ENGLISH SUMMARY.

The most recent intelligence is neither very important nor striking. In our extracts in the columns containing the spirit of the Press will be found the principal items of news.

The principal French news this week is the report of the sale of the pictures of the late Marshal Soult, which occupied several days. As the President appears to see the policy of keeping on good terms with Romanism, we are not surprised to find the Government purchasing, at the enormous price of £23,440, a very beautiful picture, by Murillo, of a very anti-Scriptural notion of the Conception of the Blessed Virgin, representing her as ascending upon clouds, attended by a procession of admiring angels. A fine picture of the Marriage of the Virgin Mary, consistently enough, fetched a small price. Two pictures of the "Virgin and Child" and "Venus Adonis" were described as "pendants" to each other!

A duel has taken place between two legislators—one of whom has hitherto been regarded as so far a Christian as to be numbered among the ranks of what was formerly termed the "Young England" party, most of whom were considered earnest Churchmen. The folly of the whole affair is as evident as its wickedness.—The "honorable" principals declared themselves satisfied, and yet have been since writing about each other in such a way as to show that this was simply untrue. So much for the "satisfaction" of two "honorable" members! We hope that as one of the would-be slayers of his brother is in the army, Her Majesty will take some decisive step to show that those who have the folly to imagine that pistols are the test of truth, and the wickedness to apply that test reckless of God's law, and of the interests and happiness of their nearest relatives are utterly unworthy of the service of a Christian Queen, however "honorable" they may fancy themselves.

Mr. Gladstone's defeat of the Ministry has been followed by his own defeat upon the Colonial Church Bill. It would have been much wiser to have run no such unnecessary risk in the matter.

The Maynooth debate is apparently "shelved" for this Session, and consequently, for this Parliament.—Lord John Russell has issued a long address to the electors of the City of London, reminding them of the benefits of his policy, and suggesting that a union of Free-traders of all parties will be necessary to secure those benefits—from which some persons infer that he would have no objection to Radical colleagues in a future Russell administration.

The judgment of Lord Campbell, Dean Milman of St. Paul's, and Mr. Grote, on the dispute which has been going on for some time between a very small minority and a very large majority of booksellers and publishers will be found to be conclusive, and the practice which it condemns to be the most satisfactory which can be adopted. If there is to be a different price for books in every bookseller's shop in London, the public will never know what they ought to pay, nor whether those whom they have employed to purchase them have dealt fairly in the matter. There is a class of persons who would walk from Hyde Park Corner to Whitechapel Church for the purpose of finding out the bookseller who would abate the greatest number of pence from the price of a new work.

We regret to announce the death of the Hon. J. C. Talbot, Q. C., a distinguished, energetic, and active Churchman, as many of our readers are aware. He died rather suddenly at Brighton on Tuesday.

THE BISHOP OF LONDON AND THE LORD MAYOR.—At the festival of the sons of the clergy, the Bishop of London, on his health being drunk, said he was most happy to be present among them on that occasion, and to meet them under the presidency of the Lord Mayor. His lordship and he were fellow townsmen, and 50 or 60 years had elapsed since they had taken leave of each other in their native town, both being humbly born and bred. They had both since attained, under the blessing of Divine Providence, to the highest positions in those spheres of ecclesiastical and municipal life to which they had been respectively called. (Cheers.)

The Justices of the Peace for Edinburgh have passed resolutions for preventing spirit-shops from being open on Sundays.

The Queen of Spain has sent the insignia of the order of the Golden Fleece to his Royal Highness the Prince of Wales.

The most recent intelligence is by the Baltic which arrived on the 13th. The following items we borrow from the telegraphic report in the Daily Colonist:

The floor of the Commercial Exchange, in Brunswick street, Liverpool, gave way at noon, on the 1st instant, precipitating upwards 100 merchants into the vaults beneath. None were killed, although a number were more or less injured.

Parliament had adjourned over Whit Sunday holidays. The crops throughout England are luxurious and similar accounts are given from Ireland.

Three companies are now at work laying down Telegraph communication between England and Ireland.

Sir J. G. Le Marchant, the present Governor for Newfoundland, is appointed to succeed the late Sir J. Harvey as Lieutenant Governor of Nova Scotia.

A letter from Mr. F. Hincks, of Canada, to Sir J. Pakington, Secretary for the Colonies on the subject, of British North American Railway, has excited considerable attention, and is made the substance of a leader in the London Times.

There are 11 vessels in the Port of London up for Australia. The Government Emigration Commissioners intend chartering 8 per month for the next six months, for the same destination. 7 vessels are loading at Liverpool for Australian ports.

A telegraphic despatch, by the last steamer, announced the fall of Rangoon and Matarban, and the capture by the British forces of 150 pieces of cannon.

The Burmese garrison was about 3,000 strong.

Cholera has broken out among them since the capture of the city. It is said that the Governor General has claimed from the Burmese the sum of £250,000 for the expense of the war, up to the 31st of March, with a notification that they will be charged £10,000 per day, until they accept the terms dictated by the British.

From the north west frontier of India, advices are less satisfactory to the British. The revolted hill tribes keep up a harassing warfare with the outposts. Reinforcements have been sent to endeavour to bring them to action.

The Moniteur declares that the warlike rumours are unfounded, and that the right of the French nation to fix its own form of government has never been contested by other powers. More refusals to take the oath of allegiance are announced. The refusals come principally from the members of the General Council.

