City Council Votes to Have Jockey Club Quarters Prepared.

TO HELP RECRUITING

League Starting on Fresh Campaign in Vigorous Style.

HAMILTON, Wednesday, Oct. 27 .-Any doubt as to the wintering of the 2nd Mounted Rifles in this city was removed last evening when the city cuncil authorized the board of control to make the necessary arrangements for the accommodation of the troops at the Jockey Club grounds, at an estimated cost of \$12,000. It will cost this amount and possibly more to repoyate the build. and possibly more to renovate the building now at the Jockey Club and to erect mess rooms and officers' quarters, and the milita department would not give sanction to the recruiting and mobilization of the regiment here unless the city stood the entire cost of making the necessary arrangements the reas the city stood the entire cost of making the necessary arrangements, the council felt that this should be done in consideration of the fact that it will be quartered for the purpose of food and other supplies for the men.

Toronto a Competitor.

Controllers Cooper and Morris were of
the opinion that the city should not be
asked to contribute the entire cost, but
in view of the fact that several other
places, including Toronto, are desirous of
securing the regiment for the winter and
are willing to make all the arrangement.

places, including Toronto, are desirous of securing the regiment for the winter and are willing to make all the arrangements, it was considered a wise move for the city to fix up the Jockev Club so that the regiment, will be quartered here.

The presence of these troops here is expected by the military officers and officials of the Hamilton Recruiting League to be a great stimulus to recruiting, and as few men have volunteered within the last couple of weeks it is felt that something of this kind is needed to make other thing of this kind is needed to make other men realize the necessity of their joining the colors.

Insurance Against Fire.

The question of civic fire insurance was considered and it was decided to approve of City Clerk Kent's action in placing \$710,900 insurance with 70 per cent. tariff and 30 per cent. non-tariff companies at a cost of \$10.390 for three years. Ald. Peebles stated that he had been offered the same insurance for \$9000 for a three-year term, but as a three-year policy is iflegal, his suggestion was not considered. Controller Jutten claimed that he had not been fairly treated by the board of control in sending the resolution regarding the aleged waste of money in the construction of the new Toronto-Hamilton highway during his absence, and Ald. Roy apologized for bringing the matter up at such a time.

Campaign for Recruits.

Acting on the principle that preparedness is the best safeguard against disaster, the Hamilton Recruiting League is starting with renewed vigor on a campaign, not only to secure recruits for overseas service, but also for the local militia, and even for the Home Guard. The idea is to impress on all the fact that in this time of national emergency every man, unless he be prevented the service of the service of

militia, and even for the Home Guard. The idea is to impress on all the fact that in this time of national emergency capacitated, between the ages of 17 and 60 years of age, should be getting ready to defend his home should the necessity arise, that those who are physically fit and not bound by unbreakable ties, should be preparing to answer the call for overseas duty in defence of the empire, and that those unable to go overseas, but who are of military age and standard, should be in the local militia training to defend their country from invasion while the older men should be preparing for home defence.

Stimulus Needed.

This was decided upon at a meeting of the general executive of the Hamilton Recruiting League, held last night, following a recommendation from the publicity committee. Major Williams, chief recruiting begins the second military division, was present and offered several suggestions as to how the campaign should be carried on and arrangements.

division, was present and offered several suggestions as to how the campaign should be carried on, and arrangements will be made in the near future for the big recruiting campaign.

Recruiting has fallen off to such an extent that it is realized that something must be done, and done quickly, to arouse the young men to a sense of their duty and responsibility, if Hamilton is to continue the proud position it has occupied since the outbreak of the war.

It is hoped that the presence in the city of a large number of recruits during the next two weeks will have a stimulating influence on recruiting, and that all the men required will be secured from now on, without the presence from now on, without the necessity of doing any great amount of urging.

To Raise Cavell Battalion. A move is under way to perpetu-te the memory of Edith Cavell, the English nurse, who was put to death by the Germans by the raising of a ttalion in Ontario to bear her name. The officials of the Hamilton Recruiting League have recommended this step to the militia department.

Manslaughter Alleged.

A true bill on the charge of manslaughter was returned by the gradiury at the assizes yesterday against Ernest Ruse, the jiney driver. The charge arose out of an accident which occurred at the corner of King street and Ferguson avenue on Aug. 14 last, when the jitney ran into a Grand-Trunk train and Thomas A Ivey, a passenger in the automobile, was killed. It is charged that Ruse was negligent. After hearing several wimesses, the jury decided that the evidence was sufficient to put

Apart from that, the speaker added the procedure by the committees and the councils had given a far greater opportunity to the military and naval experts to assert themselves and make their views known. The cabinet as a whole considered both naval and mili-tary and political aspects of the case, so the ministers and their advisers took account of both sides of the problem, but whatever particular views were given by the military and naval advisers, the ultimate responsibility for the decision on them must rest on the government. As to the Saloniki
