One of the most largely attended and successful pie socials of the season was held at the residence of Mr. Hugh Kerr on Tuesday of this week. Margaretville, Middleton, Spa Springs, Salem and other places were represented in the assembly. Much regret was expressed at the illness of Mrs. Kerr, which prevented her from mingling with the guests and receiving the greetings of friends. Among the pleasures of the evening was that of hearing once more the voice of our old friend and sweet singer, Charlie King, in songs both comic and sentimental. Misses Margeson and Buskirk also favored us with choice vocal and instrumental music, and Mr. L. Magee gave a reading which was well rendered and heartily appreciated. World's Fair Employes May Strike.

Chicago, Feb. 26.—Unless the demands of the striking electrical workers are granted to-day all the members of the building trades council, representing 27 trades, will quit work at the World's fair grounds.

The next point to consider is the item of wages. You can get all the help you need for \$50 per month all the year round for the milk of 250 or 300 cows, so that would do away with \$300.

As to fuel, 12 tons of coal will be enough. Rogers will preach in Melvern Square Prespyterian church on Sunday, March 5th inst., We are glad to be able to write that Mrs. Kehoe, who has been suffering from a fractured arm, is improving slowly.

J. E. SANCTON. FARMING

Fertilizer farming is assuming large proportions in Nova Scotia. Some of the most surcessful farmers both in Canada and the State use only artificial manures. Prejudice again them is dying out before the light of scient and experience, and now a good reliable Fertand experience, and now a good reliable Fertand experience. and experience, and now a good reliable Fertilizer is generally acknowledged as a good thing.

What constitutes a good Fertilizer is not as generally known as it should be. Nitrogen, Phosphoric Acid and Potash are the three essential elements to be supplied to the soil, and the larger the percentage of these, the more available the form, and the better the mechanical condition the better the Fertilizer will be. These points should be carefully looked into by purchasers, rather than how to get the barrel filled for the least money.
