About Our January Cloak Sale

Ladies' Six Dollar Jackets for \$2.50 Each. Ladies' Five Dollar Jackets for \$2.50 Each. Ladies' Four Dollar Jackets for \$2.50 Each.

Of course you will be interested. Who wouldn't be when dollars have nearly double their usual purchasing power? That's about the way prices will run in our Cloak section during January. To-day we commence by selling \$7.50, \$8.00 war of 1812 closed with Maine, Michigan, Wisconsin and Minnesota, and all the territory westward to the Mississippi in our hands. By the Treaty of Ghent, 1814, all

425 Ladies' Brand New Winter Jackets, made of black and navy English pilot cloth and black, navy and green imported beaver cloths. All of these garments are produced in our own factory, and for make, from the source of the River St. Croix westward to the source of the Connecticut

That's enough to show our determination to double our Cloak sessed, and pushed the boundary up to a sales during January. Our word for it, such chances will not come your way again very soon. Now is the time to buy.

Short distance from the St. Lawrence River. This "shameful capitulation" had been obtained by the Americans through the ignorance and complaisance of Ashburton, who

When and Where to Buy Groceries

That question—an important one for the thrifty housewife—may easily be answered if you visit our Grocery Deed. This treaty also gave the Americans
the Americans
the Americans partment to see our goods and compare prices here with those usually asked for the same qualities. In buying here you are sure of getting the best and purest qualities, for no inferior goods find entrance into our stock. Here are a dozen hints of the stock of the same final in the free navigation of the River St. John, 4,000,000 acres of land west of Lake Superior. Isle Royale in that lake, and George's Island in our part of Lake Huron. Whatever may be said as to the finality of the other treaties, this one should never be looked upon by Canadlana as final in

This morning at 8 o'clock we commence our Annual White Goods Sale—a mid-winter event of great importance to prudent and economical buyers of every circumstance. It is enough to say that our preparations for this year have exceeded those of former years at every point of comparison.

Never before have we invited himses at the Grand preparation of the Federal Government. A former British Minister for once treated a similar subterfuge in the right spirit. When told by the American Government that McLeod was held by the State of New York, and that consequently they could not give him up. "Oh, that simplifies matters," he said, "I shall look to the subtraction of H. A. Diartim.

most important branches of an education.
Without health, a man will be a business, and a woman a social failure.
When the body of either a man or a woman is properly nourished, the result is the enjoyment of good health. Almost all ill-health is due to improper or insufficient nourishment. If the stomach is right and the liver is right, the blood will receive its normal supply of the life-giving elements of the food and the body will be properly nourished. Dr. Pierce's Golden Medical Discovery acts directly upon the stomach and liver. It purifies and enriches the blood. It is the great blood-maker, flesh-builder, nerve tonic and restorative. It promotes the natural activity of the entire nutritive organism. It puts an end to the slow starvation that is at the base of many diseases. It does not make flabby fat like ood liver oil, but firm, muscular tissues. It does not make corpulent people more corpulent but builds up the system to the normal standard.

"I was run down with nervous prostration and female weakness and kidney trouble," writes

tem to the normal standard.

"I was run down with nervous prostration and female weakness and kidney trouble," writes Mrs. Maranda Ramsey, of Smartt, Warren Co., Tenn. "My bowels were constipated. My whole system was wrecked. My friends thought I would die. I had read of Dr. Pierce's medicines and sent for the 'Golden Medical Dicovery,' 'Favorite Prescription' and 'Pleasaut Pellets.' In one week's time I began to sit up. In two weeks I could sit up all day, after being so bad that I had to be helped in and out of bed. I have taken four bottles of 'Golden Medical Discovery' and two of 'Favorite Prescription' and am in better health than I have been for years."

Constipation is the father of all manner Constipation is the father of all manner of maladies. If it did not exist, or was in of maladies. If it did not exist, or was in all cases promptly relieved, the majority of medical books could be safely destroyed. It is the easiest sickness to neglect and the simplest to cure. Dr. Pierce's Pleasant Pellets cure constipation every time. They cure it promptly, completely and permanently. They never gripe. They don't get you out 'o nights. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists keep nothing else "just as good."

hands. We are nearly six millions of people. We have over \$200,000,000 in saving banks, and an annual public revenue of twenty years' war against Bonaparte. land great. If we imstate her in to the occasion? That is the question.

THE COMING WORLD-POWER.

Charles W. Dilke, M.P., in January

The issue which lies belind this interest ing, but perplexing, study of the future relations of our countries [Great Britain and the United States] is no less than the decision whether in the second half of the next century the dominant interest in the children of our great colonies, but I in the clude them under the first had in all the search and properly interest and a subject of the latter come into existence and survive.

The matter which I have discussed in this article or even the time of our remote descendants, on a level with the Russian Empire or with the Anglo-Saxon combination, should the latter come into existence and survive.

