### TUBERCULOSIS.

An Attempt to Disprove Dr. Koch's London Statement.

NEW YORK, Oct. 22.—Determined to disprove by actual tests if possible the declaration of Dr. Koch, the eminent specialist, that human tuberculosis and bovine tuberculosis are not intercommunicable, an important experiment will be begun today in Brooklyn, borough. Dr. George D. Barney and Dr. Walter Lincoln Bell will conduct the tests. Dr. Barney, the prime mover in the matter, like many other physicians, refused to accept as well founded Dr. Koch's statement made before the International tuberculosis congress in London last August. Dr. Koch at that time claimed that tubercular bacilli of a cow could not inoculate a human being contrary to the accepted medical view of such conditions. Dr. Barney said in an interview:

"If Dr. Koch's statement be true, just consider how much money has been wasted and is still being wasted every day. I understand the state of New York has already spent something like two million dollars in the destruction of cattle afflicted with tuberculosis. Immediately after I heard of Dr. Koch's theory, I determined to test its soundness, as I am convinced that it is wrong. Selecting a cow and taking great care that she should be in the best of health, we have concluded to inoculate the animal with the human tubercular bacilli. This experiment will soon show conclusively the truth or falsity of Dr. Koch's proposition."

### A TOBACCO WAR.

English Manufacturers Will Fight the American Invaders.

NEW YORK, Oct. 22.—The London correspondent of the Herald cables the following additional details concerning the "tobacco war" in Great Britain:

Developments are still awaited in the struggle which seems pending between English and American tobacco manufacturers for supremacy in trade. J. B. Duke, leader of the American combination, who is at present in Liverpool, is reported to have said that he would capture the British trade within the next four years or lose a million sterling in the attempt. This challenge has been accepted by the foremost British manufacturers, who are mustering their forces as quickly as possible. Since the list of firms who have banded themselves together to fight the American invasion was published, the English combination has received several additional supporters. Other firms are expected to join in when the struggle has been opened in earnest. For the present both sides seem to be playing a waiting game. The American invaders made a move when they granted a concession to retail tobacco firms encouraging them to stock up with the brand, but English manufacturers regard this merely as a feint.

### A RESTLESS SPIRIT.

NEW YORK, Oct. 22.—Dr. A. M. Cain, who died lately at the Broadway Central hotel, this city, according to reports, had an unusually remarkable career. Dr. McCain, or General McCain as he was usually signed himself, is said to have been graduated from Oxford college, and held diplomas from the Royal College of Surgeons, England. He was also an ex-captain and surgeon in the U. S. volunteer army during the war with Spain and Surgeon-general with the rank of major-general, in the army of Gen. Isidro Jimenez during the expedition in August 1899 against President Heureaux, dictator of San Domingo. In addition he was the man who negotiated a loan of 2,000,000 francs from a French syndicate, which made the object of the Jimenez expedition possible. McCain was at one time the "power behind the throne" in San Domingo, but was suddenly banished from the island.

### A TERRIBLE TRAGEDY.

SPOKANE, Wn., Oct. 22.—In a deserted tunnel in the Blue mountains in Eastern Oregon, Frank Vigor, a miner, found the body of a girl crowded into an old trunk. A deep gash in the head showed the manner of death. The body had evidently been placed there two months before. Several months ago a man and wife drove up the lonely trail to his cabin. They asked the privilege of camping in the old tunnel mouth. He gave them food. In the morning they had gone.

### AMERICAN GIRL IN LONDON.

LONDON, Oct. 22.—Marie Josephine Eastwick, the young Philadelphia woman who was committed October 1st in the Guild Hall police court for trial at the Old Bailey on charge of having forged a railroad certificate to the value of \$100,000, was arraigned today and pleaded guilty. Sentence was postponed to the next session of the court in order to allow an examination to be made as to the prisoner's sanity.

### INSURED FOR \$20,000,000.

DULUTH, Minn., Oct. 22.—The writing on an insurance policy for \$20,000,000, perhaps the greatest single item of insurance ever secured in the west and covering all the property of the Northern Pacific railroad, subject to fire, has been secured by a local agency.

### RAILWAY FREIGHT CHARGES.

TORONTO, Oct. 22.—At a joint meeting of the railway and transportation committee and freight rates committee of the board of trade yesterday, a resolution was passed asking the government to appoint a royal commission to make investigation into railway freight charges in Canada.

### A BONE OF CONTENTION.

Another Attempt to Secure the Independence of Crete.

COPENHAGEN, Oct. 22.—Negotiations have been re-opened between the four protecting powers with regard to the independence of Crete. King George of Greece had long conferences on the subject with the Czar and King Edward at Fredensburg, and the question is the principal object of his visit to Paris, from which city he will proceed to Vienna to discuss the matter. During his tour a year ago, Prince George of Greece, high commissioner of Crete) although unable to obtain any support of his proposal for the annexation of the island to Greece, secured the adhesion of the powers to the scheme of independence. But on his return to Crete he found that Russia was not ready to fulfill her promise. Now his father, who is regarded as a more astute diplomatist, has undertaken to pave the way, the later Prince George will personally confer with the four powers concerned.

### CANADIAN BRIEFS.

WINDSOR, Ont., Oct. 22.—Marie Dupont, aged five, daughter of B. Dupont, a prominent farmer of Sandwich East, was burned to death, as a result of playing with matches.

WINDSOR, Ont., Oct. 22.—William Woodward, aged 18, was killed by a train at Ruscomb station yesterday. He was the son of Section Foreman Ruscomb.

