Scientific and Useful.

To give consistency to a pie-plant pie, allow to one coffee cupful of pulp, one heaping tablespoonful of cornstarch, then mix with this the yolks of three eggs, and use the whites for a meringue.

Frozen oranges for dessert on a July day are delicious. Remove the peel and slice the oranges; to each pound of oranges add three quarters of a pound of sugar and one-half pint of water, and freeze.

CORN STARCH CAKE.—One cup butter; two cups sugar; one cup sweet milk; whites of six eggs; two cups flour; one cup corn starch, and two teaspoonfuls of baking powder; flavour to taste.

POUND CAKE.—One pound sugar, one pound butter, one pound flour, one dozen eggs. Scent with lemon. Stir the sugar and butter together until light. Add the flour, and bake in a moderate oven.

CRAB-APPLE PRESERVE.—Scald the apples, then remove them from the water, and to every pound of apples add a pound of sugar. Put the apples and sugar over the fire, and cook slowly till the fruit is tender.

DELICIOUS BISCUIT.—Half cup butter, half cup lard, two tablespoonfuls white sugar; put into three tea-cups of new milk and let it scald, and add a cup of yeast or a yeast-cake, sponge over night and in the morning put in half teaspoonful soda. Mix soft and let them rise.

ASPARAGUS SOUP.—Boil twenty-five heads of asparagus in a quart of soup stock until they are quite done, then pound the asparagus in a mortar and pass it through a sieve. Mix a tablespoonful of flour and an ounce of butter in a saucepan on the fire, add pepper, sugar sauce, the asparagus, and last of all the stock. Let this mixture boil; add half a gill of cream before taking it from the fire, and serve with fried bread dice.

FLEMISH CARROTS.—Cut carrots, after washing and scraping them, into thick, round slices, boil them for five minutes and then set them to simmer with an ounce of butter, a little salt and twice as much stock as is necessary to cover them. When the stock is reduced to one-third of its original quantity, add a little butter, a sprinkling of sweet herbs, and a spoonful of Liebig's extract. Boil once more and serve with fried bread dice.

FRENCH TONGUES.—Boil a calf's tongue until tender, skin it, split it longways down the middle, lay it on a dish with some slices of pickled cucumber placed on it, a little Cayenne, then make a sauce to pour round it, with a piece of butter, a tablespoonful of flour well browned over the fire; when sufficiently brown pour on it sufficient of the liquor the tongue was boiled in, keeping it stirred until it makes a thick gravy, adding a tablespoonful of pickled cucumber. A hallock's tongue can be done in the same way, garnished with pickled gherkins.

A CHOICE RECIPE FOR COLOURING RED.—Mix two ounces of muriatic acid and one of oiler together in a tin vessel, and let them stand three days. Fill a clean copper with pure pure soft water, and add enough of the first mixture to make it a little sour. When near boiling put in four ounces of alum and an ounce of crude tartar for every pound of goods. Immerse the goods two hours, airing them once during that time. Empty the kettle and set a new dye, allowing three ounces of madder for every pound of goods. Steep well without raising the heat at first. Give the goods a long dip, airing them once or twice. Scour in strong soap suds.

A GREAT INSTITUTION.

The surgeons of the **International Throat and Lung Institute**, operating from their different offices, **Montreal, Toronto, Detroit, St. Louis, and Winnipeg, Minn.**, are treating more patients suffering from Consumption, Bronchitis, Laryngitis, Pharyngitis, Asthma, Catarrh, Catarrhal Deafness, than any other institution in the world. We will treat no case we think incurable. We can cure every case and cure the majority we undertake to treat if patients will strictly follow our directions. By the use of cold inhalations conveyed to the diseased parts by the **Spirometer** the wonderful invention of Dr. M. Souville, of Paris, ex-aidé surgeon of the French army, and other proper local and constitutional treatment, we are curing thousands of cases of the above named diseases every year. Write enclosing stamp for **list of questions** and copy of **International News**, published monthly, which will give you full information and reliable references. A NOTED BUT UNTITLED WOMAN.

(From the Boston Globe.)

Mass. Editors.—The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other women being may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep a lady assistant, to help her answer the large correspondence which daily pours in upon her each day. Her special burden of suffering, or 3-4 as release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this. On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhoea, irregular and painful menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life." It permeates every portion of the system, and gives new life and vigor. It removes faintness, dizziness, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system. It costs only \$1. per bottle or six for \$5, and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass. For kidney complaint of either sex this compound is unsurpassed as abundant testimonials show. "Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the Liver. Her Blood Purifier works wonders in its special line and does fair to equal the Compound in its popularity. All must respect her as an Angel of Mercy whose sole ambition is to do good to others." WELLS, RICHARDSON & CO'S IMPROVED BUTTER COLOR A NEW DISCOVERY.
 For several years we have furnished the Dairy men of America with an excellent artificial color for butter so meritorious that it met with great success everywhere, and is now the highest and only price at both home and foreign Dairy Fairs.
 But by patients and scientific men, research we have discovered in several places and now offer this new color as the best in the world. It will not color the Buttermilk. It will not turn Rancid. It is the Strongest, Brightest and Cheapest Color Made. And, while prepared in oil, is so compounded that it is impossible for it to become rancid. Beware of all imitations, and of all other oil colors, for they are liable to become rancid and spoil the butter.
 If you cannot get the improved write us to know where and how to get it without extra expense.
