THE TORONTO WORLD ONE CENT MORNING PAPER. No. 55 YONGE STREET, Toronto.

ST. LAWRENCE MARKET ENLARGEMENT.

There is another place besides the cattle market that merits the attention of the Mayor and aldermen. We refer to St. Lawrence Market. Yesterday the space in and about the market was crowded to excess with farmers and the regular market people. The extent and facilities of St. Lawrence Market are quite inadequate for the business that is done there. The city of Toronto is more interested in a land-lord than any other corporation or any individual in maintaining and increasing the value of property in the vicinity of St. Lawrence Market. There is nothing in sight to redeem King-street East except an improved market. The proposed new hotel will beneficially affect values to Church-street. But beyond that eastward King-street property will continue to depreciate unless the proposed market improvements are undertaken. But if the new hotel is built and if St. Lawrence Market is remodelled, then King-street will regain its old time ascendancy. The district from Yonge to Sherbourne will become as valuable as that from Yonge to Simcoe. These two improvements should be undertaken simultaneously. The one will help the other. Together they will entirely change the aspect of this portion of the city. The City Hall will soon be vacated and the Council will have to come to some decision as to the disposition of that building. There is no use to which it can be put except as an annex to the market. As such its value would be very considerable. Little life it would be absolutely unproductive, as well as the city's property to the south. Not only would the city's property actually used for market purposes return a good revenue to the city, but all the corporation property in the vicinity would very materially increase in value. Even as a land-lord the city can well afford to incur some considerable outlay in improving St. Lawrence Market. But the improvement is commendable for more weighty reasons than this. A great and modern market will directly benefit every family in the city. It will bring producer and consumer more closely together and each will thereby be benefited. The proper accommodation for handling the products of the farm, dairy and orchard will do more than facilitate business between the farmers and the householders of Toronto. It will increase our business as a shipping centre and also tend to the establishment of canning factories in this city. From every point of view the enlargement and improvement of St. Lawrence Market will be beneficial to the city. The work should be undertaken at once.

THE CATTLE MARKET.

When the City Council is through visiting the possible sites for a new cattle market, it will probably come to the conclusion that it is not in the city's interests to vacate the present site, but rather to utilize it to the best advantage. If necessary, increase it by taking some of the adjoining property. A change of site will involve the expenditure of a large sum of money, and this calls for a bylaw which would more than likely be defeated when submitted to the people. The site on Dundas-street is only 20 acres not when the sidings are taken off. If the site is to be changed it is not 20 acres but 50 or 100 that we require. But the question of removal is really a somewhat distant issue. The area of the present market aggregates 14 acres, made up of seven acres of the old market and seven acres in the annex. The property intervening between the cattle market and the city is known as Stanley Park. It belongs to the city and is about six acres in extent. On the west side of the market is the Smith property, including 3 1/4 acres. The best thing the city can do is to add the park to the market, and if that is not sufficient, to acquire the lumber yard of the J. B. Smith Co.

THE HIGH COMMISSION.

Alaska Boundary Question Shelved.—The Sealing Dispute—Patched-Up Reciprocity. Quebec, Sept. 28.—(Special.)—It is reported that the Alaska boundary question has been shelved and will not be one of the questions settled by the High Commission. It appears that when the subject was broached the United States Commissioner assumed a most positive attitude, insisting that that particular question could be treated diplomatically; and that the United States delegates would be given up. The United States delegates maintained that the question could be settled according to the treaty of 1825, and from this position they refused to depart. The British delegates thereupon, it is said, decided to strike the question from the list.
