ARMS WERE LANDED IN FISH BARRELS ON KERRY COAST

Intended to Ambush Crown
Forces on Way to Dublin
Prison.

AN ATTACK PLANNED

Dublin, March 27.—Reports made to the authorities in connection with the capture of the large quantity of arms and ammunition found by government forces in Dublin last Friday, said to have been the greatest quantity of such material so far taken, show that the arms and munitions were landed on the coast of Kerry in fish barrels a few days previously. They were then sent to Silgo, partly by train and partly by motor cars, reaching Dublin Tuesday night and arriving in Dublin the next morning. The bombs and shells were packed in boxes and addressed to an English firm, well-known bicycle manufacturers, in St. Stephen's Green. This firm, it is explained, had no knowledge of the shipment, and the goods never reached it, being intercepted, according to officials, by Sinn Féin agents and taken to the stables in Mountjoy Square, where the materials were discovered.

This large consignment of ammunition, it is declared, was intended for use in connection with a plan to ambush the crown forces on their way to relieve the guard at the Mountjoy jail Easter Monday, and if this proved successful, it was intended, the authorities declare, to attack the prison in the hope of rescuing the Sinn Féin prisoners.

A well-laid mine containing several hundred pounds of explosives and fuses was discovered by auxiliaries in County Kilkenny recently, according to information from official quarters today. The mine, which was laid under a large bridge in the neighborhood of the headquarters of the auxiliaries, was found just in time to avert a disaster to several lorry-loads of cadets.

The authorities declare that great assistance to the crown forces is being rendered by the inhabitants of various localities, who have begun to come forward in large numbers to denounce attempts by Sinn Féin to commit outrages. Several ambushes have already been frustrated in this way, it is stated.

Both Poland and France further promised to act in close agreement on all questions affecting their internal affairs and each agreed to consult the other before entering new agreements concerning their policies in continental and eastern Europe.

The other members of the team with Manager West and Coach Dafeo are also seen on the platform with a sprinkling of admirers, including Eric Armour, K.C., the crown attorney, who is immediately behind Brig. Gen. Mitchell.

TOKIO DEVASTATED BY TERRIFIC FIRE; 1,000 HOUSES BURN

Panic Caused Among Popula-
tion Over a Wide
Area.
MANY ARE INJURED

Tokio, March 27.—The whole city of Tokio was imperiled last night by the greatest fire with which it has been visited in a decade. The conflagration destroyed 1,000 houses in the western part of the city, involving a loss estimated at twenty-five million yen (normally about \$12,500,000). Thousands of persons were made homeless, and 133 persons were injured. The burned buildings included three hospitals, a bank and several large business houses.

For four hours during the night a violent, biting wind drove the flames in the direction of the heart of the city, causing a panic among the population over a wide area. Four thousand troops aided the firemen in combating the blaze, but it was only when the fire broke the wind subsided that their efforts to control the fire were rewarded with success. Scenes of terror were witnessed in many sections as the course of the flames threatened widespread destruction. The streets were choked with masses of despairing refugees from the districts already stricken, furniture, the confusion being added to by the flocking in of sightseers from other sections.

Many of the half-frozen fugitives fleeing from the flames here in the streets, strapped to their backs. The mounted police had great difficulty in restraining impatient panics. As a measure of relief, the imperial gardens were opened to the sufferers. The fire burned so fiercely and with such intense brightness that the skies were illuminated by a fiery halo, which was visible for hundreds of miles as it hung over the city. The diet, which was in session when the blaze started, adjourned when the threatening nature was reported.

Berne, Switzerland, March 27.—The Swiss government has authorized the extension of the working hours in certain trades from forty-eight to fifty-two, regardless of the socialist protests. This action has been taken in accordance with the economic crisis. Woodworking and brickmaking plants are included in the new order.

Sinn Fein Offices Raided Tons of Propaganda Found

Dublin, March 27.—The headquarters of the Sinn Féin propaganda department, at 11 Molesworth street, was raided last night by police auxiliaries, who effected what was officially described as the largest capture of seditious literature yet made in Ireland. Several tons of files, books and other documentary matter were removed in the raid. The Irish Bulletin from the headquarters was most elaborate. The department had numerous divisions, one of which dealt with propaganda in foreign countries, including Italy, France and Spain, according to the official reports of the raid. Files of letters addressed to Sinn Féin agents and others in these countries were seized. All the leading British newspapers were on file at the department, and scores of volumes of clippings and circular letters addressed to members of the house of commons also were seized. Among the documents taken, it was announced, was the latest decree of the "Irish republican parliament" proclaiming the boycott upon British agricultural machinery. The Irish Bulletin was issued from this office, but its reappearance elsewhere is expected. None of the members of the staff was found on the premises.

SEEK TO CONCILIATE OPPONENTS OF SOVIET BUT RETAIN CONTROL

Russian Papers Say Better
Treatment Will Be Given
to Intellectuals and Peasants—Regulations Regarding Emigrants to Be Modified—Reports of Attempted Coalition Government Are Denied—Pact With Britain Unsatisfactory.

Helmsingfors, March 27.—The Moscow and Petrograd Bolshevik newspapers of March 22 and 24, which were received here today, paint in official announcements a vivid picture of what appears to be a new attempt to conciliate the opponents of the Soviets without the latter surrendering political control. A part of the apparent effort, comprises an appeal by the Soviet government to Russian refugees abroad, in the course of which this passage occurs:

"Russia in her reconstruction work, must rely not only on her workmen, but also upon her peasants and her intellectuals. Therefore her new international relations oblige Russia to alter her former stand regarding emigrants. The question of the moment is to utilize the forces of these Russian refugees abroad, as their aid is most important in the work of reconstruction."

