

ALDER SAYS CONFEDERATION NOT TO BLAME

**Tells Duncan Report Shows
Union Not Liable for
Difficulty**

MONTREAL, Oct. 11.—"Someone has said that the Nova Scotians love to sit on the country store steps and chew apples and talk politics. That is very true," Easton said, with its blue and buff politics, had nothing on Nova Scotia. They will tart a Montague and Capulet and over a \$60 a month customs' job and that is the attitude which will lead the Nova Scotians to agitate and to talk secession hoping that other governments will lift them out of the rut," thus spoke R. L. Calder, K. C., in addressing the young men's Canadian Club here tonight.

The Duncan Commission, had brought out that Confederation could not be blamed for the Maritime situation.

Mr. Calder is a former Crown prosecutor of Montreal and counsel for the judicial commission inquiring into customs affairs throughout the country. Mr. Calder was discussing Maritime affairs, with particular reference to Nova Scotia.

LACK OF ADAPTATION

"Another defect," he said, "was lack of adaptation. There is a tradition almost of the Maritimes in the middle of the last century when steel replaced wood in ships. They allowed that hour to pass. With their coal and iron they could have, and would have, been the greatest shipbuilders and master-builders in the world."

TEAM PLAY HELD LACKING.

Lack of team play and co-operation were cited as one more defect of Nova Scotians. "There is an awful howl," he said, "of something goes to Halifax or to Montreal, from one or the other of the ports. Instead of dividing they would sooner do without anything at all."

NO SYMPATHY WITH ANY.

"All the fishermen are in the hands of fishing companies and should be together and salt and barrel their fish, and the same with the apple industry."

Mr. Calder said he had no sympathy with the Maritime cry of "provincial rights." Confederation could not be blamed for the ills; but ever since Joseph Howe had proclaimed that Confederation would save Nova Scotia, the people there believed him. The Duncan commission, said the speaker, could not be blamed. All promises of Confederation, he maintained, had been fulfilled, and that was an economic one.

The Nova Scotian suffers from certain qualities and certain defects. He is blessed—or cursed—with the best schools on this continent. The result is that the children are very highly developed on the intellectual side, but there is not room for all the white-collar group; but they can no longer concentrate with equanimity on agriculture, fishing and mining. So the Nova Scotian leaves home. In other provinces and in the United States they are eager for these men who generally prosper and become a hook and line to pull other Nova Scotians away.

"There are two classes of Nova Scotians," said Mr. Calder. "There are those who go and who write to others to go, and those who stay and grow because they can't go themselves."

It was the duty of the schools to evangelize the return to the basic industries and he warned that much the same applied to Quebec and Ontario. "While the Nova Scotian has become intellectually developed," said Mr. Calder, "he has become physically lazy." Mr. Calder declared that "at the risk of being pelted with stones and rotten eggs," he would repeat in the Maritimes every word he had said this evening.

George Melrose, son of Mr. and Mrs. A. R. Melrose, of this city, has been appointed chief forester of the district of Nelson, B. C.

Easy To Gain Weight With Yeast and Iron

**New Combination of Yeast With
Vegetable Iron Quick Way
to Build Up Weight**

Thin, run-down and underweight men, women and children can now improve their health, increase their energy and regain normal weight in a surprisingly short time.

A new combination of yeast vitamins with vegetable iron, renews the action of sluggish blood cells, drives out dangerous body poisons, increases energy and endurance and supplies the system with the vitamins that build up weight.

For years yeast has been known as a rich vitamin food, but not until we perfected "Ironized Yeast"—which comes in concentrated tablet form, was it possible to take yeast and iron in the right proportions to build up weight.

Vegetable "Iron" when combined with yeast is quite easy to digest, therefore better for the system. And "yeast" when ironized, becomes just twice as beneficial as fresh or cake yeast.

Ironized Yeast tablets are composed of concentrated food elements, therefore they are pleasant to take and free from drug-like effects. If you are underweight, do not enjoy good health, lacking in energy and force, "Ironized Yeast" tablets will pick you right up, and if they fail, you get your money back.

Sold by druggists at \$1.00 for a large 60-tablet package or sent direct from Laboratory at cost of price. Ironized Yeast Co., Box 101, Ontario, Canada.

GOES TO CEMETERY TO PUT END TO LIFE

**Young Woman, Parted From
Husband, Takes Poison But
Saves Baby**

NEW YORK, Oct. 12.—A young woman was found lying unconscious with her eight months' old baby in her arms at the foot of the wall of the Amsterdam Cemetery at 194th street and Trinity Cemetery in the early morning by Patrolman Daniel Denker. An ambulance took her to Columbus Hospital, where it was learned that she was Mrs. Katherine Nichols. She said she had taken two bottles of mercury tablets.

