London Believes Egyptian Move to Oust British From Sudan

MARX CONFIDENTIAL OF FINAL SUCCESS

AGITATORS ARE THOUGHT TO BE CAUSE OF CLASH

Intention Appears to be to Strengthen Hand of London Envoy.

4 DEAD; 15 WOUNDED Troops Which Fired Shots Were Arabs in Cairo Report.

By H. N. MOORE (British United Press Wires) London, Aug. 13.—The political disturbances in the Sudan which recently resulted in 19 casualties in a brush between English and native Egyptian troops are regarded here as insignificant and not as an indication of popular opinion. These disturbances are merely the evidences of the conspiracy against British rule of the Sudan, engineered by Egyptian agitators.

These recent evidences of restlessness on the part of native troops are intended to strengthen the hands of Zaghlul Pasha who is at present paying an official visit to London to discuss Egyptian problems and notably Egypt's claim for the control of the Sudan.

The British Government has already made its position clear by its recent emphatic statement that Great Britain cannot throw off its Sudanese responsibilities.

May Cause Delay. London, Aug. 13.—The London newspapers this morning make a big display of the disturbances in the Sudan, which they attribute to a conspiracy by interested persons in Egypt aiming to oust the British from the Sudan and establish Egyptian rule over it.

The Egyptian premier, Zaghlul Pasha, told the chamber of commerce in London that upon complete evacuation of the Sudan by Great Britain and afterward the British ministers announced in Parliament that the British on no account would renounce their responsibility to the Sudan and the Sudanese.

The editorial writers, while not believing that the present troubles will necessarily have serious consequences, foresee a possible agreement between the Egyptian and British governments and even a conceivable cancellation of the impending negotiations with Zaghlul Pasha. Editorial opinion strongly supports the Government in its Sudanese policy.

The Times says: "Either to admit the Egyptian pretensions to the Sudan or to leave the Sudan to the Sudanese would be an inconceivable folly and inquiry."

Four Were Killed. The latest despatches from Khartoum and Cairo state that the actual casualties in the clash at Atbara were four killed and 15 wounded, that no Egyptian troops were present and that the troops who fired the shots were Sudanese Arabs, acting apparently without orders and under extreme provocation from the rioters. British troops and airplanes are reported to have left Cairo yesterday to reinforce the garrison at Khartoum.

Cairo, Aug. 13.—A demonstration took place this afternoon in the Ezbekiya gardens in sympathy with the recent disturbance at Atbara. Complete calm now prevails throughout the Sudan.
