ONTARIO HAS POWER TO CONTROL SCHOOL BOARDS

Supreme Court Decides Province Has Authority Over Separate School Boards and Legislation is Valid.

According to the decision given by the Supreme Court of Ontario yesterday at Osgoode Hall, the Ontario Government has power to control the activities of the Roman Catholic Separate School Board of Ontario. The effect of this ruling proves that the legislation passed at the last session of the Ontario Legislature, chapter 59, 1917, providing for the appointment of a commission to administer the Ottamunication received tonight from Field Marshal Haig's headquarters in France, says:

The objection of the privy council's committee was to the very granting of authority to the legisla ture to withdraw the right of the trustees in toto for an indefinite time Important differences between the acts are, according to the decision, that the latter provides for a return of the control of the trustees and provides that the question of appointment or continuance of a commission is to be decided by the Supreme Court of Ontario and not by the lieutenant-governor-in-council. The contention for the school board that these safeguards come into operation only after ap-pointment of a commission is thus disregarded. The chief justice is of opinion that power can be returned to the board by mandamus in case the minister of education refuses to withdraw
