canada short cut mess pork was sold here this week at \$22 50, and higher prices and confidently looked for between now and he next packing season.—[Montreal Trade Bulletin.

Incandescent Lighting.

The Canadian General Electric Company, which was instituted a short time ago, is now contracting with the public for incandescent wiring for shop and domestic purposes. The power and light plant is expected to be running by the first of September, and it is necessary that the poles and wires should be running prior to that time. The cost of wiring a house is much more reasonable than that required for placing gas fixtures in order. The light supplied is cheaper, cleaner and safer than most other forms of illumination. A Visit to Epworth.

Among the many entertaining lectures delivered under the auspices of the energetic young people connected with the Dundas Street Center Methodist Caurch none has evoked more interest than that by Dr. Antliff, made last evening, on a visit paid to Epworth a few years since. This village, which is in Lincolnshire, on an island called Axholme, in the River Trent, has historical associations. Here it was that Charles Wesley first saw the light of day, and here also, when only 10 years of age, he narrowly escaped cremation in a burning building. It was one of the ancestors of the gentleman who showed Dr. Antliff the town who was instrumental in saving the founder of Methodism on this occasion. The gifted lecturer's description of the place from which the Epworth League derives its name was realistic. He was attentively followed throughout by an appreciative audience. A Visit to Epworth.