TORONTO, Oct. 22.—Charles Dunes and Alexander Campion, representing Societe L'Union Mentane of Paris, the largest steel manufacturing establishment in France, are here. The object of this visit to Canada is to effect a site for a distributing branch of their establishment.

VANCOUVER, B. C., Oct. 22.—News of a rich gold strike on Horsefly Creek, in Old Cariboo, in British Columbia, has been confirmed, and there is a wild stampede to that place similar to the first rush to the Klondike. Cariboo was a famous gold district thirty years ago, and it was believed the country was all worked out as far as that place was concerned.

### THE HUSSARS RETURN.

The 8th Hussars returned from Halifax last night, having left there at three o'clock yesterday morning. Instead of at the same hour on the previous afternoon, at which time they were ready to start. The men speak highly of the review held, but claim that there were many defects both in the I. C. R. arrangements and the mobilization details. On the road to Halifax a collision occurred in which one car on their train was damaged and a horse killed. By this accident the train was delayed. While in Halifax on Sunday the Hussars, as part of the Garrison Artillery attended divine service at St. George's church.

The officers and men were quartered in the Exhibition building, and as blankets were plentiful, they managed to keep warm, but the arrangements for feeding the men were poor.

### MT. ALLISON MAY COME.

Mt. Allison's football team will pass through the city tomorrow on the way to Fredericton. Grassie Archibald, of Truro, will accompany them and referee the games. The Y. M. C. A. club has received a further communication from the college team, stating that they will play here on Saturday, provided they get a sufficient guarantee, and that their team passes through the Fredericton games without being crippled. The local club has, considering the financial support the game receives here, made as good an offer as possible, and it is hoped that Mt. Allison will accept the terms. If they do, a good game may be expected, as the Y. M. C. A. will line up the strongest team of the season.

### WEDDING ANNIVERSARY.

The home of Mr. and Mrs. Hargrove, 38 Autumn street, was the scene of a very happy gathering last evening, when a large number of their friends called to celebrate the fiftieth anniversary of their wedding. There were songs, music and readings by those present during the evening. Refreshments were served and the happy party broke up about midnight. Mr. and Mrs. Hargrove were the recipients of many useful and handsome presents.

### PRaised THE GIRD FUSILIERS.

After the review the naval brigade paraded the streets with their bands, and made a most imposing scene. The Fusiliers, St. John, in command of Col. McLean, marched through the principal streets, presenting a splendid appearance, and with the excellent music by their fine band, came in for many compliments from the spectators.

### SOUTH AFRICA.

Kruger Holds Council of War at Safe Distance From Trouble.

NEW YORK, Oct. 22.—The Vienna correspondent of the London Times and the New York Times quotes the Post-er Lloyd, which says it learns from the Hague that Mr. Kruger, Dr. Leyds and Messrs. Wessels, Welmarans, and Fischer have held a council of war at Villa Caracassa to consider what answer is to be made by the Boers to the executions in South Africa.

There is said to be no doubt among the Boer leaders that diplomatic protestations are inadequate. All present at the meeting, except Mr. Kruger, says the report, advised immediate reprisals—that for every Boer prisoner executed a captured British officer be shot. Mr. Kruger opposed this plan on the ground that he did not wish to give the campaign the character of a war between savages, although it had already become a war of extermination.

CAPETOWN, Oct. 21.—The regulations of martial law which have just been published, provide that the ordinary law shall hold good as far as possible, with necessary restrictions regarding the movements of persons dealing in contraband, the possession of firearms and explosives, etc. Letters and telegrams are subject to censorship. The regulations are administered by the civil authorities.

### GUARDING THE PRESIDENT.

FARMINGTON, Conn., Oct. 22.—President Roosevelt arrived here this morning and is stopping at the residence of his sister, the wife of Commander W. B. Cowles, U. S. navy. Secret service men accompanied the presidential party from Washington, and two detectives arrived here from New York last night. They will remain in town until the president leaves. Public precautions were taken also by the Borough authorities. The deputy sheriff has sworn in 25 men as special deputies, who are scattered about the town as a patrol.

A reception to invited guests will be held this afternoon, followed by a reception for the 120 pupils of the Porter school for young ladies. The president is also invited to participate this afternoon in the planting of a memorial oak.

### MISS STONE.

LONDON, Oct. 22.—The idea that the capture of Miss Stone originated with the Macedonian committee is corroborated, according to the Vienna correspondent of the Daily Mail, by the fact that numerous Macedonians in Sofia have offered to mediate with the brigands.

LONDON, Oct. 22.—The rumor emanating from a Bulgarian source that Miss Stone is hidden in the village of Salonika is regarded as very improbable, says the Sofia correspondent of the Daily Telegraph. Chas. M. Dickenson, U. S. consul general at Constantinople is still firmly convinced of the complicity of the Macedonian committee.

In missionary circles the view is favored that when the ransom is paid the brigands shall also be granted amnesty and that all records of agreement with the band shall be cancelled.

### A PERTINENT ENQUIRY.

VIENNA, Oct. 22.—In the lower house of the reichsrath today Herr Stein, Pan-German, asked why the president of the house had departed from the custom in not paying a tribute to the late President McKinley, and whether it was thereby intended to establish the theory that there was a difference in the standing of the heads of state in a republic and in a monarchy. The president promised to make a reply at a subsequent sitting.

### MARINE MATTERS.

The North German Lloyd steamer "Aller", from Genoa, Naples and Gibraltar, is aground on the east side of the channel abreast of the west bank light ship in the lower bay. The tug "Crescent" reported that the "Aller" would come off at high tide, probably about noon.

The "Aller" floated at 10.25 a. m., and proceeded up the bay. The Hamburg-American Packet company has commenced a fortnightly service to Cuba.
