Military Ceremonial and Large Turnout of Society Mark the Inauguration of Second Session of 13th Legislature —Speech From the Throne.

[Canadian Press.] Toronto, Feb. 4 .- A fine cool afterncon, more typical of winter than usual this year favored a fashionable turnout for the opening of the second session of Ontario's thirteenth Legislature. The Lieutenant-Governor Sir John Gibson was attended to the Canadian Dragoons, and was received on his arrival by a guard of honor furnished by the Tenth Grenadiers. The doors of the chamber were kept locked until nearly 2 o'clock, but the corridors were thronged, and when the Lieutenant-Governor entered the

Liberal Smokers Are Popular

The Liberal Club smokers have proved so popular that for some time at least they will be a weekly affair, and new interest will be added to that to be held tomorrow evening by the introduction of an inter-ward euchre contest. Prizes will be given as usual for progressive euchre, but a special match has been arranged by the executive between all representatives of Wards 1, and 2, who attend. The program is being arranged so that all persons, regardless of what part of the city they may live in, will participate, and an evening's enjoyable entertainment is being provided, the executive extending a general invitation to all Liberals to be present. The smoker will be held at the usual time, eight o'clock, and at the usual place, the headquarters of the Liberal Club, Queen's avenue and Park avenue.

FIRST DOCTOR'S STORY OF FRIEDMANN'S CURE

Dr. Otto Stutz, of Upper Sandusky, Ohio, Himself a Consumptive, Tells of How the Berlin Physician Injected the Serum Into His Thigh and of Its Marvellous Effect.

[Special Cable Letter to The Advertiser by W. G. Shepherd.] Berlin, Feb. 4 .- In an interview a few days ago I secured the first story an American patient who has taken the treatment of Dr. Friedmann for

This patient, is Dr. Otto Stutz, of Upper Sandusky, Ohio Here is the account of Dr. Stutz's experience in his own words "I have been a victim of tuberculosis for two years. In

desperation I came to Berlin hoping to find a cure for myself and for my tubercular patients in Ohio. "Dr. Friedmann gave me an injection of his serum in the thigh sixteen days ago.

"I suffered no inconvenience except for a slight soreness lasting about a week. "Within four days after the injection the pain in my lungs began to lessen WEIGHT INCREASED.

"My weight has increased six pounds. My appetite, which has been very poor the past six months, has become ravenous. "I climb four flights of stairs daily to my rooms, which

was an impossible feat for me three weeks ago, "I can only say that something little short of marvellous has befallen me. "I do not know whether Friedmann will give me second injection, as I am doing so well, but I feel sure

will be able to leave for home March 1st if this improvement continues. I shall be entirely cured, I think, by that "I cannot bring any Friedmann germs home with me, but I think it will oon be available for all

doctors in the United States. WITHHOLDS CRITICISM. "From what I have seen of Dr. Friedmann's germ I would give it to my patients in Ohio with delight.

'I make this statement with the greatest care fully realizing that it would be criminal to raise false hopes in American sufferers. "My message to American doctors is to withhold criticism of Dr. Friedmann's treatment until they get the facts about it." This is Dr. Stutz's story. The statements are the statements of a physi cian. If these declarations give undue encouragement to tubercular people in America I cannot help it. I merely pass Dr. Stutz's statement to his fel-

lows in the medical profession. At the same time, I must repeat to tubercular patients my oft-repeated varnings to them to not come to Berlin at this time. The situation is far from settled. No one can be sure of securing the treatment. Only a cases in many hundreds have succeeded in getting treated. If Dr. Friedmann's claims prove true; if the serum proves to be a lasting cure, you may be sure that it will not be long before physicians in America and

Detroit Police.