The matter which I have discussed in this article is no new one for me. Writing on Europe in 1886-87, I said, referring to what I had written in 1800-87; . . lands should attract a larger share of the attention of the Inhabitants of the United Kingdom; that in all these, whether subject or not subject t and the United States] is no less than the

nomena to wance our attention ought more persistently to be called."

The prophecy has come true. It is for the Americans of the United States to decide how far toward firm alliance what I called "the tie of blood and tongue and history and letters," shall be carried.

At the Princess.

"Moths," a book written by Ouida, and dramatized by Harry Hamilton, was presented at the Princess yesterday. The plog is not startlingly new, but is well handled by the company, Miss Lillian Androws presenting Lady Doily in a manner sufficient to make one realize the type is too common on the stage, and in literature. There are unscrupulous matrons in real life whe sell their children, but there are too many on the stage. Mr. Clifford Pembroke, gs Lord Mull, makes a very fine chappy, and Mr. Whight Huntington and Harry Glazier are also strong and Vere Herbert. Miss Eleanor Browning, is a very attractive deliniation, as is the tady herself, and the properties are in line with the story and are very effective. There will be a performance daily all week.

Cucumbers and melons are "forbidden fruit" to many persons so constituted that the least indulgence is followed by attacks of cholera, dysentery, gripfing, etc. Those persons are not aware that they can indulge to their heart's content if they have on hand a bottle of Dr. J. D. Kellog's Dysentery Cordial, a medicine that will give immediate relief and is a sure cure for the worst cases.

Only those who have had experience can tell the torture corns cause. Pain with your boots on, pain with them off-pain night and day: but relief is sure to those who use Holloway's Corn Cure.

All the full dress requisites. Your money back if you want it.

E. Boisseau & Co. Temperance and Yonge.

the King" essays the romantic cavaller of mediaeval times. He succeeds tolerably well, but the portrayal of De Launay smacks now and again, wilfully or otherwise, of the villain of "Faust," and inasmuch as it does, it is weak. There are moments when Griffith equals Sothern. In the picturesque dtal scene he is as strong, and when he makes up his mind to follow Julie to the Governor's, he thrills the audience and makes a dramatic finish for the act. Kathryn Purnell, as Julie de Varion, is a beautiful actress, with sufficient reserve force to bring out the strength of powerful situations. The trio of adventurers presented by Edgar Weldon, Stanley Whitten and Harry Mitchell are grotesque and make fun on sight. W. J. Bowen, as the Governor's secretary, has a good stage presence and a voice that is capable. He did some excellent acting. David R. Young, as the Governor, filis the bill. Will H. Stevens, "the son of his father and the son of his mother," brought out the humor of his character and won merited applayers who act intelligently, and altogether there is a unity about the play that is, is refreshing. The stage setting is excellent, in no way differing from that of Sothern's production. This is a superior show and merits the patronage of Torontonians.

defineated a character, as Louis de Beau-mont, somewhat of the D'Artaguan type. Mr. Mantell depends mostly for his sup-port on Marguerite, Miss Corona Siccardo, who plays the part with fervor and sim-plicity, quite winning the house with her Jewish beauty. Mantell himself did not receive an ovation, but overshadowed his cast in physique and rower. Dortraying

At the Bijon.

Indian and Squaw Burned.
Winnipeg, Jan. 2.—An aged Indian and squaw were burned to death yesterday in their tepees in the woods near St. Boniface. Both had been drinking heavily, and death was evidently the result of the carousal.

Ask your doctor how many preparations of codliver oil there are.

He will answer, "Hundreds of them," Ask him which is the best. He will reply, "Scott's Emulsion."

Then see that this is the one you obtain. It contains the purest cod-liver oil, free from unpleasant odor and taste. You also get the hypophosphites and glycerine. All three are blended into one grand healing and nourishing remedy.

T. W. Ball has nearly lost his sight.

The first carnival of the season will be held at the rink on the 11th inst. YORK COUNTY ELECTIONS.

Markham Village Celebrating the

Victory of Its Candidate.

The election returns for members of the York County Council, in the two divisions in which the Township of York is coacerned. Divisions Nos. 1 and 3, came in very imperfectly last night, in consequence of there being no municipal election in York Township. The result will not be known until to-day, although it is a foregone conclusion that Messrs. J. D. Evans of Islington and John Gardhouse of High-field have been elected. The vote in York Township was small, and, although Mr. Smithson had a majority of 67 art York Mills, and had similar majorities in a few other divisions, it is hardly probable that his majority in the township would equal that of the other two contestants in Etobicoke and York. The result, as heard from, is as follows:

656

Markham, Jan. 2.—This town is illuminated with bonfires to-night, and the whole place is celebrating the victory of Mr. W. P. Hall for County Councillor. He heads the poll with 1066 votes. Mr. F. K. Reesor second with 729, Mr. James third with 508, and Mr. W. Miliken fourth with 187. Consequently, Messrs. Hall and Reesor are the representatives of No. 5 Division in the County Council.
