

A SUGGESTION

In wishing the best of success for the coming year to the new councils of Canada the **Canadian Municipal Journal** would suggest that at the first meeting each council pass a resolution subscribing for its members to the Journal so that it may be mailed to the **private** address of the Mayor, Aldermen and Officials.

The management of the Journal is ambitious to supply every man and woman interested in the municipal life of Canada with a monthly copy of what has been termed "the best two dollars worth of civic activity published on this Continent."

During the year 1919 the Journal contained over 200 special articles by the best writers on civic affairs, and in addition published a Reconstruction Number and full reports of the Conventions of the Union of Canadian Municipalities and the Union of B. C. Municipalities, as well as extracts taken from the proceedings of other civic conventions. Surely a record to be proud of.

The subscription is only \$2.
