OWEN SOUND STILL AT HIRST

Stable Raided and Hostler Is
Charged With Keeping Bar.

Owen Sound, May 11.—(Special).—To-
morrow there will be an interesting
case dealt with in the police court,
when John Elliott, hostler in a local
hotel stable, will stand his trial for
selling liquor contrary to the pro-
visions of the local option by-law, which
came into force in Owen Sound on
May 1.

The entire police force, accompanied
by the license inspectors, raided the
stable in question on Wednesday evening
and discovered three beer kegs, as
well as large numbers of flasks,
bottles and tumblers.

NOTES OF SUNDAY.

The military bands of the Toronto
Garrison are already prominent before
the public. The "Highlanders," the
Queen's Own, the Grenadiers, the Body
Guard are familiar to all. The latter
organization has lately undergone a
reorganization, so to speak, and are
now one of the strongest musical en-
sembles before the public. Under the
leadership of Mr. J. B. Macdonald, who has
conscientiously worked his way thru
all stages of musical education, they
muster about fifty instruments neces-
sary to the making of a first-class
military band. They will be heard at
Sunday's parade leading the cavalry
brigade.

THOSE ANNOYING BLACKHEADS

External applications will never re-
move pimples or blackheads. Only by
stimulating circulation and purifying
the blood can it be done. For quick
sure relief from these pests use Fer-
rozene. It drives all impurities from
the blood, makes the skin healthy, tones
up the system. With the pure nutri-
tious blood made by Ferrozene it is im-
possible to suffer from any skin dis-
ease. You'll have a smooth, delicate
skin, healthy color and beautiful com-
plexion by using Ferrozene—and you'll
feel immensely better as well. Fifty
cents buys a box containing fifty cho-
colate-coated tablets at any drug
store.

SECOND LIFE GUARDS MAY COME.

Dr. J. O. Orr, secretary of the Na-
tional Exhibition, stated on his return
from Montreal last night that he had
received no reply to an invitation
sent some time ago to the 2nd Life
Guards Band to attend the coming
exhibition.

"It is altogether probable," he said,
that the band will be here, 40 strong,
under the direction of Lieutenant
Hall."

The 2nd Life Guards are Lord Dun-
donald's own regiment. There are 8
to 10 members in the city.

A CAMPBELLTOWN BUILDER SPEAKS

He Found Nothing to Equal
Dodd's Kidney Pills, for They
Cured Him of His
Trouble

Mr. W. H. Wallace is a Well Man to-day.
But He Was Pretty Bad Before He
Got Cured by Dodd's Kidney Pills.

Campbelltown, N.B. May 11.—(Special).
"It was a cold start of my trouble,"
says Mr. Wallace of this place, "I am a
contractor and builder and my work
causes me to be out and exposed to all
weathers, so I suppose it was in that
way I got cold. Any way it settled in
my kidneys and made me pretty sick.
I got limbo in the back, cramp in the
muscles, pains in the loins, shortness
of breath, a dragging pain at the loins
and my urine was thick with dark
sediment. Then I knew the kidneys
were to blame, so I took Dodd's Kid-
ney Pills, and they soon put me in
shape and cured me so that I have had
no trouble with my kidneys since."

A STRANGE POWER!

Secretly Used by Many Prom-
inent Men and Women

To influence the minds of Others—
Heal Themselves and Others of
Chronic Diseases, Nervous Dis-
orders and Habits as If by Magic
—Any One Can Do It—Distance No
Barrier—Another Person's Control
Over Another Now Fully Ex-
plained.

How Every Man, Woman and Child
in the World Can Have "The
Secrets of Magnetic Force, Health
and Power" Absolutely Free.

Prof. F. T. McIntyre, a well-to-do
scientist of this city, has created a sen-
sation in the hypnotic world. Through
delving down into the realms of na-
ture's mysteries he has discovered a
delicate but powerful system that
seems destined to revolutionize the
theories of the most noted authorities
on Mind Force. Some people look up-
on him as a man possessing a strange
power, for he has told them how to in-
fluence people far and near and to heal
themselves and others of their ills as
if by magic. He tells them how to pro-
ject their thoughts, develop a powerful
mentality and build up the mechanism
of the body and mind. Doctors and
magnetists who have tested the work-
ings of his new discovery admit that
it surpasses anything in the history of
psychic power.

In explaining the method Professor
McIntyre says: "I am convinced that
everybody can accomplish the things I
have done if they understand the sys-
tem. It would be a grand thing if ev-
ery man, woman and child in this
country learned the use of this won-
derful but easily understood system.
There should be no more disease,
immorality, drunkenness, despond-
ency, separations, poverty or
illness in the world."

