Expected to Make a Stand at the Yalu-New Chwang and Port Arthur.

London, Monday, April 4.—The Daily Telegraph's Shanghai correspondent gives an unconfirmed report that a Japanese army of 105,000 men has landed opposite Taku Shan, in Southern Manchuria, and is marching north and northwest; that another army of 40,000 has landed in Northwestern Korea, and is marching toward the Yalu River, and that a third force has disembarked in Northeastern Korea, and is marching westward. The correspondent adds that the statement that the captain of the Russian cruiser Boyarin is to be court-martialed is regarded as confirming the report that the vessel was blown up by a mine A dispatch dated Tokio, April 3, 7 p.m. says: The advance guard of the Japanese army in Northern Korea occupied the town of Seng Chang yesterday without opposition. Seng Cheng is on the Pekin road, eighteen miles west of Chong Ju, about 40 miles south of Wiju. When the Japanese drove the Russians out of Chong Ju last Monday, the Russians withdrew in two columns, one going over the Koak San road, and the other over the Pekin road. The Japanese advance from Chong Ju was made very rapidly. It was anticipated the Russions would resist this advance, but they failed to do so, and now it is probable that there will be no further opposition south of the Yalu River. Chong Ju, because of its superior natural surroundings, is the strongest place between Ping Yang and Wiju. Irkutsk, April 2.—The railroad across Lake Baikal has ceased operations in consequence of the breaking up of the ice, and is being removed. Its assistance to the Government in the transportation of the supplies has been incalculable. As an indication of its service, it is stated, that between March and March 28 there passed over it 1,693 freight cars, 673 troop cars, 25 ordinary passenger coaches, carrying and 65 engines. The cost of the undertaking was \$250,000.