An editorial in the Pravda of Moscow bemoans the failure of the government to care for the property of intellectuals at home, and it promises that they will have better treatment and that good resolutions have been taken as to their future. It is, however, denied that Premier Lenin had conferred with the leaders of the Menshevik and Socialist-Democrats with a view to the formation of a coalition government, as had been reported.

The Bolshevik newspaper differ as to the reports of a counter-revolutionary movement in Petrograd, while not a word had been published by the Soviet press up to March 24 regarding the offer to trade with the United States. British Agreement Unsatisfactory. The trade agreement with Great Britain was not over-enthusiastically commented upon. The Krasnyia Gazetta, for instance, quotes Leonid Krasin as saying the British agreement was unsatisfactory, altho it was a gain for Bolshevism. The Bolshevik minister to Finland has announced here the ratification of the Soviet treaties with Turkey and Persia and the Bokhara government, thus completing the peace-making process and making Soviet Russia officially at peace with every border state. HOUSE COMMITTEE LIKELY TO HANDLE FEDERAL RAILWAYS

Resolution of Hon. A. K.
Maclean Apparently Has
Government Favor.
TO INCLUDE STEAMERS

Ottawa, March 27.—(Can. Press)—It is expected that action will be taken shortly toward the formation of a standing committee of the house to deal with the administration of the railway and steamship lines under government ownership and control. A resolution urging the formation of such a committee is standing on the order paper of the commons in the name of Hon. A. K. Maclean (Hallifax), and present indications are that the proposal will receive the support of the government when it comes before the house. Maighen Favorable. In the debate which followed the Mackenzie King amendment on the motion to go into supply last week, the prime minister intimated that he would not oppose the formation of such a committee, and while there is a protest from some of the opposition members, it is not expected that the resolution will be difficult to get through. The government members are understood to be generally in favor of such a move, and it is expected that when the resolution is passed the committee will be named without any delay to allow of its starting work at once.

SAILORS ARE EXECUTED FOR KRONSTADT REVOLT

Helmsingfors, March 27.—Twenty sailors from the battleship Sebastopol, including sub-captain Denierin, were executed immediately after they had been sentenced by a revolutionary tribunal in Petrograd on March 26, accused of having been ringleaders of the battleship revolt during the Kronstadt episode, and because they had refused to accept the terms of the armistice which had caused thousands of casualties, it was declared. No mention is made by the newspaper of the fate of the other 1400 prisoners in Peterhof.

TRADE WITH RUSSIA Is to Go Largely to Britain, Italy, Poland, Germany—France and U. S. Euchered.

A prominent Canadian, who lived a lot in England during the war and is now in the States, writes: The news from Europe is the biggest thing since the war stopped. It is a check to the communists and will have a great effect on the trading companies. Incidentally, the governments of Britain, Italy and Germany have put it over France and the United States. Germany and Poland will get a great trade with Russia.

Hastings Is Thought Poisoned
Is Sad Feature.
AWAITING THE ANALYSIS

Mitchell, Ont., March 27.—(Canadian Press)—The result of the analysis to be made in Toronto of the stomach of Daniel Hastings of Dubuque, is awaited all thru this district with keen interest. It will determine whether the confession Mrs. Hastings made is correct, or whether her mind was so deranged by grief that she was irresponsible for the statements she made to the police, and her signed confession, which features in connection with the case, was the breaking of the news today to Mrs. Hastings' two little daughters, Mary and Lorette, aged 15 and 11. HUGE LIQUOR RAID IS STAGED IN HULL

Officials Visit Thirty-Eight
Places—Seize Costly
Gambling Devices.

Ottawa, March 27.—Operating on Saturday afternoon and night, Quebec provincial detectives, with the assistance of a number of local residents of the city, raided ten "clubs" in Hull, and twenty-eight other "blind piggers" have been served with summonses to appear in court on Tuesday. Many of the latter charges will constitute third offences, and it is understood that a number of those concerned have departed for parts unknown, rather than face a possible term in jail. Glaring Breaches. The Quebec provincial operatives, in some instances, where they had knowledge that glaring breaches of the liquor laws were being carried on, did not rest upon one visit to the places in question, but after securing one conviction, waited an hour or so and then went right back. Invariably they were successful in again securing enough evidence for a second, and in some cases, third conviction. It was not only liquor that the "raiders" were after, but also the wheels of fortune, crap games, poker dens, roulette wheels, and other gambling devices, which, it is asserted, have been "running wild" in a large number of the so-called clubs. Seize Big Roulette Wheel. In some places it was found that the city police had already paid visits and seized slot machines and liquor. This applied to the Aurenside and City "clubs", where the proprietors suffered two raids, one provincial and one municipal, both being successful as far as the authorities were concerned. The Ontario Club a roulette wheel, costing in the neighborhood of \$10,000 which was not in operation, was seized, and another was taken at the City Club.

"EXOTIC" DANCES WILL BE BARRED

European Dancing Masters to
Eliminate Them and Re-
turn to Waltz.

Paris, March 27.—A general revision of the present dances, looking to the elimination of the stumpy, the fox-trot and the one-step, is on the program for consideration by the congress of dancing professors of France, England, Belgium, Holland and Switzerland, which opened its sessions in the Paris Academy of Dancing today. A majority of the delegates, it is said, are advocating a return to the waltz. The Paris press has greeted the news of the prospective change with undisguised satisfaction, as, for some time past the newspapers have been conducting a determined campaign against what were termed the "exotic" dances, which were declared to be totally unsuitable for European ballrooms. Hungary Takes Lead. Budapest, March 27.—The fox-trot, the one-step and jazz music have been banished from the dance halls of Hungary by decree of the minister of home affairs, who characterized them as decadent and injurious to the younger generation. In their place the dancing masters have been officially requested to bring into vogue the old Magyar dances, which had fallen into disuse.
