LOOKS TO LIFTING OF CATTLE EMBARGO

Ontario Minister of Agriculture Optimistic Over Great Britain's Action.

CANADIAN BACON LIKED

Dominion Product Is Popular Overseas, Hon. Dr. Tolmie Declares.

Saturday night's annual banquet, tendered by the federal department of the staff of agriculture to its members at the King Edward Hotel, was featured with stirring addresses, one by Hon. Mr. Justice Riddell upon the glory of Great Britain and the indissolubility of Canada from all things British; one by Hon. Manning Doferty, provincial minister of agriculture, expressing optimism that the embargo of Great Britain against Canadian cattle, of 30 years' standing, was soon to be diffed, and one by Hon. Dr. F. S. Tolmie, Dominion minister of agriculture, pointing to the splendid outlook of agriculture in Canada, and Professor J. B. Reynolds, president of Ontario Agriculture College.

Dr. F. S. Tolmie in his address, stated that he could disabuse Canadians of any fear as to the reception of Canadian bacon in Britain. He had just received a cable to the effect that it was in both great favor and great demand. He deprecated the British policy of control directed against the price of Canadian bacon, a control, he said, that was directed against no other bacon. To the inspectors gathered at the banquet board in their scores, he said: "If we are going to progress in agriculture along proper lines, your work of fitly maintaining

He believed that the ability of the inspectors today to cope with cattle from the other side of a border cattle from the other side of a border was being made to get the embargo by Great Britain against Candian cattle lifted. Also, bis government was doing its best to have the civil service commission deal fairly with the class of men known as temporary employes, and the auguries for the future were of the best. Touching upon the question of Canadian cattle, it was well to note that of the 3,000,000 cattle killed over the water, not a single case of disease had been registered.

Essential to Agriculture.

Hon, Manning Doherty, in a short but brisk address, stated that to his mind nothing was so essential to the progress of agriculture in Canada as hearty co-operation between all branches of agriculture both

arment activities of all the provinces. He was glad to be able to state that plans were now under way to institute a veterinary college at Guelph which would be second to none in the Dominion, "Until a year ago I had made up my mind that the veterinarian had no sort of standing," said Mr. Doherty, "but I may say it will be the endeavor of our government to give him every opportunity to become the most proficient appraiser of live stock in the Dominion. He need have no fear for the future,"

Touching upon the vexing question of Britain's embargo against Canadian cattle, Mr. Doherty said that he had visited that country only a few weeks ago and had discovered that all the public, the butchers and the wholesalers were in hearty support of every effort to lift the embargo, but that the Irish farmer and the breeder of pure-bred stock in Britain were strongly opposed to lifting the embargo, this opposition based upon a misapprehension of the facts. A campaign should be waged, therefore, not misapprehension of the facts. A campaign should be waged, therefore, not with the British government, but with those directly opposed to Canadian cattle. This was now being done. He had found cattle selling in Kent and Gloucestershire, very common to inferior stock selling at 26 to 27 cents on the hoof. It could well be understood why British butchers and wholesalers desired to have the embargo against Canadian cattle lifted.

No Separation Possible.

A stirring address was delivered by Hon. Mr. Justice Riddell, who emphasized the need of opposing every effort on the part of misinformed minds to separate Canada from Mother Britain. In fact, no separation would ever be possible. The idea was both repugnant and unnatural. It was a noteworthy fact that Canada was herself responsible for the separatist movement which finally succeeded in separating the United States politically from Great Britain. Great Britain herself believing that Canada was naught but an irreclimable wilderness had de-sired to retain Guadaloupe in prefersired to retain Guadaloupe in preter-ence. The vote of the 13 states pre-yalled, and Canada became a part of the colonial system of Great Britain. Once the country had been won from France and all danger of oppression from the Canadian Northland had been eliminated the 13 states became restless and decided to fight against undue taxation. Hence the Revoluundue taxation. Hence the Revolu-

"I am watching with the keenest interest the conference at Geneva, where a representative of Canada is officiating as vice-president, and where another Canadian holds high advisory office. I do not pretend to know all that is going on there, but perhaps Canada is evolving. But, for God's sake, let us remember that there can be no separation from the flag of old Britain. Let us rid ouselves of the cant that Canada will blossom out as either a republic or an adjunct of the United States."

