(By Mrs. Mac Martyn)

ALICE: You are quite right in assuming that you need a tonic because they stayed indoors too much this winter and ate too much meat and too few vegetables. You evidently need a good tonic and blood purifier. Get one ounce of karden and half a cup of sugar and dissolve in half a pint of alcohol. Then though cold pure water to make a full quart. Take a tablespoonful of this before each meal. Its action is to sharpen appetite, assist proper assimilation, regulate the liver and thereby purify the blood. There is no better general tonic that I know of, either.

MIRA D.: You are probably one of the millions who need a tonic because just because you tan and freckle so easily. Here is how you can have your good times—and your good looks, too. Prepare a lotion by dissolving 4 ounces of apurax in ½ pint of hot water. Add 2 teaspoonfuls of glycerine. Let stand until cold, then bottle. Apply this morning and night and it will act like magic to keep away the bad effects of exposure to sun and wind. Many women find it a splendid substitute for ordinary face powder; it keeps away the shine of perspiration and imparts a natural healthy glow without an artificial look. In fact, it seems like a part of the skin.

MIDDLE-AGED: I have every sympathy with your objection to "facing the light" if your complexion is not good and wrinkles are beginning to show, but I am sure you are mistaken in saying it is "ruined." All it needs, probably, is tanning up. When the skin is lined and flabby it can be restored to fresh firmness by this simple means. Get one ounce of alcohol and mix with two teaspoonfuls of glycerine, add ½ pint cold water, stir and let stand two hours. Apply freely and note the contracting of the skin, which acts as a pore cleanser and stimulator of circulation. It positively will not grow hair. I have found great benefit in this lotion because of its healthy effect on the pores and outer cuticle as well as on the tissues beneath.

E. L. D.: I sympathize with you in the "stickiness," as you call it, of your hair. I am glad I can tell you just how to relieve it as well as dandruff and at the same time avoid the brittle dryness caused by soap shampoos. Get some canthox at your druggist's and dissolve a teaspoonful in a cup of hot water. Never use soap. The canthox is enough, leaving the scalp perfectly clean and the hair fluffy, giving the appearance of an abundant growth whether you have it or not.

MRS. B. W.: From what you say about your eyes, I am sure all they need is a little care. Get an ounce of erysot and dissolve in a pint of soft water. Drop two drops daily in each eye, or oftener if the lids are inflamed. This treatment faithfully used restores brightness and color to the eye as well as clear sight. Many actresses use erysot to make the eyes sparkle, and it has this effect without the slightest harmful results.

B. B.: Your excessive flesh will be even more troublesome as the weather grows warmer, and you are quite right to take some simple means of reducing it. Ask your druggist for 4 ounces of parafin. Dissolve this in one and a half pints of water. Take a tablespoonful of the solution after each meal. This is simple, safe and sure. Parafin merely assists nature in establishing a normal assimilation of food. You do not have to exercise violently or restrict your diet.

THE SILVER BLACK FOX INDUSTRY

The story of the Silver Black Fox Industry reads like a chapter from the Arabian Nights. It is a short story, yet a dramatic one. It is a story of romance, of a romance, in fact it is romance realized, for, if to plant in poverty, and suddenly to reap in affluence is dramatic, then the story of its rise to one of the leading industries of the Maritime Provinces is as dramatic as it is romantic.

The Imperial Silver Black Fox Company, Limited, St. John, N. B., take pleasure in recommending to conservative investors shares in the company as an investment offering great possibilities for substantial dividends. A. C. Currie, 96 Prince Street, Secretary Treasurer. Shares \$10 each.

Do not open an umbrella to dry it, nor yet stand it on its ferrule. Either method is destructive, the former because the ribs will become warped, and neat, tight rolling impossible for a short time; and the second because the water collecting about the top will rot the covering. Leave the umbrella closed, but not rolled and turn it handle downwards, then when the silk is perfectly dry rub it with a woollen cloth to restore the gloss.
