There is no Substitute for Cod-Liver Oil

BUTLER, in his new Materia Medica, makes this very clear. He says:

"Cod-liver oil is more readily absorbed and oxidized than any other fat. It has already been prepared by the liver and, therefore, partly elaborated."

Scott's Emulsion

"The Standard of the World"

contains this "prepared and elaborated" oil, emulsified and combined with glycerine and the hypophosphites.

There is no Substitute for Scott's Emulsion.

It is the only permanent emulsion. It is not unpleasant to the taste. It keeps in any climate. It has been tested for nearly a quarter of a century.

Two sizes, 50c. and \$1.00. In prescribing, please specify unbroken package. Small size put up especially for convenience in cases of children.

**SCOTT & BOWNE,
Toronto**
