COQUE GRANT SEN.

DEMOCRATS TRADE AGREEMENT SENTIMENT IN FAVOR OF PASSING MEASURE

New York Delegation Leads
the Way—Extra Session of
Congress is Likely

Washington, D. C., Feb. 2.—The attitude of the House Democrats toward the reciprocity agreement with Canada is being canvassed at the instance of Minority Leader Clark yesterday. He asked every state delegation to take up the matter and report to him, so that he might know the general temper.

New York, led by Representative Spitzer, started the ball rolling, and the conference was unanimously in favor of passing the resolution. Thursday's delegates held a meeting at the same time and the consensus of opinion was for the agreement. Democrats from other states talked over the situation, and the sentiment, so far as the inducement, seemed to be that the Democrats should pass the measure.

Secretary of State Knox and Special Agent Charles M. Pepper, of the state department, in a hearing before the next session of the committee, next Thursday, will urge the Republicans to support the agreement.

President Taft's announcement yesterday that the southern tour, which he had planned to take early next month, would be cancelled, with the exception of the visit to Atlanta, March 10, started political tongues wagging with rumors that his purpose was to prepare for a possible session of congress in early next month.

Fears have been expressed that the senate would "talk the reciprocity measure to death," or kill it in some way, although it was believed the House, probably with the aid of the Democrats, would pass it.

If this should be the case, the president would feel, it was said, that he could depend upon a Democratic House, such as would exist after March 4, to support him in his efforts to pass this legislation. An extra session would force action on the question, with the senate shortly after, and the president getting his reciprocity legislation passed.

"In a month's time we will be called upon to enact the reciprocity agreement with Canada," said a Democratic leader, "and we know we are going to do it with it. We will only have to come to a compromise that cares for the industries of all our people."

This was Speaker Cannon's declaration at the banquet of the National Association of Wool Manufacturers last night in a speech in which he defined the Payne-Aldrich tariff as the best revenue measure ever enacted, and that he had no apology to make for it in any respect.

Several speeches had been made concerning schedule "K," the famous wool schedule, and when Speaker Cannon rose to speak, he said that he had no apology to make for it in any respect.

"We have lately had sent to congress a commercial agreement in name, but a treaty in reality, but one that goes against the wool growers. In a month's time we will be called upon to enact it into law. I don't know what we are going to do with it."

Ask the fruit growers of California what they are going to do with an act which will take away from them the right to give to one-third of the population of the country—the farmers? They will only come to a compromise after all. As I am concerned with all the work of the congress, I do not believe that by legislation originating in the House and amended in the senate we can do so great a work as the double-breasted, anti-hypocritical jump fashion expected of Canada.

Opposes Trade Agreement.
Montreal, Feb. 2.—By a vote of 60 to 44 the Montreal board of trade denounced the reciprocity agreement between Canada and the United States. A resolution declared that the "so-called sense of Canada is against any change in the trade policy under which the country has grown to its present prosperity. We consider it the bounden duty of every Canadian to resist anything endangering our status as a component part of the British Empire, and fear that such a treaty as is proposed with the United States would prove an entering wedge which would eventually separate our interests from those of the Mother Land."

CLEMENCY FOR EDITOR.

Washington, D. C., Feb. 2.—President Taft yesterday commuted the six months' sentence of Fred Warren, editor of the Socialist paper, the Appeal to Reason. Warren had asked for no commutation. His original sentence called for six months' imprisonment and the payment of a fine of \$1,500.

CURTIS REPEATS FEAT.

San Diego, Cal., Feb. 2.—In a new biplane, Aviator Glen H. Curtis made two successful flights from the shore to the city of San Diego yesterday in the presence of Lieutenants Brock, Ellison and Walker. The new attachment to the biplane is about five feet wide, eight feet long and shaped like a pint, blunt at both ends, slightly tapering toward the front.

