WESTERNE GLASSIC THANKSGIVING DAY

Gold Seal Race Around the Belt Line in Vancouver-Runners Training

Vancouver, Sept. 19.-With the possession of the Minto cup and the lacrosse championship decided and the Northwestern League pennant already cinched by the Beavers, the next important event that the interest of the local sporting world will centre on will be the annual Gold Seal road race for the long distance championship of British Columbia.

This race is scheduled for Thanksgiving Day which, according to a recent dispatch from Ottawa, will probably be Monday, October 30. Although that date is nearly six weeks off yet, a number of the local distance runners are already commencing to get in shape for the championship struggle. For it takes time to get in shape for a long distance race of this kind and particularly when a provincial championship is at stake and some of the most valuable prizes ever offered in the west are hung up for the winner and those who finish within the first eight or ten. This year instead of a collection of silverware or other trophies it is prowere: J. Richard Dillon, dictator; A. posed to have the premier prize something of real value, useful as well as ornamental and worth strivter, deputy supreme organizer; W. G. ing for. The premier prize for this

year's race will probably be one of the finest solid gold watches that money can buy—a split second chronometer costing \$100. To accompany this handsome trophy which will be offered by the promoter of the race, will be the British Columbia Ama-teur Athletic Union's provincial championship medal, valued at \$25. This latter will probably be made in the form of a handsome fob with a couple of neat and appropriately engraved bars, making prizes to the value of \$125 that will go to the winner of what is now becoming known as the western long distance classic.

An official sanction has already been granted for the race by the Briin western Canada, and, making a fea- tish Columbia Amateur Athletic Union which has also officially designated large number in the United States, it as the long distance championwhere it has a membership of 350,000. ship of the province. This will be the Organizers are at work in Cuba, fifth annual Gold Seal road race, an France, Spain, and the Hawaiian event that was originated and promoted by Mr. William J. Tulk, president of the Gold Seal Liquor Company. A committee of prominent local sportsmen is now being formed to

handle the details of the race. The race will be run over the same course and distance of last year twice around the Fairview belt car line-a distance of exactly 11 1-5 miles by actual measurement by surveyors last year. The starting point will be opposite the old post office but instead of following the car line all the way around, the runners will come dows Pender street from the corner of Main to the corner of Granville

and Pender. Last year the race was won by Cameron L. Smith, the Bowen Island wonder, who covered the course in record time, with Will R. Chandler, the long distance champion o Pacific coast, a close second. This year Chandler thinks he can "come back" and has already begun light training with that object in view. But there are nearly a dozen other long distance cracks who have designs on the championship to say nothing of the handsome prizes that will be hung up. In addition to the two prizes aggregating \$125 in value that will go
