

# LOOKS FOR THE OVERTHROW OF HOHENZOLLERNS

UNLESS WAR ENDS THIS YEAR  
THERE WILL BE REVOLUTION  
IN GERMANY, SAYS MINISTER

Rev. Aloysius Daniels of Hewitt, Wis., Who Has Just Returned from Westphalia, Declares German People Starving and That the Death Rate Among Civilians is Frightfully Large — Says Feeling Strong Against Kaiser and Especially Against the Crown Prince.

## PRESIDENT WILSON ANATHEMATIZED THROUGHOUT THE GERMAN EMPIRE

Krupp Works Acquire Control of Wolff Bureau, Semi-Official German News Agency, and Are Organizing Subsidiary Advertising Agency — More Trouble Possibly Brewing in Hamburg — Strike Leader Arrested on Charge of Inciting Men to High Treason.

An Atlantic Port, Feb. 3.—Opinion that unless the war ends within 1918 there will be a revolution which will overthrow the Hohenzollerns in Germany was expressed by the Rev. Aloysius Daniels of Hewitt, Wis., upon his arrival here today from Germany by way of Switzerland.

"The people of Germany are starving," said Mr. Daniels, who for three years has been studying in Westphalia. "There are few left who are more than fifty years of age, all succumbing to lack of nutrition while the death rate among the children is frightful."

"President Wilson is anathematized throughout the empire but hardly worse than is the Emperor while what is said openly of the Crown Prince is not fit to repeat."

"I believe they will quell this incipient revolution but there will be another unless the war ends before next year and that one will be the end of the Hohenzollerns. The Germans are tragically short of all sorts of food."

**Krupps in Control.** The Food Outlook. London, Feb. 3.—The Krupp works have acquired control of the Wolff Bureau, the semi-official German news agency, an Exchange Telegraph despatch from Zurich says. They are also reported to have organized a subsidiary advertising agency with the purpose of obtaining control of all large advertising contracts which will be allotted, the despatch says, "in accordance with German interests."

**Resume at Hamburg.** Amsterdam, Feb. 3.—After more than half the shipyard workers at Hamburg had resumed work, the strikers committee there resolved to call the workmen out again Saturday, according to a copy of the Berlin Lokal Anzeiger of that day received here.

## DECISION OF WAR COUNCIL IS TO KEEP UP FIGHT

(Continued from page 1)  
The supreme war council was convened last Tuesday at Versailles, France, under the chairmanship of Georges Clemenceau, the French premier, and ended Saturday. It had been forecasted that the council would be an important one and that at it momentous decisions would be reached, both as regards the prosecution of the war and the possibilities of peace. The United States was represented in the council by General Tasker H. Bliss, chief of staff of the American army.

For Great Britain the representatives were Premier Lloyd George and Major-Gen. Sir Henry Hughes Wilson, sub-chief of the British general staff; for Italy, Premier Orlando, Foreign Minister Sonnino and General Cadorna, and for France, Foreign Minister Pichon, General Ferdinand Foch, chief of staff of the ministry of war, and General Maximo Weygand.

**Attack Americans.** The Germans apparently in earnest began a "strafing" of the American sector in Lorraine Saturday. Late in the afternoon they let down a barrage on the American line on a front of several kilometres, the heaviest in many days, but at last account General Pershing's men were answering them shot for shot.

The casualties among the Americans were slight when the report was sent, and their marksmanship had been so

## 224 MEN LOST ON A STEAMER

The Louvain, British Armed Boarding Craft, Torpedoed and Sunk in the Mediterranean.

London, Feb. 2.—The British armed boarding steamer Louvain, Lieut. Commander M. G. Easton, commanding, was torpedoed and sunk by a German submarine in the eastern Mediterranean on January 21. Seven officers and 217 men were lost.

This official announcement was made tonight.

**Airplane Bombed.** London, Feb. 3.—The Admiralty gave out the following today: "Naval aircraft bombed the Varsenare air-drome (Belgium) on Saturday morning. Fire was caused by a direct hit. An enemy machine engaged in photographing reconnaissance was attacked and destroyed. All our machines returned safely."

## COL. JONES DROPS DEAD IN VESTRY OF CATHEDRAL

Was Acting Secretary Under Military Service Act at Quebec—Death Due to Apoplexy.