WILL DECIDE ON FAIR SITE FRIDAY

U. S. Senate Committee on Ex-
position to Hear Claims of
the Rival Cities

Washington, D. C., Feb. 2.—The final fight for the location of the Panama-Pacific exposition has been delayed until Friday. The senate committee on the industrial exposition will then listen to arguments by the New Orleans and San Francisco boosters. Yesterday, instead of giving all its time to the claims of the rival cities, the committee heard a request from Washington for an "official celebration" of the completion of the Panama canal.

H. B. McFarland, representing the local chamber of commerce and the board of trade, explained that the celebration planned would not interfere with the exposition planned by New Orleans or San Francisco. The Washington exposition, he said, would be a small one and it was planned to hold it in Potomac park.

Governor Sanders, Louisiana, appeared before the committee for a short time before McFarland made his plea. "It is a question of money," said Sanders. "New Orleans has more than San Francisco ever dared have. Ten millions will go farther in New Orleans than seventeen in San Francisco under existing conditions."

Theo. A. Bell, of California, then spoke briefly for San Francisco. He discussed the Japanese question and said that the San Francisco delegation here had received telegrams of congratulation from the Japanese consul and the more important Japanese and Chinese merchants of the western city. The San Francisco boosters are very confident of ultimate success.

INTERIOR RIFLE ASSOCIATIONS MEET

Five New Bodies Will Affiliate
—Lt.-Col. Holmes
Offers Cup

Nelson, Feb. 1.—At the first annual meeting of the council of the interior of British Columbia Rifle Association an executive was elected for the ensuing year, and some radical changes were made in the constitution and by-laws. The council elected members of the executive committee, Major Stewart, Capt. A. Carrie, Capt. R. I. Steel and R. W. Hinton, the fifth member being the president, Lieut.-Colonel Holmes, of Kamloops. Capt. Steel was appointed secretary, and Capt. G. Anderson treasurer.

The date of the annual prize-meeting could not be fixed at this meeting for several reasons, one being the military camp at Kamloops in June, another being the uncertain date of the completion of the improvements to the rifle range, and another being that it is desirable to serve the convenience of the ranchmen.

The secretary intimated that there would be at least five new associations in affiliation the current year, those of Phoenix, Creston, Crawford Bay, Kelowna and Bulkley.

It was decided to reduce the number of prizes in each competition, so that they should not exceed one-third of the total number of prizes offered.

A letter was read from Lieut.-Col. W. J. H. Holmes, president of the association, offering to present the association with a cup, the conditions to govern the same to be arranged by the executive. The secretary was instructed to convey the thanks of the association to him for his very kind offer, which, needless to say, was accepted, although the match to which the cup will apply has not yet been decided upon.

The Dominion Rifle Association rules of 1910 were adopted to govern this year's competitions.

CHURCH NEWS.

Rev. A. Silva White, M. A., of Nanaimo, to Succeed Canon Cooper.
The bishop has appointed the Rev. A. Silva White, M. A., rector of Nanaimo, to be canon of Christ Church cathedral in the place of Canon Cooper. The new canon was a scholar of St. John's College, Manitoba, where he graduated as B. A. (first class theological) in 1893, and M. A. in 1896. Mr. Silva White has been rector of Nanaimo since 1904. He will be instituted at the morning service in the cathedral on Sunday next.

ARE ARRANGING WAGE SCALES

PAINTERS TO ASK
FOR \$4 PER DAY

Unskilled Labor to Be Paid
\$2.75 on All City
Work

Important action respecting the scale of wages paid unskilled labor and also union painters was reported on at last evening's meeting of the Victoria Trade and Labor Council. In view of the fact that the city council had raised the pay of its employees from \$2.50 to \$2.75 per day, it was resolved to ask the city council to have the clause governing wages now inserted in all contracts, so that all unskilled labor would be paid the same as the city paid, viz., \$2.75 per day of eight hours.

The legislative committee will have charge of the matter, and a member of the Executive Union was also placed on the committee, as most city work for contractors who do city teaming, and the council is anxious that they should be called upon to pay their men the same scale.

