MEMORANDUM FOR THE PRINCIPAL

Reference the attached proposals of the School of Commerce -

This means the taking over by the School of Commerce and the inclusion in their four year course of certain courses formerly included in Extensions.

- (1) I quite agree with this proposal.
- (2) The courses proposed are all, I believe, extremely desirable.
- (3) The fees payable by the students are about the same as those which are counted on in the Board of Trade courses.
- (4) The Board of Trade Department of Commercial Education last year was compelled to reduce its honorariums to \$10.00 per hour. If the fees of students had been sufficient to allow of it, the rate of \$15.00 per hour would have been continued.
