

By Electric Telegraph. SPECIAL TO THE DAILY BRITISH COLONIST.

Europe.

London, Dec 14.—The trial of Gurney and others has commenced. Chief Justice Cockburn presides.

There is news from Peking that the treaty between Great Britain and China, negotiated by Burlingame, has been ratified by the Chinese Government.

Much excitement has been caused by the sudden breaking out of the influenza at the great winter in this city.

The remains of George Peabody were received on board the iron-clad Monarch on Saturday.

The ceremony was attended by many distinguished persons accompanied by the remains to the place of embarkation, where they were received by the city authorities of Portsmouth and officers of the Monarch and the U.S. Steamer Plymouth.

The ships in the harbor displayed flags half-mast and dipped their masts as the Monarch steamed out, and minute guns were fired.

MADRID, Dec 15.—The Official Gazette publishes a decree restoring the constitution and guaranteeing order for election to fill 29 vacancies. It is rumored that the King of Italy told the Spanish Ambassador at Florence that he should refuse his consent to the Coronation of the Duke of Genoa.

It is also reported that the Arch Duke Victor, brother to the Emperor of Austria, has refused the overture made by Spain in connection with the throne.

PARIS, Dec 16.—The Duchess of Genoa has positively protested against her son's receiving the Spanish crown.

The figure to-day says Count Dax has had a conversation with the Emperor on the subject of his entering the Chamber. He made as a condition of receiving the appointment that the Orleans Prince should be permitted to enter France. The Emperor replied that it was the Republic that called them—and he concluded his remarks to the Count with the words—'See us again on this interesting subject.'

LONDON, Dec 16.—It is reported to-day that the Suez Canal will be closed to commerce shortly in order that new excavations may be made.

ROME, Dec 16.—There was a brilliant review of the Pontifical Zouaves yesterday by Gen. Kautler, Minister of War. The weather was splendid and everything passed off finely. Sixty thousand spectators were present, including 500 Bishops and many foreign military Priests.

PARIS, Dec 16.—It is reported that the Emperor has instructed his Chamberlain to meet Pere Hyacinthe on his arrival and dissuade him against attempting to approach Paris.

Letters from Rome report that the Pope is appointing Guallesio Bishops to leading committees. It is generally understood that the action of the Pope in dissolving the council in case of his death is to prevent the election in the Pope's of any but an Italian.

PARIS, Dec 16.—The earliest insurrectionists are on the French border. Several cases of arms, supposed to belong to them, were seized yesterday by the French authorities at Bayonne.

Late advices from Rio say the Brazilian Ministry unsuccessfully opposed the concept of the war against Paraguay and tendered their resignations, which were accepted.

LONDON, Dec 16.—The Telegraph in an editorial on the renewal of the reciprocity treaty predicts some modification of the policy of Congress towards the Dominion of Canada through the influence of Secretary Fish, who is a free trader.

The Times, while admiring the improved quality and quotations in the prices of India cotton does not consider it possible to displace the American descriptions.

NEW YORK, Dec 16.—A Herald's London special says an important Papal Bull has been issued, under the seal of strict secrecy, establishing regulations for the Bismarckian Council. As its execution, the Holy See exhorts the Bishops to live in the midst of charity, humility, sobriety and dignified contemplation during the session of the Council. He declares that although the sight of making propositions for the Council belongs only to himself and the courts of Rome, he desires and expects every father to think it his duty to make preparations. The Bull prohibits the laicists from absenting themselves before the conclusion of October, and authorizes them to reside outside of the city diocese during the entire period of the Council. The majority of the Bishops are dissatisfied with the Papal Bull.

LONDON, Dec 16.—The Times in an article on the Canadian Reciprocity Treaty, says its rejection by the U.S. Senate relieves England of an awkward question.

LONDON, Dec 16.—Koopmanschap, the Chinese merchant of San Francisco, is negotiating with Blyden's Steamship Company for the transportation of coolies from China ports by way of the Suez canal.

Canada.

OTTAWA, Dec 17.—It is said that payment to the Hudson Bay Company for the Northwest Territory will not be made for some time. The instruction is left to be dealt with by that company.

Quebec, Dec 19.—St. Felix's special says the Press has received a letter from prominent Canadians at Pembina, which says Gov. McDougall has not called on Canada for troops but relies on the loyal people of the Territory to quell the outbreak. He thinks they will do it without bloodshed. The letter states that McDougall's forces are rapidly increasing by acquisition of loyal people from all classes, and that large bands of Indians were ready to assist in defense of the flag.

Oregon.

PORTLAND, Dec 17.—Steamer Ajax sails for San Francisco to-morrow evening. Steamer Gassie Telfair arrived at half past two this afternoon.

Last quotations of Legal tenders, 81 and 82.

PAPER, and so on are all home made; no injurious coloring is used in manufacture.

Ayer's Cherry Pectoral, For Diseases of the Throat and Lungs.

Such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything been so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among all the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, has made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for indolent consumption, and the dangerous affections of the throat and lungs. As a protection against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this article for their own use.

Although settled Consumption is thought incurable, all great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disease, that it has been known to cure the most obstinate of them, and to yield to it. When nothing else could reach them, under the Cherry Pectoral they succumb and disappear.

Singers and Public Speakers find great protection from it. Asthma is always relieved and often wholly cured by it. Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses. So generally are its virtues acknowledged, that we do not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

As its name implies, it does Cure, and does not Kill. Containing neither Arsenic, Opium, or any other mineral or poisonous substance whatever, it is in no wise injurious to any patient. The number and importance of the cases cured, are literally beyond account, and we believe without a parallel in the history of Ayer's medicine. Our price is greatly reduced, so that every one can receive the radical cure effected in obstinate cases, and where other remedies had wholly failed. Uneducated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the AYER'S CHERRY PECTORAL daily. For Croup, Whooping Cough, and all other affections of the Lungs, it is an excellent remedy, stimulating the Lungs to healthy action. For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing manifestly marked cases, where other remedies had failed. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., and Analytical Chemists, Lowell, Mass., and all around the world.

PRICE, \$1.00 PER BOTTLE.

Ayer's Ague Cure.

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical Fever, Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

Ayer's Hair Vigor.

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.

Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a soft and pleasant odor, it is a most desirable article.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., and all around the world.