The delegates of the Painters' Union announced that the painters would ask for \$4 per day this season. The union made the demand last year but withdrew the request in deference to the representations of the master painters, and it was understood at the time that \$4 per day should come into effect in 1911. They had every hope of receiving fair treatment from the master painters. The council, on motion, endorsed the action of the painters.

Credentials were presented by William McLeod, from the Electric Union, and H. Fernie, from the Electrical Workers, and the delegates seated. The appointment of the following committee was announced:

Legislative committee: A. R. Sherkin, N. Nicholson, J. L. Martin, J. P. Press, R. Ryan, Phil. Smith, Theo. Crow.
Organizing: G. Hardy, A. Herberger, A. C. Chislett.
Hall: J. C. Waters, C. Siverts, W. Clack, G. Thibbitt, W. Miller.
Finance: H. Marsh, H. G. Hills, Dan McNichol.

The Victoria Printing & Publishing Company wrote to say that they intended to publish the annual Labor Directory, and asked the approval of the council, which was granted.

The Cooke and Walker Union wrote to ask the council to assist in the purchase of a new building for their union. The council agreed to assist in the purchase of a new building for their union.

The premier's private secretary wrote to say that the government would give full and fair consideration to Bill No. 2, as requested by the union.

The secretary of the Labor Temple Association made a report, which showed that splendid success so far was being achieved, the latest being the Typographical Union, which would pay cash for fifty shares.

The president stated that the union had received and would be presented, next Monday evening. It was also announced that the charter of the Pleasant Union had arrived, and been presented to the union, which would in future be known as Local No. 450.

Delegates: Nicholson, Perry, and Smith, the secretary and president of the union, were also present.

The Dominion Rifle Association rules of 1910 were adopted to govern this year's competitions.

STATE REPRESENTATION.

Sydney, Feb. 2.—A labor conference here was urged to agree to a motion advocating the cutting down of the number of members in the state parliaments. All the members of the Federal parliament were also members of the conference supported that motion, which was opposed by the state politicians. A lively discussion resulted in a defeat of the resolution.

CANCER IS CURABLE.

These under treatment can proceed with their business as usual.
Sufferers from CANCER, ULCERS, LUPUS, ETC., should send at once for Professor Stroop's Remedy (which is absolutely harmless) price 10s. which includes a full course of treatment. Only Professor Stroop's book entitled "Cancer and its Cure" will be sent FREE. Address: Dr. J. H. Stroop, 10, Waterloo Road, London, ENGLAND.

YIP ON'S REFRESHED MEMORY.

Vancouver, B. C., Feb. 2.—Mr. Kelly and told him that I was sorry to get suspended and I thought someone was looking for my job."

In these words Yip On, immediately the royal commission on the Chinese question resumed its inquiry this morning, refuted the evidence which he gave on the witness stand the other day to the effect that he did not see Mr. Kelly with reference to his allegation that David Lee was trying to get his position.

Yip On took the witness stand of his own accord, and on the advice of his counsel, Mr. S. S. Taylor, in order to correct the statement. He also denied the applicability of his reply to questions from Mr. McCrossan, that he knew that the two printers and the two goldsmiths who are employed by his brother, Yip Quong, were passport men.

When Yip On left the stand, the day before yesterday, and was granted a permanent absence from that unenviable position in which he has spent so many worrying hours, no one expected to see him again so soon. Nevertheless, here he was again, just as solid as ever, and of his own accord.

He explained that he went to Mr. Kelly's warehouse and saw him at the office of his counsel, Mr. Kelly, naturally, he was surprised, and he said he did not know, but thought someone was looking for his job.

FIFTY MEXICAN INSURGENTS KILLED

Commander of Federal Force
Tells of Dynamiting of Train
Carrying Some Rebels

(Times Leased Wire.)
El Paso, Texas, Feb. 2.—Captain Jacobo Crotista, who commanded the federal troops which blew up the five-mile bridge, said this afternoon to the United Press correspondent that fifty insurgents were killed in the skirmish at the bridge.

