

## Have You Seen the NEW OVEN On Moffats Electric Range?

Women will welcome with delight this new improvement to the oven of Moffats Electric Ranges. Note how the walls of the oven are grooved to form a series of racks or runways for the removable trays. No hooks on the walls, no loose, sharp-edged metal racks to collect grease and dirt, or to scratch the hands.

Now you have a smooth, seamless oven. All the space is utilized. The whole oven can be kept as clean and spotless as a porcelain bowl. This oven is safe from rust, as the shape of rust-resisting Armco Iron is electro-porcelain enameled, inside and out.

### Reveals New Secrets in Baking and Roasting

Moffats oven elements give a steady, even heat, which bakes or roasts all the flavor and savory juices into oven-cooked dishes. The ventilation is scientifically adjusted so that pies, pastry, cakes, puddings and similar dishes are baked to perfection. Fowl, fish, beef and other meats, are roasted or baked with a minimum of shrinkage.

Wouldn't you be proud of such a range in your kitchen? Write for full particulars to Moffats, Limited, Weston, Ontario.

### DR. F. GODFREY PRAISES BYRON

Provincial Minister of Health  
Visits London Hospitals  
Yesterday.

Hon. Dr. Forbes Godfrey, minister of health in the Ontario government, was more than delighted with London hospitals, their staffs and equipment, he told The Advertiser yesterday afternoon. Dr. Godfrey was warm in his praise of Byron Sanatorium.

"I was never so surprised in my life," he stated. "We visited Byron, and although I was prepared to see a splendid institution, I had no conception of the wonderful work being carried out there. It is complete in every detail and could hardly be improved on. Everything was complete, from the staff and buildings down to the last pigsty. I fancy that this is due in a large respect to my friend, Sir Adam Beck, who I understand is the driving force behind the institution."

Asked as to pronouncements made several months ago regarding the work being now carried on by Dr. Banting, Dr. Godfrey shook his head. "I don't know what Dr. Banting is working on now. I don't even know that he is working on anything. If he never does more than he has done in the insulin cure, I will be quite satisfied."