TO OUR SUBSCRIBERS.

The proprietor of this journal intends reducing the price thereof to FIVE SHILLINGS per annum, payable strictly in advance, or SEVEN SHILLINGS AND SIXPENCE credit.

This reduction of terms will take effect at the commencement of the Sixteenth volume, being the first week in August next.

A desire to extend the already large circulation of the "Church," and consequently to increase its influence as an exponent of sound ecclesiastical principles, is the reason which has induced the proprietor to determine upon the above change.

In order to second and carry out his views, he confidently trusts that the Clergy and Laity of the Diocese, and members of the Church elsewhere, will use their best endeavours to procure accessions to the subscription list.

It is hardly necessary to state, that the size of the paper will fall to be somewhat diminished, in consequence of the reduction of price. By a careful condensation of intelligence, however, and a judicious arrangement of matter, it is believed that the amount of substantial information at present presented by the sheet will suffer no abatement. As heretofore, faithful chronicles will be given of the progress and struggles of our branch of Christ's Holy Catholic Church, both in the Mother Country and the Colonies; and the affairs of the Diocese will meet with an attention at least equal to what they have hitherto received.

After due deliberation, and in accordance with the suggestions of several friends, the "Young Churchman" will in time to come be incorporated with this journal. A portion of each number will be specially devoted to the "lamb of the fold," and to matter bearing upon Sunday-schools and home education. Parties who have paid in advance for the current volume of the "Young Churchman" will, in lieu thereof, receive the Church till the expiry of their term of subscription.

New subscribers are requested to transmit their names and addresses to the publisher, without delay, in order that the extent of the impression may be regulated accordingly.

CHURCH OF ENGLAND PROPRIETARY SCHOOL FOR YOUNG LADIES, TORONTO.

COUNCIL:

THE LORD BISHOP OF TORONTO, President and Permanent Visitor.
FRANCIS BADGLEY, M. D.
THOMAS BAINES, Esq.
F. W. BARRON, M. A.
JAMES BOVELL, M. D.
WILLIAM SLADDEN, Esq., and
THE REV. STEPHEN LETT, LL.D., Honorary Sec.

FOR many years Parents and Guardians throughout the Province have felt the want of an institution where they could obtain for their daughters the advantages of a sound and accomplished Education, at a reasonable rate. To meet this want several attempts have been made by private effort, and so far as the education has been concerned, these attempts have been successful, but experience shows that they have signally failed when the attendant expenses are considered. From a careful examination of the terms published by proprietors of Ladies' Schools in different parts of the Province, which have obtained a high reputation, it appears that for every advantage proposed to be given in this Institution to Day pupils for £15 a year, the average is £62; while similar advantages can be obtained for a Son at the first scholastic establishment in Upper Canada for £10 per annum.

Thus, then, it appears that these two objects, viz., a good education and reasonable charges, have not been, and it is believed cannot be afforded by individual exertion, and therefore several gentlemen, having daughters to educate, have proposed—under the auspices of the Bishop—to found a Proprietary School, and they invite the co-operation of others similarly circumstanced.

A Council, holding office till the month of September, 1853, have been appointed, who have with great care entered into the estimates and matters of detail, and they find that the following scheme will enable them to carry out their views on the most liberal scale.

1st. The present stock of the Society to consist of 1,250l., in One Hundred Shares of 12l. 10s. each, of which 3l. 2s. 6d. to be paid forthwith; 3l. 2s. 6d. at the opening of the Establishment in September next, and the remainder when called for by the Council.

2nd. Each Shareholder to have the privilege of nominating one young Lady to the scholastic advantages of the Institution, commencing instruction in English, Writing, Arithmetic and the Use of the Globes, French, German, Italian, Piano Forte (together with the use of Instrument), Singing, Drawing, Calligraphy, &c. Plain and Ornamental Needle work; also, as opportunity may occur, arrangements will be made for Lectures, illustrated by Apparatus, on subjects of General Information.—The Parent or Guardian of the young Lady so nominated to be liable to the Council the sum of £15 per annum, payable quarterly in advance.

In order to meet the cases of the casual residents in the City, who may not wish to become Shareholders, the Council will make arrangements under which the benefits of the Institution may be secured by such residents for their children or wards. Connected with the Institution and forming a prominent part of it, will be the Boarding Establishment. This will be under the care and management of a Lady Resident, whose special duties will be to form the manners and habits of the pupils, to promote their comfort and happiness, and to watch over their health with maternal care.

The charge for Boarding will be thirty-one pounds per annum. There will be no extras whatever.

The Council have much pleasure in expressing a strong hope that they will be able to secure a Building situate in healthy and well enclosed grounds.

The Educational Department will be conducted by qualified Teachers, chosen by the Council, and no efforts will be spared to obtain the best and most efficient instructors; and as each Teacher will instruct only in a limited number of branches, that variety of style and system, so pleasing and advantageous to youth, will be secured; and the whole of the daily tuition will be under the supervision of the First Teacher, and subject to the inspection and control of the Council. And as of every well regulated system of Education Religion forms the basis, so in this Establishment will particular attention be paid to training up the pupils as Christian Gentlemen. The Worship of the Almighty will be a part of each day's employment; Scripture lessons will occupy the opening hours, and the Chaplain will attend to impart religious instruction.

(Approved.)