A note found in her pocket, addressed to her sister, Mrs. Marion Marshall, begged her to take care of "Betty," the baby.

Mrs. Marshall said that her sister had been having trouble with her husband in Pittsburgh, where they had been estranged for some time. She said that she had no idea that Mrs. Nichols was in New York until a policeman notified her that she was in serious condition at the hospital.

DO NOT GROW OLD BEFORE YOUR TIME!

**Why Let Lack Of Confidence, Nerve
Force And Vitality, Make You
A Weakling?**

If you feel tired, despondent, mentally or physically depressed, and lack the ambition, energy and vigor to do the things you would like to do—go now to your druggist and get a box of Double Strength Erbac Tablets and see what a difference a few days use will make.

In absolute secrecy and without the slightest risk of loss, you can prove the amazing nerve and vitality building value of Erbac in less than a week—and you must be fully satisfied with results or the test will not be made for you a penny. So, don't give up to sickness, "old age," weakness or nervousness. Life is yours to use and enjoy—and with abundant Nerve Force and Vitality, you may laugh at ill health and approaching age! Ask your druggist.

Publication Of Maritime Report Asked

**OTTAWA, Oct. 11.—Demanding
immediate publication of the
report of the Duncan Commission
on Maritime claims and
rights, Conservative members of
Parliament and Senators from
the Maritime Provinces today
passed a resolution at a meeting
held in Ottawa. The resolution was
moved by Dr. Murray MacLaren
and seconded by Colonel Thomas
Cantley (Pilotus).**

The resolution sets forth that the Commission requested in the report that its findings be made public forthwith, that it is detrimental to the interests of the Maritime Provinces to delay publication of the report and that therefore the parliamentarians place themselves on record as requesting the immediate publication of the Duncan Report.

Presented Bible On Eve of Departure

The B. Y. P. U. of Tabernacle Baptist church held their regular Monday meeting with the weekly program being in charge of Mrs. L. Titus group. Devotional and singing were followed by the reading of the Bible at the end of the regular program a duet was given by Misses Pearl Needham and Helen Glabe.

Following this, Misses Florence Fletcher and Sadie Lunn were called to the platform and presented with Bibles in view of their approaching departure for Toronto, where they will take up studies in the Toronto Bible College. They made suitable replies. Supper and a social hour followed after which the meeting closed with the singing of songs and hymns.

Rev. A. L. Tedford made the presentation.

URGES SELECTION OF SETTLERS HERE

**Hume Cronyn Expresses Strong
Preference For British
Immigrants**

Canadian Press
TORONTO, Ont., Oct. 12.—The probable harmful effects of introducing into Canada immigrants whose racial traits differ from those of the Canadian population, were spoken of by Major Hume Cronyn, of London, Ont., at the board of trade dinner here last night.

"Immigration," he quoted, "is a long time investment in family stock rather than a short time investment in productive labor. The greatest care must be exercised in selection of the future inhabitants of this country."

A Major Cronyn expressed a strong preference for British immigrants. The difficulty was that Britain could not nearly meet Canada's need in this respect. The next were the three great race divisions of Europe, the Nordic, Alpine and Mediterranean. Land workers were preferable to industrialists, and Nordics to Central Europeans. He scorned the idea that Canada should be made a "melting pot" for from such a fusion only the worst characteristics would survive, he declared.

ADVERTISE POSITION.

R. E. MacLaughlin, secretary-treasurer of the Saint John Law Society, has been advised that the Civil Service Commission at Ottawa has been requested to advertise the position of assistant legal adviser to the International Labor Office League of Nations, Geneva. Mr. MacLaughlin also received a number of application forms and was requested to bring the matter to the attention of any person or persons whom he considered might be interested.

POSTERS TELL NEED OF WORK FOR HEALTH

**Infant Mortality in Canadian
Cities—Local Centre Pre-
pares For Appeal**

While children's week is being observed throughout the city, the Saint John Health Centre is preparing for its annual tag day appeal, which this year will be a "Maple Leaf Day" and held on Saturday, Oct. 16. The posters of the Canadian Council of Child Welfare, recently received by Miss H. Dykeman, director of the Health Centre, are being prominently displayed to bring home to the public the work which the Health Centre has accomplished and is carrying forward for the betterment of child health.

In one poster the standing of the cities of Canada in infant mortality rate in 1924 is shown and Saint John, which ranks twelfth in population, has marked down that its infant mortality rate that year was 105.8 for every 1,000 of live births. That record places the city fairly low in the scale which has at the top Westmount with an infant mortality rate of 20.8. Montreal, which in point of population ranks thirty-second has an infant mortality rate of 70.1 on the poster.

