All prices f.o.b. Toronto

Subject to change without notice

Buying automobiles is very like buying investment securities. You consider

- the relation of price to value.
- The security or integrity of value
- the return.

When you consider the relation of price to value, the Overland Big Fours and Light Sixes conspicuously stand out as more automobile for the money than can be had in any other cars of similar specifications.

As to security—the Willys-Overland industry,—firmly entrenched,—with more than sixty-eight million of assets,—with more than four thousand successful dealers and branches, is squarely back of the integrity of value in these cars throughout the whole period of their use in your service.

As to return—the return these cars give you in service. Their economy of operation and rugged reliability are established by over three hundred thousand in use.

Value! Security!! Return!!!

Until May 1st, Big Fours \$1190, Light Sixes \$1380, while we have them to deliver—thereafter \$1250 and \$1435.