He has written a series of free
illustrated pamphlets to people in
many parts of the world, which ex-
plain the principles of his new discov-
ery—starting secrets that were heretofore
guarded for ages by adepts, and I
find that anyone can do the same won-
derful things that I have done. I have
sent these printed pamphlets out with-
out any charge whatever, as I am anx-
ious to have everyone try the wonders
of this new and startling discovery.

The letters received from all over the
world are astounding. Many are loud
in their exclamations of surprise and
thanks, and say they never dreamed
such things possible. I receive many
letters from people who are working for
the uplifting of mankind and science.
The kind letters received from grate-
ful hearts more than pay for the inter-
est I have in giving away this free
book or my free book to every person who
writes me without any charge what-
ever.

Professor McIntyre has a basketful
of letters from people in many parts of
the world. They are, indeed, startling.
Mr. James Kubal, a prominent business
man of Chicago, writes the following:
"I have read your book on magnetic
force, and I find it a most interest-
ing and valuable thing. I have known
of this system for many years, but I
never dreamed such things possible.
If I had only known of this sooner,
I should have made a different
man of me. I shall gladly give you
my name and make more money thru the
use of this system than I can in my business."

He has brought back my sight. I can
see without glasses, and work with
them too. It has overcome my back-
wardness, and I can now handle my
customers in fine shape. I did not
know I was so full of the magnetism
I think you have given me."

Mr. Eugene Devenson, Baton Rouge,
La., writes: "Having tried your sys-
tem, I unhesitatingly promise it to
be the greatest discovery of the age."
Rev. E. G. King, pastor Christian
Church, Upper Lake, Cal., writes: "I
cannot recommend your system too
highly, and I am willing to answer
any inquiries in regard to it."

Dr. H. A. Lounsbury, Wheatley, Ont.,
Can., writes: "I have thoroughly in-
vestigated the system of Dr. F. T. Mc-
Intyre, and can say that his sys-
tem is scientific and surpasses
anything in the line of therapeutics
that has come to my notice. It is a
great discovery."

Dr. S. B. Brett, Apartado 285, Guadala-
jara, Mexico, writes: "I have done
wonderful things in influencing people
with this system. Have had over fifty
persons under my control and com-
pelled them to do startling things. I
advise everybody to try it. This sys-
tem is truly marvelous."

This free book is full of startling ex-
planations and pictures, showing that
anyone can master, in a short time,
the power to control and give the
mind of others. It describes the
strange phenomena of Psychic and
Hypnotic Influence, Mystic Healing,
Psychic and Suggestive, Therapeutic,
Personal Magnetism and a combined,
simple system of reading the characters
of others, the thousands of miles away.
It gives you the key to the development
of the inner or dormant forces of con-
centration, force of character, will
power, memory, determination, ambi-
tion, enthusiasm, inspiration, com-
munity of thought and words, to throw
off the evil effects of disease and despondency.

It is, indeed, one of the most amaz-
ingly interesting books of the age,
beaming with interest from cover to
cover, and all who receive free copies
of it can be thankful. It points out the
road to the mental and social success
and the astonishing facts that have
been overlooked by the public for many
years.

If you wish a free copy of this won-
derful book, write a postal or letter to
Professor F. T. McIntyre, Dept. 358,
No. 126 West Third Street, New
York, N. Y. All who write will receive
it, no one will be disappointed. It is
sent by mail postage paid, absolutely
free.

WOMAN'S WORLD.

An English Salad Dressing.
No dish gives more scope for fancy
and originality than does the salad. It
is but slight exaggeration to say that
it may be made from anything that is
at hand and garnished according to
the fancy. One thing is re-
quisite: that its appearance be attrac-
tive, for its mission is to please the
eye as well as the palate.

Every cook has her own recipe for
the salad dressing, but here is one for
a little English dressing, simple to
make, pleasant to the taste, useful for
almost any salad, and which possesses
this attraction, that it may be kept
for months in winter and for weeks in
summer provided it is kept in a cool
place.

Blend one level dessert spoonful of
cornstarch in one-half cup of sweet
milk, cooking slowly until it thickens,
and, by the way, if you always stir it
the same way it will not lump. Then,
while still on the fire, add butter, the
size of an egg, stirring until perfectly
smooth. This is the main point to se-
cure success. If the dressing be al-
lowed to cool before the butter is add-
ed it is sure to be lumpy, and melting
the butter beforehand does not give
so good results.

