THE GREAT AN REMED

RHEUMATISM

Neuralgia, Sciatica, Lumbago, Backache, Screness of the Chest

Fout, Quinsy, Sore Throat, Swell-ings and Sprains, Burns and Scalds, General Bodily

There is an old graveyard in Sara toga, close to one of the hotels, in time in a jar of water, changing the which many distinguished men and water every morning.

Andrew H. Greene, he married a girl serve the color. Andrew H. Greene, he married a girl he courted in my grave yard. Fernando Wood used to have a seat here, and Charles A. Dana, he used to know 40 years ago, all about flirting in a graveyard. Old Gen. James Watson Webb used to walk the young ladies up here 50 years ago, and his son, the doctor, why he never could get along at all courting Miss Vanderbilt till he got her away from the stuck-up States

which, if crossed in safety, leads to the valley of 'Old Age,' around which the river winds, and then flows without a doubt of causeway to affect its passage. The bridge is, however, constructed of fragile materials, and it depends upon how it is trodden whether it bend or break. Gout, apoplexy, and other bad maladies are also in the vicinity to waylay the traveller and thrust him from the pass; but let him gird up his loins and provide himself with perfect composure. To quote a metaphor, 'the turn of life' has a turn either to a prolonged walk or unto the grave. The system and power having reached their utmost expansion now begin either to close, like flowers at sunset, or break down at once. One injudicious stimu lant, a single fatal excitement, may forced it heavend its strength. Whilst a

real genuine lovers.' 'But how do the minute, and the remedy is simply alum lovers manage down at Long Branch and sugar. The way to accomplish and over to Newport, when they have the deed is to take a knife or grater, no graveyards handy?' I asked. 'I and shave off in small particles about a don't know, but they have maiting teaspoonful of alum; then mix it with places somewhere. I 'spect they sit twice its amount of sugar, to make it out in the sand under the bluffs, or sit palatable, and administer it as quick as around under umbrellas in the pavil- possible. Almost instantaneous relief

Geraniums for Winter. Saratogo graveyard philosopher said to A correspondent of the American HOW LOST, HOW RESTORED Rural Home, writing on this subject,

The Critical Period.—From the age of forty to that age of sixty a man who properly regulates himself may be considered in the prime of life. His nature strength of constitution renders him almost impervious to the highest attacks of disease, and all the functions are in order. Having gone a year or two past sixty, he arrives to the critical period of existence; the river of death flows before him, and he remains at a standstill. But athwart this river is a viaduct, called the 'Turn of Life,' which, if crossed in safety, leads to the valley of 'Old Age,' around which the river winds, and then flows without a doubt of causeway to affect its passage.

lant, a single fatal excitement, may force it beyond its strength, whilst a lowing. Scarlet require larger pots careful supply of props and the with-drawal of all that tends to force a plant will sustain it in its beauty and vigor tracted space. Pinch out all flowerbuds, until the plants are taken in for

LONGFELLOW'S INDEPENDENCE.—The most urbane and sympathetic of men, never aggressive, nor vehement, nor self-asserting, he was yet thoroughly independent, and the individuality of his genius held its tranquil way as surely as the river Charles, whose placid beauty he so often sang, wound through the meadows calm and free. When Longfellow came to Cambridge, the impulse of Transcendentalism in New England was deeply affecting scholar.

Joker's Corner.

A Critic as is a Critic. The practice of pruning the pear The musical critic of the Lowell when attacked by blight is one which (Mich.) Journal went to a Kellogg conhas been followed by many cultivators cert the other evening, and sizes up with excellent results. While it will some of the members of the company not stop the progress of the disease in every case, it will frequently do so and will, in many cases enable the orchardist to save a valuable tree. The knife ist to save a valuable tree. The knife and saw should be used vigorously, and in no chary way, and large branches should often be removed. In any case of severe blighting it is \*kill or cure,' and while the changes may be not for saving the tree, it is well to take for saving the tree, it is well to take even the few changes, remembering that if unmolested the disease itself that itself that if unmolested the disease itself that would certainly kill the tree, We can-not tell just why pruning is helpful, because we do not yet know certainly pearance of 35. His voice has lost its what blight is. Professor Burrill, with what blight is. Professor Burrill, with get there.' He has an automatic pretty good reason, thinks it to be a shut-off somewhere in the region of pretty good reason, thinks it to be a kind of vegetable anthrax, due to the presence of bacteria. Professor Budd regards it as a kind of vegetable fermentation, due rather to the over heating of the young tissues. By some it the Kellogg, was the fellow that fid-

is considered as having some relation died, Adawowski, they call him. He to the severity of the preceding winter. Other sagain suspect that parisitic fungi have to do with it, and so on. As long as the doctors disagree as to the nature of the disease, of course no explanation of how a remedy acts can be given. Pruning in case of blight be given. Pruning in case of blight must still be regarded as an imperial remedy. M. W. C. Goodhart, Baterwille, Ohio, in a recent letter to the

Tribune relates his experience in fighting pear blight by pruning and then setting grafts from a healthy tree. He is inclined to attribute his success but Julia and Charlie still lingered in nore to the influence of the grafts the parlor. A profound silence broodthan to the pruning, considering the ed over the house until the moment grafting as a kind of inoculation or came for the lovers to part, and then accination. In this supposition he is the old folks distinctly heard such halfin error. Grafting differs entirely from suppressed exclamations as 'Oh!' nochlation or vaccination in animals, Outch!' Wow!'