IN SUNDAY SCHOOL

At the Sunday school rally at the afternoon Superintendent C. B. Lockhart presided and congratulated teachers and school, and there were words of commendation from the pastor, Rev. James Dunn.

The Sunday school program was:

Hymn, "Onward Christian Soldiers"; prayer, Rev. Mr. Dunn; Psalm 29; Primary class; solo, "Little Hands and Feet"; Patsy Stammers; exercise, "What Can Little Children Do," by three children; recitation, "Daisies and Daffodils," Marjorie Grant; solo, Walter Kierstead; recitation, "Children's Theme," Edna Tucker; quartette, and it was pointed out yesterday that in view of this fact there is still greater need to give full support to the Health Centre in its work to save the children.

1924 FIGURES.

In 1924 there were 12,155 infant deaths in Canada the poster states and it gives as the best means of reducing infant mortality to be taken by communities as adequate ante-natal service, adequate care at the time of birth, adequate post-natal care, and adequate infant health service, each and all of which are provided by the various organizations which make the Health Centre headquarters.

They made suitable replies. Supper and a social hour followed after which the meeting closed with the singing of songs and hymns.

Rev. A. L. Tedford made the presentation.

SAY "BAYER" when you buy—INSIST!

Unless you see the "Bayer Cross" on tablets, you are not getting the genuine Bayer product prescribed by physicians and proved safe by millions over 25 years for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocarbonyl-acetic acid (Aspirin) and is a registered trademark. The Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

MAKES APPEAL IN INTERESTS OF COMMUNITY

**Rev. J. Dunlop Addresses
Urge to Young of West
Saint John**

In connection with the closing of the rally week of Charlotte street Baptist church, West Saint John, the pastor, Rev. James Dunlop, speaking on communal ideals, at the Sunday evening service, made a special appeal to the young men and women of West Saint John. He said no city is higher than its leaders, and no leader could rise higher than his ideals. It was, therefore, important to seek the highest type of citizenship. Mineral wealth, forests and fisheries were not the greatest national assets. The most enduring thing in the national life was manhood and womanhood.

He spoke of the responsibility of women to support communal institutions. Every city, province and country had the government it deserved. In a free country, the government, as the choice of the people, reflected the type of citizenship. Women suffered most from the burden of these conditions, but the burden of husband, brother and son was the burden of the wife and mother and sister ultimately.

ASKS FOR INTEREST

He appealed to the young men and women to develop an interest in communal life, not merely to expect good times but to strive to make the conditions essential for prosperity. The young men and women could not be expected to adapt themselves to the quick-changing program of communal life, but they should begin where they left off and make the communal program evolutionary. Without becoming sectional, they should think first in terms of West Saint John. Develop public spirit, get a united program, loyal to their own group, encourage the citizens who were seeking to make West Saint John more beautiful and prosperous.

TRAINED WORKERS

The preacher referred to the need for trained workers. He said prosperity was not an accident; it was due to combined, intelligent effort. Communities that worked, worked for themselves.

In training workers the Sunday school was as necessary as the day school. The church was as important as the state. Nothing was as dangerous as untrained intellect. Germany lay in the dust merely because she had an intellectualism that eclipsed God in her national life. Nations that rejected Christ perished in their folly.

One could not be a good Christian and a good citizen. A man who was right in his religion could not be wrong in his business. Religion and business were not to be separated. The ideal type in the life of the community, therefore, it merited the support of every young man and woman in West Saint John who had the weal of the community at heart.

IN SUNDAY SCHOOL

At the Sunday school rally at the afternoon Superintendent C. B. Lockhart presided and congratulated teachers and school, and there were words of commendation from the pastor, Rev. James Dunn.

The Sunday school program was:

Hymn, "Onward Christian Soldiers"; prayer, Rev. Mr. Dunn; Psalm 29; Primary class; solo, "Little Hands and Feet"; Patsy Stammers; exercise, "What Can Little Children Do," by three children; recitation, "Daisies and Daffodils," Marjorie Grant; solo, Walter Kierstead; recitation, "Children's Theme," Edna Tucker; quartette, and it was pointed out yesterday that in view of this fact there is still greater need to give full support to the Health Centre in its work to save the children.

Praise For Ruth

The New York "Times" has the following editorial on "Babe" Ruth recently. It sets the greatest slugger of all time in a new light.

"When Ruth reported at the St. Petersburg training camp, an imaginative writer said that he had passed 'the shadow line of his youth,' was growing 'old and fat' and that his best days were 'behind him.' Yet on Wednesday this Polistaffan ballplayer pounded out three home runs and personally conducted the Yankees to an overwhelming victory. Ruth was in a sentimental mood, and then he is always dangerous. On Tuesday by air mail he promised a desperately sick boy in New Jersey to 'knock a homer for you.' The child's hero made it three. That feat cheered the little fellow up."