Then remove from the fire and add
prepared mustard—mustard blended in
water or vinegar—one or two teaspoon-
fuls, according as you prefer. Most
of the body and flavor of the dressing
people prefer two. Next add the yolk
of an egg, stirring until thoroughly mixed,
and then, very slowly, one-quarter cup
of vinegar, and a dessertspoonful of
sugar. After incorporating these things
thoroughly, add a dash of salt, and the
white of the egg. Set upon the fire again
and bring to boiling point. Then bottle
and seal. It is used for fish or meat
salads, and is especially good for the
proper consistency, but for vegeta-
ble salad it will probably be necessary
to thin it with a little milk or cream.

ar Club of the guild and a vocal

sentatives from several other organi-

Coming to Canada.
Lady Elizabeth Cochrane is in New
York on her way to Canada. Lady
Elizabeth is a sister of the Earl of
Dundonald and presided over his pre-
tence cottage, "Cochrane Lodge," Ottawa,
during most of the time that distin-
guished general spent in Canada. Last
spring she accompanied Lord Dundonald
on his trip to Jamaica and the
West Indies. While in Canada Lady
Elizabeth made many friends and iden-
tified herself with several of the chari-
table societies. On her present tour
she is accompanied by her nephew and
niece, the Hon. Hugh and the Hon.
Henrietta O'Neill.

In Aid of the Aged.
For the benefit of the Church Home
for the Aged, a special service will be
held in St. James' school-house on
Tuesday, Wednesday and Thursday of
next week. Luncheon will be served
from 12 to 1 o'clock and in the after-
noon tea will be served. All sorts of
gifts and useful articles will be sold
for the benefit of the institution.

Viscount Templetown of Castle Up-
ton, Ireland, accompanied by Lady
Templetown, is in Canada, and will be
in Toronto for a week. Just now
they are visiting in Ottawa, after
spending some days also in Montreal.

Every woman who is a wage-earner,
or has the handling of the housekeep-
ing money, knows the value of a bank
and account. It keeps the money safe,
gathers up the small change into good-
sized dollars. The Crown Bank of
Canada recognizes the worth of
women's accounts and has given them
special attention. It has a woman's
banking in. If you have never been
there—why not? It is one of our down-
town comforts.

Palace School Old Boys.
Annual Banquet a Pleasant Affair—
Two Presentations.

Among the many enjoyable functions
which have taken place at Albert Wil-
liams' Cafe, none have exceeded in point
of enthusiasm and numbers that of the
Palace School Old Boys' Association,
which last night inaugurated their first
annual banquet. The large banquet-
hall was filled to overflowing, and the
occasion was one long to be remember-
ed. The chair was occupied by John
Treloar and letters of regret were read
from Geo. McKenny, Wm. Lloyd, Isaac
Lewis, Alonzo Miller, F. Barker, Hon.
Dr. Pyne, Ald. Fleming and other ex-
pupils.

The toast list was a lengthy one. Ald.
Church responded to the toast of "Can-
ada," and Inspector J. L. Hughes to
"Our Old Masters." As an instance of
the rapid growth of the city, Mr.
Hughes cited the fact that at the time
of his appointment to the inspection
ship of the Toronto school thirty-three
years ago, the total school census of the
city was exactly that comprised to-day
in Riverdale. "Our Old Boys" elicited
responses from John B. Reid and Ber-
nard Cairns.

Mayor Coatsworth and Ald. Chisholm
replied on behalf of the city, and
Harry Simpson for the board of edu-
cation.

"Our Old Girls" was responded to
by W. Ardagh.
Mr. Treloar, who for many years was
the principal of Palace School (now
Sackville-street), and is nearly 90 years
of age, was unable to be present. To-
day he will be presented with a hand-
some Morris chair by a number of his
old pupils.

Yesterday afternoon Bernard Cairns,
on behalf of the old boys, called at
Sackville-street School and presented
the principal, Mrs. G. S. Riches, with
a beautiful bouquet.

A BOON FOR INFANTS Lactated Food

Baby's Summer Protector and
Mother's Comfort

The greatest boon of science for the
infant is Lactated Food, a highly nu-
tritious form of food containing all the
principal elements of pure and healthy
breast milk. Lactated Food stands
first as a health-giving food. Its purity,
its nutritive value, its adaptability for
week digestion and its non-irritating
qualities are well-known to physicians
who prescribe it every day. Babies re-
gularly fed on Lactated Food are al-
ways secure from such infantile trou-
bles as dysentery, diarrhoea and bowel
consumption.

In a word, Lactated Food
"nourishes babies" lives when all
other foods fail to nourish and
strengthen. Try it, mothers, the re-
sults will delight you. Druggists every-
where.

CARLOAD OF HORSES BURNED.

Therens, Man. May 11.—A car con-
taining thirteen imported horses caught
fire while in transit near here and was
destroyed, together with the animals.

It Will Be Worth Seeing.
Those who saw the presentation of
"A Bachelor's Romance" last year by
the Toronto Press Club were unani-
mous in their verdict that it was one of
the best productions given in Toronto by
local talent.

This season the club will offer, with
almost the same company, R. C. Car-
ton's interesting and witty comedy,
"Liberty Hall," which was so success-
ful in London.

Stage carpenters and scene painters
are now busily engaged in constructing
special scenery for the production
which will be given in Shea's Theatre
June 8 and 9.