[Special to The Advertiser.] Crediton, Feb. 4 -- It is reported here that two men and a woman under arrest in Detroit, have in their posses-It is believed that the men are those who recently were surprised while trying to rob the local postoffice and forced to flee after a pistol duel with the manager of the Bank of Commerce and others. It is stated that the trio were arrested as they were trying to get a parcel of valuable furs through the express office. It is alleged that the furs were stolen from a northbound Grand Trunk train recently while they were being shipped in a suitcase.

The Advertiser made inquiry at the local express offices and learned that Mr. B. S. Murray, of the Canadian Express Company, is in Detroit in connection with what is supposed to be a robbery of furs. The local officials had very little information regarding That of Hamilton Road Church the matter, but it was learned that a parcel of furs that had been shipped through London was stolen from the northbound train on Jan. 28. A description of them, it was stated, corresponds with furs that are now in the hands of the police in Detroit.

CITY COUNCIL WILL ASK LEGISLATURE FOR POWER TO TAKE RAILWAY VOTE

Ald. Richter Dissents From City Solicitor's Opinion Against the Proposal to Foreclose-Warns Council That Shareholders May Make Trouble.

The city council, at its session last, night, decided not to take proceedings to foreclose the mortgage on the London and Port Stanley Railway. However, the Legislature will be asked to give the city council power to take a vote on the question of electrifying th road and operating it as an electric line or equipping it for operation by steam Ratepayers competent to vote only or money bylaws will be allowed to vote.

The opinion of City Solicitor Meredith on the advisability of foreclosing the mortgage was read, and he ad-

vised against taking that proceeding His opinion in full was as follows: Mr. Meredith's Opinion. "Ald. Moore, Chairman of the

Finance Committee: "Dear Sir,-I have considered the resolution, moved by Ald. Richter and seconded by yourself, respecting the application to the Parliament of Canada and to the Legislature of Ontario. I do not think an application to the Parliament of Canada for an act to foreclose the claim of the city of London against the London and Port Stanley Railway Company, of the same name, the capital of which is to be vested in the corporation of the city of London, would be granted, as it would mean the cutting out of the rights of the shareholders, without the usual proceedings being taken. I understand from Ald. Richter, that, in framing the resolution, his intention was to provide in the application to the Parliament of Canada for power to issue mortgage bonds of the London and Port Stanley Railway Company, which would be a charge upon the railway, and the franchise, tolls, rents. revenues, property of the railway company, as security for the payment of any moneys which might be advanced by the city to the railway company for the purpose of equipping the road. I see no reason why an application to the Parliament of Canada, made by the company, with the assent of the city, who are the only creditors, for authority to issue such mortgage bonds or debentures, should not be granted. In order that the city may lease and operate the London and Port Stanley Railway, it will be necessary to obtain power for that purpose from the Legislature of Ontario. It will also be necessary to apply to the Legislature of Ontario, if the city proposes to issue debentures to equip the road, for authority to pass a bylaw to issue debentures to equip the road, for authority to pass a bylaw to issue the debentures after the bylaw receives the assent of the electors. Yours sincerely,

"T. G. MEREDITH." Ald. Richter Explains.

Ald. Richter explained that in Mr. Meredith's opinion, the Parliament of Canada would not give the council the authority to foreclose the mortgage without an appeal to the courts. He (Mr. Meredith) also was of the opinion that the Parliament of Canada would, if the ratepayers and council consented, pass an act allowing the city to orrow whatever money was needed to equip the line, and charge it against he road. Authority for submitting a aylaw would have to be obtained from the Legislature.

Ald. Richter did not agree with Mr. Meredith, and subjected the latter's pinion to criticism.

"My object in presenting the motion at the last meeting of the council was to give us full control over what we ontrol in part at the present time," he declared. "It was my intention to have Mr. Meredith implement my motion wherever it was necessary to give it effect. I pointed out that the city desired the authority to expend certain sums of money in equipping the London and Port Stanley Railway for certain purposes. This, as I pointed out, involved the expenditure of considerble money without the proper authority. Under the act of 1903, the city is prevented from spending any more
