# TUMOR IN THE STOMACH

## Completely Removed When She Took "Fruit-a-tives"

Newbury, Ont., April 4th, 1913.

"Some years ago, I was sick in bed, and thought I was going to die. I had a growth in my stomach, which the doctors said was a Tumor and they said that the only thing to do was to go to the hospital and have the tumor cut out. I dreaded an operation although both doctors said it was the only cure. I said I would die before being operated on.

At this time, my mother in Alvinston sent me some "Fruit-a-tives" with the happy result that they cured me. I have not been to see a doctor since and my health is first class.

I recommend "Fruit-a-tives" every time I get a chance and I will be glad to have you publish this leter as some other woman may now be a sufferer rom tfhe same trouble and "Fruit-a-tives" will cure her."

# NO SPACE LEFT AT EXHIBITION

## Many applications for exhibits refused — Fakirs' Row eliminated, but amusements will be many

All the available space for exhibitors at the St. John exhibition has been spoken for and booked. Manufacturers, business houses and farmers of the Maritime Provinces will be represented at the show and the exhibits will show the advances that have been made in the different branches of activities in the three provinces.

Process manufacturing of certain articles will be shown in detail and there will be a strong display of machinery in motion.

The agricultural department is receiving special attention this year. There will be an exhibit by the Dominion experimental farm system embracing the following departments: Animal husbandry, field husbandry, forage plans, cereal, botanical, horticultural, poultry, chemical and bees. This exhibit, valuable as it is educationally, is interesting as well to all classes of people whether farmers or professional men. This will be supplemented by special lectures delivered under the supervision of the provincial department of agriculture.

A child's welfare exhibit will be the new feature. It was such an exhibit as this that created such enthusiasm last winter in New York and Montreal.

## A Charter From The Public

IF publishers of daily newspapers were to cease issuing their papers during the summer months, saying—"It's too hot in July and August to publish papers, and anyway, people don't read papers in summer,"—what a cry of protest would go up all over the land!

The public would say to the publishers: "We must have the news and you must "give it to us. You are our servants "in this matter—our news gatherers "and scatterers. We are ready to pay "you for this service. You have no "right or liberty to take it upon your-"selves to cease publishing your pa-"pers at your pleasure or convenience." Think of it! The Daily Newspaper exists by the mandate of the people. It alone among all publications may not continue or cease at its pleasure, for it holds its charter from the people whose servant it is.

Then think of this:—

Have those other servants of the people—the merchants who supply them with their daily necessities—any right to be silent with respect to the news they have for those who depend on them? Has not the public a right to demand that the news of the stores shall be published along with other news of value and interest? We put it up to the people of this community and to the merchants of this city that the store news of this community is necessary news and should appear regularly in the public press at all seasons of the year. Think of this, you merchants of this city.

You can obtain helpful advice on advertising free of cost and without obligation by consulting the Business Department of The Standard.
