FACTORS	DESCRIPTIONS		
<p>1. <u>Objectives</u></p> <ul style="list-style-type: none"> <li>- nature</li> <li>- potential for quantification</li> <li>- status</li> </ul>	<p>clear</p> <p>high</p> <p>given</p>	<p>fuzzy</p> <p>medium</p> <p>imputable</p>	<p>obscure</p> <p>low</p> <p>hard to impute</p>
<p>2. <u>Process</u></p>	<p>well defined, measurable</p>	<p>complex, difficult to measure</p>	<p>randomly driven</p>
<p>3. <u>Operational Outputs</u></p> <ul style="list-style-type: none"> <li>- nature</li> <li>- status</li> </ul>	<p>clear, measurable</p> <p>OPMS or equivalent</p>		<p>non-measurable or irrelevant</p> <p>not monitored</p>
<p>4. <u>Effects</u></p> <ul style="list-style-type: none"> <li>- nature</li> <li>- links to outputs</li> <li>- status</li> </ul>	<p>identifiable, measurable</p> <p>control of push by HQ strong</p> <p>evident</p>	<p>identifiable difficult to measure</p> <p>weak</p> <p>deducible</p>	<p>difficult to identify</p> <p>weak impact vague</p> <p>indeterminate</p>
<p>5. <u>Data</u></p> <ul style="list-style-type: none"> <li>- nature</li> <li>- status</li> </ul>	<p>for efficiency quantifiable</p> <p>exist</p>	<p>qualitative</p> <p>obtainable with reasonable effort</p>	<p>for effectiveness highly subjective</p> <p>difficult to obtain image to foreign gov'ts</p>
