

The
Gerhard
Heintzman
Piano

THROUGHOUT Canada three generations of Canadians have learned to love the lasting beauty and fascinating sweetness of the Gerhard Heintzman piano. It is a possession of which many of Canada's best homes make their proudest boast.

This nation-wide honor, this half-century-old reputation does not come by chance. Canada's Great Piano has won this dominant preference simply because of its outstanding merits.

The first Gerhard Heintzman piano made was the best piano of its day. Year after year—as its skill and experience widened, as its study of tone-production revealed new ideas—the Gerhard Heintzman organization has produced a better, a more refined piano.

To-day the Gerhard Heintzman ranks high among the world's greatest pianos.

To-day the agency for the Gerhard Heintzman piano is the most sought after agency.