province with representation in the ministry. Thus far, however, there is nothing very solid upon which to base such a belief. True, Mr. L. J. Gauthier had been in the capital, has seen the prime minister, and has admitted that his interview had to do with the political situation in Quebec, but apart from this circumstantial evidence of something unusual behind the scenes, there is nothing to indicate that Mr. Gauthier is entering the cabinet or even arranging for the entry of somebody else.

that Le Matin, an independent morning French language paper published here, is about to pass into the hands of a group of men who favor protection and who are sympathetic to Premier Meighen. Le Devoir says the group is not a stranger to the projected entry of L. G. Gauthier, federal member for St. Hyacinthe, into the Meighen cabinet. In an interview with Mr. Gauthier today, Le Devoir quotes him as saying that if he enters the federal cabinet, it will be in the interests of Quebec and he will remain a Liberal.

London, Dec. 4.—The conference of Mr. Lloyd George, Premier Leygues of France, and Count Sforsa, the Italian foreign minister, ended today. At this morning's session it was decided to call another financial conference at the strussels to discuss German reparations on December 13, the conference realizing that quick action is necessary.

Trade with Russia was discussed without change in the viewpoints of the three countries. The Italians expressed the view that Russia would sign a trade agreement with Great

Reports that the Labor member of the house of commons, Rt. Hon. Arthur Henderson, who is in Ireland at the head of the labor commission investigating conditions there, is acting as an unofficial go-between for the government and the Sinn Feiners, and rumors that the Roman Catholic Church intends taking a hand in the efforts at conciliation, have been linked with a speech made by Lloyd George at the Constitutional Club last evening.

While Mr. Lloyd George reiterated in his address the necessity of suppressing murder and revolution in Ireland, his speech contained sections which the press generally interprets much as does The Pall Mall Gazette. This paper heads the address, "The Premier Lloyd George's main points may be summarized thus:

"To make Ireland a free agent, in discussing the problems of Ireland, you must break the terror. Stamp out murder, suppress revolution and restore freedom to Ireland. Then face our problem. We must have double courage. The first is courage to suppress and the other is even greater courage, that is courage to conciliate."

Winnipeg Donates Large Sum to Huge Colonizing Project.

Winnipeg, Dec. 4.-Winnipeg is enthusiastic in its endorsement of the Western Canada Colonization Asso-Western Canada Colonization Association. Spurred to extraordinary action by the remarkable support accorded this organization in eastern Canada, the business men of the prairie capital are subscribing liberally to the movement. The project was opened here at a luncheon given by Premier Morris to the leaders in the city's financial, commercial and industrial life.

Sir James Aikins, lieut.-governor of Manitoba, and Lieut.-Governor Brett of Alberta, both spoke strongly in approval of the association, as did also James H. Ashdown and Mr. Isaac Pitblado, of Winnipeg, P. A. Baker, vice-president of the United Farmers of Alberta, and other outstanding men of the three prairie provinces. Remarkable as it may seem, over 20,000 people in Toronto and vicinity are now taking Asprolax, the new their friends.

Asprolax is a combination treatment, and acts as an antipyretic, which reduces the fever; an expectorant, which loosens the philesm, relieves the congestion and stops the cough; a laxative which opens the bowels, and an antiseptic, which fetands germ growth and prevents the spread of the infection.

It is delightful to take, and produces no unpleasant after-effects whatever. Even children take it readily and it acts on all, both old and young, with the same gratifying results.

20,000 people in Toronto and vicinity are now taking Asprolax, the new scientific treatment for colds, which is rapidly becoming the sensation of the drug trade thruout Canada.

FEDERATION **CAMPAIGN** IS STILL ON

While the workers will not be out canvassing, still the headquarters will be open till Wednesday night.

The reason for this is plain. It has been impossible for the canvassers to call on everybody, but everyone should have an opportunity of subscribing to this great Federation cause—to the support of 49 philanthropic, charitable and civic agencies of the city.

Your help is needed. Something like \$100,000 still remains to be collected if these institutions are to carry on their work and to extend it the coming year. If no person has spoken to you about subscribing your share, you're being personally solicited now; this is your chance to be generous voluntarily. Sign the little slip below and hand it into Headquarters or mail it in, but do not let the campaign books close without your name being in the list of contributors.