We left Juarez 5:00 strong, with orders to blow up the bridge, said Capt. Crotista. "We met the insurgents in a train and dynamited it. The locomotive was wrecked, the coaches piled in a heap and fifty rebels were killed. I counted them. Then the remainder of the rebels formed and fired a volley, wounding three of our men. After a sharp engagement, we were able to return to Juarez with our dead and wounded."

GAME IMPORTATION IS GREAT SUCCESS

Mongolian Pheasants Thrive
on Mainland—Open Season
Declared for Beaver

In view of the success which has attended the importation of Mongolian pheasants to the mainland, it is hoped by sportsmen that the government will see its way to introduce more of these useful birds to the island as well.

The experiment of introducing new blood among pheasants of the lower mainland has been so successful that, it is considered, putting pheasants of the Mongolian variety out in the lower Okanagan and also near Creston, where they have become too numerous.

Partridges and pheasants will be protected this year at least by close season.

WEEKLY WEATHER SYNOPSIS.

Victoria Meteorological Office.
The present week, January 29th to Feb. 4th.
Victoria—Bright sunshine, 5 hours; rain, 1.2 inches; snow, 0.2 inches; lowest, 30.2 on 29th; rain, 0.2 inches; snow, 0.2 inches; total precipitation, 0.4 inches.
Vancouver—Bright sunshine, 5.5 hours; highest temperature, 40 on 25th; lowest, 30 on 28th and 29th; rain, 0.4 inches; snow, 0.2 inches; total, 0.6 inches.
Barkerville—Highest temperature, 30 on 20th; lowest, 15 below zero on 26th; snow, 3 inches.
Prince Rupert—Highest temperature, 35 on 22nd; lowest, 4 on 27th and 28th; precipitation (rain and snow), 2.38 inches.
Atlin—Highest temperature, 22 on 23rd; lowest, 36 below zero on 26th; snow, 30 inches.
Dawson—Highest temperature, 30 on 23rd; lowest, 60 below zero on 26th and 27th; snow, 2.20 inches.

TWO BATHERS DROWNED.

Melbourne, Feb. 2.—A tragic surf-bathing accident occurred today, when two people of all ages were caught by the undertow and were rapidly being swept out to sea when two men who were on the beach and spectators of the occurrence, rescued fourteen of the bathers. The others were swept away and drowned before the eyes of a helpless crowd.

QUAKE RECORDED.

San Jose, Cal., Jan. 31.—Santa Clara College reports that a slight earthquake was recorded in the observatory seismograph yesterday. The disturbance began at 2:45 o'clock and lasted about thirty seconds.

PROPOSED TARIFF AND FREE LIST

While Canada Reduces 2 1/2
Per Cent., United States
Reduces 12 to 15

The following table shows that uniform tariff of duty prepared by the reciprocity compact on articles passing between the United States and Canada. The average reduction by Canada is 1.4 per cent, and by the United States from 12 to 15 per cent. A list of the articles for the free list between the countries, is also published.

