

HIGHEST GRADE DIGESTIVE FERMENTS

WE OFFER a line of High Grade Digestive Ferments of our own manufacture, which we believe is superior to any similar line of goods now on the market. The prices given are net without discount.

PEPSIN AND PREPARATIONS

DIKE'S PEPSIN, 1-3,000, U.S. Ph.—The advantages of this over all other Pepsins are sufficiently well known to make further comment unnecessary. 50c. per oz., \$7.20 per lb.

DIKE'S ESSENCE OF PEPSIN—This preparation will be found very much stronger in both digestive and milk-curdling properties than any similar preparation on the market. In 8-oz. bottles at \$5.00 per dozen.

SACCHARATED PEPSIN, 1,300, U.S. Ph.—Much of the Saccharated Pepsin sold corresponds to the test of the old U.S. Ph. of 1860. Ours will be found to be exactly one-tenth of the strength of Dike's Pepsin and to conform in all respects to the present U.S. Ph. Standard of 1890. \$1.00 per lb.

GLYCEROLE OF PEPSIN—A 10 per cent. glycerine solution of Pure Pepsin. Very active and convenient for the dispenser and manufacturer. Each minim represents one grain of Saccharated Pepsin and will digest 300 grains of coagulated albumen. \$1.00 per pint.

LACTINATED PEPSIN—A compound powder containing in proper proportion all the digestive ferments of the alimentary canal, including Pepsin (proteolytic); Pancreatic Diastase (starch converting); Steapsin (emulsifying and fat splitting); and Trypsin (proteolytic), combined with small proportions of hydrochloric and lactic acids. 25c. per oz.; \$3.50 per lb.

ELIXIR OF LACTINATED PEPSIN, \$7.00 per dozen pints; \$3.60 per gallon.

PANCREATIN AND PREPARATIONS

PANCREATIN (STEARNS')—A very high grade pancreatic extract containing the essential digestive ferments, Trypsin, Diastase (pancreatic), Steapsin, and the milk curdling-ferment. It, therefore, has the power of digesting proteids, converting starch into maltose, isomaltose, and dextrose; emulsifying and splitting up fats, and curdling and digesting milk. 50c. per oz.; \$7.20 per lb.

STEARNS' ESSENCE OF PANCREATIN—This preparation represents in a high degree all the properties of fresh pancreatic juice. \$5.00 per dozen 8 oz. bottles.

SACCHARATED PANCREATIN (25 per cent. pure Pancreatin)—20c. per oz.; \$2.00 per lb.

GLYCEROLE PANCREATIN (10 per cent. pure Pancreatin)—Per pint, \$1.00.

DIASTASE

DIASTASE - STEARNS (Pancreatic Diastase)—The isolated amylolytic ferment of the Pancreatic juice. Sir William Roberts, M.D., F.R.S., the most eminent living authority on digestive ferments, in his book on "Digestion and Diet," accords Pancreatic Diastase the highest rank among the amylolytic ferments, whether of animal or of vegetable origin. \$6.00 per dozen flasks, each containing 40 pilloids of 2½ grains.

ESSENCE DIASTASE-STEARNS—A delicious cordial containing in each teaspoonful two grains of "Diastase-Stearns." For the treatment of amyloseous dyspepsia, in which bread, cake, pancakes, as well as potatoes, peas, beans, and other substances containing starch, readily ferment in the alimentary canal. In 8 oz. vials at \$8.00 per doz.

RENNIN

RENNIN—The isolated milk-curdling ferment. A most concentrated product, each grain curdling 32 fluid ounces of milk. Useful for manufacturing Liquid Rennet for making junket, whey, etc. 50c. per oz.; \$7.20 per lb.

Our TINCTURES and FLUID EXTRACTS are carefully prepared by skilled chemists according to the recognized standards. That they are cheaper than others is all in your favor. We hope for your critical examination and enquiry for quotations. Send for our pamphlet on NON-ALCOHOLIC TINCTURES, E. & Co.; they are very economical when their use is permissible. EXTRACT OF VANILLA is a specialty with us.