"If there be any who protest the space given by the newspapers to Ruth's prowess, let them consider how wholesome is the admiration he kindles. Every summer day baseball is played in back lots, and lots, cow pastures, parks and stadiums. It is a clean and manly sport. The ambition of every player from a ragamuffin to the fielders' heads with the bases full. If verse is immortal in the United States, the claim of 'Casey at the Bat' must be given consideration. So when a man arises who can make three home runs in a world's series game, he wears the laurel amid the deafening plaudits of the American nation."

Your champion loser has his train of followers, and he can draw crowds and heap dollars on dollars, but prize-fighting is not the national game. No one is really proud of it. But baseball is universal. Its influence is beneficent. It makes sound and vigorous men. To make a hero out of a player like Ruth is well worth while."

Muskat and Beaver Farming Will be New Industry in N. B.

SACKVILLE, Oct. 11.—Sackville men are interested in a transaction consummated recently when lands and lakes, formerly owned by the Missisquoi Marsh Company, became the property of the Missisquoi Fur and Farm Limited, a joint stock company with which a number of local men are associated.

The tract consists of about 6,000 acres, of which about 500 acres, all or partially reclaimed, are hay growing lands. Part of the Missisquoi property lies in New Brunswick and part in Nova Scotia, and constitutes part of the Isthmus of Chignecto.

FINE HAY CROPS

About 25 years ago a company was organized to reclaim the bog lands at the head of the Missisquoi River. A canal over four miles long was constructed. It forms an extension to the Missisquoi River beginning near Mount Whately and tapping a series of lakes to the east of Halls Hill. At one time as high as 500 tons of hay have been

cut in a single year on the reclaimed Missisquoi marsh so, from a farming standpoint, the possibilities of new company would seem to be bright.

FOR FUR FARMING

The hunting privileges on so large an acreage are very valuable, while the most profitable part of the undertaking is expected to be muskrat and beaver farming. The Missisquoi marsh and lakes have long been the haunts of muskrats of high quality. It is proposed to protect these for a few years, and with the great possibilities in adding beavers to the list of fur bearers, the chances for the success of the fur end of the Missisquoi enterprise would appear promising.

Among the present shareholders of The Missisquoi Fur and Farm Limited are the following: Senator A. B. Cope, P. T. Tingley, C. C. Aard and H. C. Read, Sackville; William A. Trueman and John Tingley, Point de Bute; J. Tingley, Moncton, and George W. Tingley, Halifax.

Many Bears Are Secured In Chipman Area

CHIPMAN, Oct. 11.—Bears are much in evidence in this section. He took tribute, recently, of the flock of John Winslow, of Harley Road, in the form of a captured Shropshire ram.

By way of reprisal, captured two bears, shooting one and taking the other in a trap. Both bears were very large. Also, a Mr. Buckley, of Saint John, while mousing bunting this week, saw three bears, one of which he shot. Two more were shot at North Forks.

THANKS EXPRESSED

**Canadian Bar Association Official
Sends Letter Here**

As president of the Saint John Law Society, Hon. L. P. D. Tilley, K. C., has received the following letter from the secretary-treasurer of the Canadian Bar Association:

Dear Mr. Tilley:

It is my pleasant duty to communicate to you the following resolution which was passed unanimously at the recent annual meeting of the Canadian Bar Association at Saint John, N. B.

"That the thanks of the association be tendered to the bars of New Brunswick, Nova Scotia and Prince Edward Island, and to the local committee, for their cordial welcome to us, and for the many courtesies extended to our members, and for the opportunity many of us have thus had to become acquainted with these beautiful provinces by the sea."

Very sincerely yours,
E. H. COLEMAN,
Secretary-Treasurer.

YOUR Grandparents relied on ENO'S

Years before the C.P.R. spanned Canada, ENO'S "Fruit Salt" had found its way across the continent. As years have sped, its sterling merits have become more and more widely acknowledged. Now there is not a corner of the civilized world where the morning "dash" of ENO is not part and parcel of life as it should be lived.

ENO excels because it is the one simple, pleasant and, above all, natural way to ensure internal cleanliness. You never wish you hadn't taken ENO, as perhaps you have wished with other laxatives. It doesn't do good to-day to leave you worse to-morrow.

It excels, too, because of its purity, its unchanging high quality, its freedom from injurious mineral salts and sugar and flavouring matter.

The rule of your grandparents—ENO'S "Fruit Salt" first thing in the morning—is as sound to-day as ever it was.