Pen knives, household knives, table steel, 17 1/2 per cent.
Bells and gongs, brass corners and rules for printers, 17 1/2 per cent.
Baths, bath tubs, sinks, plumbing fixtures for lavatories, 22 1/2 per cent.
Brass band instruments, 22 1/2 per cent.
Grindstones, unmounted, 50 per 100 lbs.
Building stones, granite, sandstone or limestone, not dressed, 12 1/2 per cent.
Roofing slate, per square of 100 square feet, 55c. per square.
Plain vitrified paving blocks, 17 1/2 per cent.
Stone paving blocks, 15 1/2 per cent.
Clocks, watches, etc., 22 1/2 per cent.
Natural feathers, 12 1/2 per cent.
Printers' cases and cabinets, 27 1/2 per cent.
Surgical dressings, absorbent cotton, gauzes, etc., surgical trusses and suspensory bandages, 17 1/2 per cent.
Printing ink, 17 1/2 per cent.
Essential oil, 7 1/2 per cent.
Unbleached paper, glass, in sheets exceeding 7 square feet, 22 1/2 per cent. per square foot.
Oxide of iron, as a color, 22 1/2 per cent.
Motors and automobiles and parts thereof, not including rubber tires, 30 per cent.
Manufactures of asbestos, 22 1/2 per cent.
Canoes and small wooden boats, 22 1/2 per cent.
Wood floor, 22 1/2 per cent.
Digesters for the manufacture of wood pulp, 27 1/2 per cent.
Grape vines, gooseberry, raspberry and currant bushes, 17 1/2 per cent.
Mineral and aerated waters in bottles or tins, 17 1/2 per cent.
Harvesters and reapers, 15 per cent.
Agricultural drills and planters, 15 per cent.
Grain crushers, 25 per cent.
Milling mills, 20 per cent.
Farm or field rollers, 20 per cent.
Mowers, 20 per cent.
Wind mills and finished parts, 20 per cent.
Portland cement, 11c. per 100 lbs.
Fruit trees, apple, cherry, etc., 2 1/2 per cent.
Condensed milk, weight of package included, 2c. per lb.
Biscuit without added sweetenings, 20 per cent.
Fruits, in airtight cans, 2c. per lb.
Peanuts, shelled, 1c. per lb.
Peanuts, unshelled, 1-2c. per lb.
Bituminous coal, 45c. per ton.
Extracts of meat, fluid or solid, 20 per cent.
Tallow, 40c. per 100 lbs.
Lead and compounds thereof, cotton line, etc., 1 1/4c. per lb.
Tomatoes, beans, etc., in cans, 1 1/4c. per lb.
Flour, wheat, rye, etc., 50c. per barrel.
Oatmeal, etc., 50c. per 100 lbs.
Barley, pearly or patent, 1-2c. per lb.
Barley malt, 45c. per 100 lbs.
Buckwheat flour, 1-2c. per lb.
Cornmeal, 12 1/2c. per 100 lbs.
Cakes, dried, 7 1/2c. per bushel.
Prepared cereal foods, 20 per cent.
Bran, middlings and grain offals, 12 1/2c. per 100 lbs.
Macaroni and vermicelli, 1c. per lb.
Biscuits, "cracker," added sweetening only, 25 per cent.
Biscuits, etc., combined with fruits or confectionery, candied peel and fruits, confectionery of all kinds, 22 1/2 per cent.
Wine, sugar and syrups, 15 per lb.
Canned fruits, 2c. per lb.
Bleaches and catnip, 7 1/2 per cent.
Egg yolk, etc., 7 1/2 per cent.
Peanut butter, etc., non-alcoholic, 17 1/2 per cent.
Sardines, in oil according to the weight of the box up to 35 ounces, 20 per cent.
Sardines, in boxes over 35 ounces, 30 per cent.
Farm wagons and parts thereof, 22 1/2 per cent.
Ploughs, 15 per cent.
Trough and sickle harrows, 15 per cent.
Music cases, card cases, pocketbooks, etc., 22 1/2 per cent.
Aluminum in crude form, 5c. per lb.
Lumber, planed and finished on four sides, \$1.50 per 1,000 feet.
Iron ore, 10c. per ton.
Aluminum in sheets, etc., 8c. per lb.
Laths, 20c. per 1,000.
Sawed boards, etc., and other lumber, finished on one side, 50c. per 1,000 feet.
Lumber, planed on one side, tongued and grooved or planed on two sides, 75c. per 1,000 feet.
Lumber, planed or finished on three sides, or planed and finished on two sides and tongued and grooved, \$1.15 per 1,000.
Meats, fresh or refrigerated, 11-4c. per lb.
Bacon and ham, 11-4c. per lb.
Beef, salted in barrels, 1 1/4 per lb.
Pork, salted and brined, 1 1/4 per lb.
Other salted meats, 7 1/4 per lb.
Canned meats and poultry, 50 per cent.

The schedule submitted by Mr. Field to parliament showing in detail the rates which are to be identical in the tariffs of the two countries, gives the following information as to free goods: Cattle, horses and mules, avian,

The Famous Rayo

Is the Lamp of Real Beauty

because it gives the best light of all lamps. The Rayo gives a white, soft, mellow, diffused light—easy on the eye because it cannot flicker. You can use your eyes as long as you wish under the Rayo light without strain.

