MAJOR R. R. CALL and Mr. Muirhead returned yesterday from Fort Frances, where they have been spending two weeks looking over the country. They report that along Rainy River, the land is well settled, and that Fowler's mill is running regularly. It will cut from 2,500,000 to 3,000,000 ft. during the season. They also report that the Americans are exploring their side of the line, and will bring in large quantities of logs to be manufactured into lumber at Rat Portage—thus creating an additional hum in that locality. Thes two gentlemen remain here for a few days, and will then return to New Brunswick .-Winnepeg Times, 13th inst.

A Miramichi Holiday.

Tuesday next-Regatta Day-promises to afford the people of the river an excellent opportunity for enjoying themselves thoroughly so far as they can do so out of doors. The spot selected for the Regatta is one of the most pleasantly situated on the North Shore. For nearly the whole length of the courses, the road skirts the river, with just enough of grass plots, clumps of trees and beach interveningnearly all common—to offer cosy quarters and retreats for the family and other private picnic parties which will, no doubt, be a feature of the occasion.

THE WHARF AT BUSHVILLE will be the central point, as all the races. with the exception of the single log one, will be started from it, and that, being but 200 yards, straight away, will end there. Those who wish to enjoy the whole Regatta will breakfast at home and reach the ground by the first boat, which leaves PIC-NIC SUGGESTIONS.

This will place the first arrivals on the ground at about a quarter after ten, when the boat—the Andover—will proceed to Chatham, which place it will leave at eleven, calling at Douglastown at 11 20, and reaching Bushville a few minutes later. The excursionists will have ample the day and it will be well for as many as can do so conveniently to pic-nic together.
