UPPER CANADA COLLEGE TORONTO

Founded 1829 by SIR JOHN COLBORNE, GOVERNOR OF UPPER CANADA.

After Inquest Into Death of William Hanna, Killed by Auto Car.

Altho a coroner's jury last night declared that William Hanna came to his death from accidental causes. Chauffeur Moriarity, whose car skidded into Hanna's motorcycle on Gerrard street and was the cause of his

rard street and was the cause of his death, is still in custody. It is probable that he will be released upon appearance in court today.

Bert Bernints who was about ten yards distant when the accident happened, testified that Hanna speeded up his machine on nearing the gorner of Gerrard and Seaton streets, evidently with the intention of beating the automobils across. It was shown that Mcriarity did everything in his power to avert a collision.

The Commission Has Been Doing Their Work Under Difficulties.

Altho some of the city council have been slating the work of the York Highway Board, and claiming that \$100,000 contributed to the work by the city was not being properly expended and had not been accounted for in any way, it now turns out that the highway board never received the \$10,000 aitho they expect to get it. The city agreed to contribute \$100,000 on condition that the lecislature contributed the same amount. This was agreed, but so far the government has only paid over \$10,000, and the commission has been seriously handicapped for lack of funds.

When interviewed yesterday Warden McMurchy of York County said:
"So far, Toronto has not given up one cent for good roads this year. York County has had to finance all the work done. Of course, they will get the \$10,000, which is their share, but it has not come to hand yet."

INDUSTRY FOR KINGSTON.

KINGSTON. Sept. 9.—(Special.)—A proposal is before the city council, with reference to the establishment of a factory for the manufacture of iron tubes. The city is asked to gurantee first mort gaze bonds to the extent of \$75,000. One hundred and fifty hands will be employed, and the buildings, six in number, will extend about haif a mile in length. The proposal will go to vote of the people.

NEW ARENA HALTED.

KINGSTON. Sept. 9.—(Special.)—The new arena, proposed for Kingston, in which a Montreal company was interested, is not likely to materialize this season, in view of high prices acked for property. The hockey people feel the need of a larger rink.

While surreptitiously enjoying a ride on a C.P.R. freight train, Wallace Graham, a 12-year-old boy, living at 279 Royce avenue, had a narrow escape from death about 12.45 yesterday. The boy, following the example of other boys in the neighborhood, of stealing rides on slowly-moving trains, clung to one of the stays of a freight car as it passed the level crossing at Osler avenue. Hanging in this manner, partly between the cars and with his back to the engine, he did not notice a ground semaphore, built close to the tracks, and as the train-passed it his head struck the iron frame. The blow partially stunned the lad and he loosened his hold of the stay and fell between the cars and with his back to the engine, he did not notice a ground semaphore, built close to the tracks, and as the train-passed it his head struck the iron frame.
