
LIBRARY, APPARATUS, MUSEUM, &c.

In the course of the last two or three years valuable additions have been made to the Library and to the Chemical and Physical Apparatus of the Science department.

The Library is kept regularly supplied with the leading Reviews, such as the Edinburgh, London Quarterly, Westminster, Contemporary, Nineteenth Century, Fortnightly, Princeton, Bibliotheca Sacra, etc., etc.

The attention of the friends of the College is earnestly directed to the needs of the Library, and to the importance of establishing some permanent fund to secure its steady increase. There is no way in which money can be spent to better advantage in securing the sound development of the College as an institution of learning. Gifts of books or of money will be thankfully received and acknowledged.

Contributions for Library and Museum have been received from the following, among others:—

Josiah Wood, M.P.; Dr. J. P. Reid; Dr. Honeyman; Dr. Stewart; the Cobden Club; the Nova Scotia Institute of Natural Science; Dr. McMurray; Rev. A. D. Morton; A. A. Stockton, D.C.L., M.P.P.; Rev. John Lathern, D.D.; Alex. Gibson, Esq.; the Superintendents of Education in New Brunswick and Nova Scotia; Royal Society of Canada; Geological Museum of Canada; Geological Department of Washington, U. S.
