Guthia Grey and EVERY WOMAN'S Page After Supper Talks

Many a young man hugs to his bosom the delusion that the world at large shuts its eyes to his follies, such as staying out late at nights, taking a glass of champagne too much, a tempting to flirt with every pretty maiden who crosses his path, and pranks too numerous to mention.

This seems to be an anxious time in the life of his mother. With tears and sobs she confided hesitatingly to his father the fear that Billy isn't going to turn out well. She receives the annoyed retort: "Let the young fellow alone; he is sowing his wild oats. Tell the people that, if they're inquiring."

The mother gets back at him by adding, with alacrity: "The people are saying, too, that he's a chip off the old block."

The father has something to ruminate over when the door has closed after the partner of his joys and sorrows and he finds himself alone.

A the partner of his joys and sorrows and he finds himself alone.

Then, and not until then, does he look facts fully in the face. He knows there's more truth than poetry in the homely phrase "about a chip from the old block." He knows that the wild oats sown in early youth produces a harvest of trouble later on and that it is no easy matter for a man to change the habits he has formed—not even after the conditions of his life has changed.

The story books inform him that after people marry they live, good, we have a story books inform him that after people marry they live, good, the observance of every day life about him, causes him to take issue with those well meaning writers. He knows it is all bosh about marriage changing the average man, even one jot or one tittle. He may love his changing the average man, even one jot or one tittle. He may love his wife devotedly, but he has to keep himself in constant leash to keep down his exuberance of spirits. He knows, too, habits grow stronger with him at five and forty, even though the marriage chain binds him to another heart.

A chip of the old block! As the people know the father they

another heart.

A chip off the old block! As the people know the father they will expect to find the son. The mother has something to do with the formation of her boy's principles, but so mehow the world does not take cognizance of that fact. It is the father who is expected to set the example and discipline the youth, who is inclined to be wild, into following

Cynthia Grey's Correspondence

Dear Miss Grey: I am going with a man who is much older than I, and he has been very attentive, although rumer says that he is engaged to another. How can I win his away from her?

A.—If he is engaged to another you have no right to try-to win him away from her, Besides, if he could be won, would you be willing to trust your future to a man who could be so fickle and unstable?

Dear Miss Grey: We are two young girls. How can we make fellows show they love us?

The Return of Crinoline.

The threat of the crinoline is being in hurled at us, one hopes not to assume more substantial and practical form, as, after remembering the number of women who have worn the tight skirt, one doubts if the sex in general will have courage to resist any absurdity the dressmakers decree. With the crinoline, we may also expect a return of the small waist for the sake of contrast. It seems increading the how our ideas of beauty waver and change. For a certainty, if the great mass of womankind went about in hoopited skirts, those who refrained from following the prevalent mode would look dowdy and insignificant. Everything is all right if everyone wears it; any style, however intrinsically ugly, will appear beloning if enough persons adopt it for a long enough time, since it seems impossible to regard one's own surrounding with an impartial and a judicial eye.

Decorate everything.

Satin is the preferred material. They ornament the edges of tunics. Even on hats they are often seen. Wreaths of them festoon quaint

A large one worn in the corsage is a dainty finish for the fichu. Garlands of them are used to trim tissue handbags.

Some of the new sleeves are caught above the elbow with one or several ribbon roses.

They are a pretty form of trimming for the numerous handkerchief, glove or sewing boxes favored as gifts at Christmas time.

Good Form in Dress

Don't wear colored or fancy open-work stockings with your street shoes. Shoose plain stockings that match the hoes in color.

Don't pin ruchings and dress shields

shoes in color.

Don't pin ruchings and dress shields in place, Baste them instead and see how much more comfort they give you. It really doesn't take much longer to baste than to pin.

Don't think that because collarless frocks are the fashion you may wear a low-cut dress on the street. There is a vast difference between "collarless" and "low-necked."

Don't buy cheap jewelry and think that it looks like anything but what it is—a cheap imitation of a good article. Much jewelry is in bad taste at any time except with evening dress.

Don't wear mussed or soiled frills and ruching. You had much better wear perfectly plain clothes without trimmings if you cannot keep these dainty accessories fresh and without soil.

Don't forget to see that your waist is properly fastened before leaving your mirror. The waist gaping open at the back not only looks careless, but it is apt to cause some embarrassment, too.

Lemon Meringue Pie.—Beat three, eggs slightly and add two-thirds of a supful of sugar, the grated rind of half a lemon, one ourth cupful of lemon Juice, and two tablespoonfuls of water. Bake in one crust in a moderate oven, cool slightly, cover with meringue Gorced through a pastry bag and tube) and return to oven to bake the meringue—the time required being about eight minutes in a moderate oven. If meringues are removed from the oven before they are done, the eggs will liquefy and meringue settle; if cooked too long, meringue is tough. For the meringue, heat the whites of three eggs until stiff and add gradually, while beating constantly, four tablespoonfuls of powdered sugar. Cut and fold in three and one-half tablespoonfuls of powdered sugar, and add one-half teaspoonful of lemon extract.

PAPER BAG COOKERY

Puff Paste.

Take one pound of flour, three-quarters pound of butter. Mix the flour with water and salt lightly until the consistency of butter. Leave this dough for half an hour, then flatten with your hand and lay your butter on the top of the paste. Then fold four-corner way, and give it two rolls, as usual. Leave your paster in a cool place for 45 minutes and then roll twice again. Place it in a large paper bag which will not touch the paste. Put on a grid and allow 20 minutes in a hot oven.
