

Sanitary Equipment For Private Houses

IT has been our good fortune to supply Sanitary Equipment for many, many thousands of Canadian Homes, ranging all the way from modest City Houses and Country Bungalows to veritable Palaces which wealthy Canadians have built for Homes.

NO matter whether the tender has been for less than one hundred dollars or for more than five thousand dollars, in each instance the owner has secured the very finest equipment money could buy. An equipment moreover—backed by the sterling reputation for quality and service which we have earned during the past fifty-eight years.

WE shall be very pleased to advise upon the Sanitary Equipment for any private houses, which Architects and Contractors may have under consideration, or to tender on any specifications which are about to be issued.