The Rayo Lamp is low-priced, and even though you pay \$5, \$10 or \$20 for other lamps, you may get more expensive decorations but you cannot get a better light than the low-priced Rayo gives. A strong, durable shade-holder holds the shade on firm and true. This season's new burner adds strength and appearance.

Once a Rayo User, Always One.

VICTORIA, B. C.

sheep and lambs, other live animals; poultry, dead and alive.

Wheat, rye, oats, barley, buckwheat, beans, dried peas, potatoes, corn (except when brought into Canada for distillation); sweet potatoes, yams, turnips, onions, cabbage, all other vegetables in their natural state; apples, peaches, pears, grapes, wild blueberries, strawberries, raspberries, gooseberries, blackberries; all other vegetables in their natural state; dried apples, peaches, pears and apricots.

Butter, cheese, fresh milk, fresh cream, eggs, honey.

Garden seeds, grass seed, flax seed, cotton seed and other oil seeds; hay, straw, extract of hemlock bark, crude glycerine.

Maccheroni, herrings (fresh, pickled, smoked or kippered); halibut and salmon (fresh, pickled or salted); cod, haddock, ling, pollock, eels and snails; all other fish; oysters (on shell and in cans); lobsters (fresh and canned); all fresh water fish; cod liver oil, seal, herring, whale and other fish oil.

Feldspar (crude, powdered or ground), fluo-spar, mica (manufactured or ground), talc (not for toilet use), crude gypsum, salt in bulk or in package, asbestos (ground), barbed fencing wire.

Brass (in bars and rods), carbon electrodes, cream separators, rolled iron or sheet or plates (galvanized or coated with zinc), rolled round iron rods, wire crucible cast steel, galvanized iron or steel wire, type-casting and type-setting machines and parts thereof, coke.

Natural mineral water, soda, ash, salt cake, rough lumber, paving posts, railroad ties, trolley telephone and telegraph poles, wood staves not further manufactured than listed or joined.

It was a bad night for the Attell family on Monday. Able, eldest of the name, broke his good right arm in a car crash with a Chevrolet. Owen, and brother Monte got his from a comparative unknown fighter in New York. In fact, it was only the bell that saved the clever little Yid from defeat. He was knocked down three times in the first round and, if the bout had gone further than ten rounds, Phil McGovern would probably have won by the knock-out route.

All followers of the sport of the glove will learn with regret of the mishap that has befallen Able Attell. No better little scrapper ever pulled on a mitt since the time of George Dixon. Since the day when he rose to fame in a spectacular manner by hanging a knock-out wallop on the redoubtable Eddie Hanlon in five rounds, Able never looked back and about the only serious snags that he has hit in the course of his long and prosperous career were the two English fighters, Owen Moran and Freddie Welsh.

Unlike many clever little men, Attell never was afraid to go in and slug and he would stand toe to toe with his opponent and trade punches till the cows came home or till he had brought home the bacon, as the case might be. His methods are strongly reminiscent of those of Young Griffo, the famous Australian light-weight who cleaned up everything in sight when he first came to America.

Press dispatches state that Attell broke the humerus of his right arm and that it is feared that he will never enter the ring again, but not to state whether the fracture was simple, compound or comminuted. The humerus

is the bone of the upper arm, running down from the shoulder to the elbow and it appears that when Attell and his opponent were in a clinch, they slipped and fell to the floor. "If Attell's ring career is over, he can at any rate comfort himself with the thought that he can retire on a competence in his old age, for ever since Able cut out gambling his wife has been growing by leaps and bounds and must, by now, have attained to truly plethoric proportions."

Teeth Like Ivory

can only be kept so by the frequent use of some efficient dentifrice, such as

Bowes' Antiseptic
Tooth Paste

which sweetens the breath, prevents decay, hardens the gums, whitens the teeth and gives to the mouth an invigorating feeling of cleanliness. 25c. tube here only.