Quebec, Feb. 3.—Col. G. E. A. Jones, acting secretary under the military service act at Quebec, dropped dead here tonight in the vestry of the Anglican Cathedral, while in the act of putting on his surplice preparatory to entering the choir. The deceased, who was an advocate by profession, was a graduate of Bishop's College School and Laval University. He is survived by his wife, two daughters, Mrs. Melhorn, wife of Lieut. Col. Melhorn, of Montreal; Miss Jones, of Quebec, and one son, Mervin Jones, who is apparently in unusual good health today and his death is said to have been due to apoplexy. He was fifty-eight years of age.

## FURTHER SLIGHT ADVANCE MADE IN PALESTINE

British Push Forward Line Slightly in Vicinity of Amutieh, Twelve Miles North of Jerusalem.

London, Feb. 3.—Further slight advances are reported by General Allenby in the campaign around Jerusalem, according to an official statement tonight. The text of the report says: "During Wednesday night our line advanced slightly in the vicinity of Amutieh, twelve miles north of Jerusalem. On Saturday night our patrols were active between Amutieh and Sheikh Abdulla, a mile northeast of Amutieh, where enemy attempts to penetrate our lines were repulsed."

Numbers returned to their duties, the latest reports are to the effect that the dissatisfaction was so grave that they again were to have been called out Saturday. The lack of information from German sources, however, leaves no verification whether or not the men threw down their tools.

The social unrest now has spread to Trieste, Austria's principal seaport on the Adriatic Sea. Here also a strike among the shipyard and other workers was declared, the main point of insistence by the men, as in Germany, being peace and better food. On being referred to the premier's recent speech, in which Austria's desire of a cessation was desired, the strikers resumed work.

**The Finnish Revolt.** In Finland the White Guard, which is backing the new government, is still reported to be making progress in putting down the disaffection among the revolutionaries headed by the Red Guard, although in Helsinki, a serious situation continues to exist. Here the Red Guard, which controls the capital, aided by Russians, are reported to be carrying out a reign of terror, murdering and plundering.

Apparently the peace conference at Brest-Litovsk has not as yet again approached the point at which the Russians and the Teutonic allies were reported to have reached an impasse at the various sessions.

Last accounts of the deliberations show that the delegates were engaged mainly in a discussion of the status of the Ukrainian and Finnish representatives, concerning whose right to participation in the peace parleys some doubt exists among the Russians and spokesmen of the Central Powers.

## ITALIAN ARMY HAS NOVEL AND SPECTACULAR METHOD OF CLIMBING MOUNTAINS

An Almost Indispensable Adjunct of Mountain Fighting and Which French Now Use is the "Teleferico," or Cable Car System, or Aerial Tramway Which in Half an Hour Carries Food and Ammunition, Even Men, to Heights That Would Require Hours on Foot or by Vehicle.

Danger is Small—At Certain Times Lines Highest Up Cannot Be Operated by Day Because They Are in View of the Austrians and Make Excellent Targets, But at This Season They Are Hidden by Snow and Fog—Many Mules and Dogs in Use.

With the French Armies, Italy, Dec. 19.—Correspondence of The Associated Press.—The French troops who have come to Italy have brought much, gained during their three years and a half of war, from which the Italians have profited and are profiting, they themselves are busily learning new ways of fighting totally foreign to the modes of warfare in France, and made necessary by the altered conditions here.

One of the most spectacular, interesting and important of these is the "Teleferico," which the Italians have made an almost indispensable adjunct of their mountain fighting and which the French now use on the mountainous part of the sector they have taken over.

The "Teleferico" is an aerial tramway or transportation line which, built of slender cables supported by steel towers, spans valleys and in half an hour carries food and ammunition, even men, to heights that would require hours on foot or by vehicle.

"Teleferico" is thorough and efficient on Mount Pambio, just to the west of Anserio, where, at a height of more than 7,000 feet, Italian Alpine and other troops have held the Austrians in check since May, 1915. In this defense the wonderful aerial tram has played its silent but important part.

**Unique Type of Warfare.** The Italian military authorities who a week earlier had permitted the correspondents accredited to the French armies to visit all the naval defenses which protect Venice and to see in detail the unique type of warfare that goes on among the valleys and marshes between the city and the lower Piave River, granted similar permission to The Associated Press.

It was then that they saw the foot-hills that lead up to imposing Mount Pambio, the broad, stone-bedded road betwixt to rise perilously, curving each thirty or forty feet with a "hairpin" curve. Soon the cars of the correspondents refused to travel upward further over the icy roads, and were abandoned.

Many of the lines, those that run upwards at the steepest angles, are not used by passengers but carry only ammunition and supplies. At certain times of the year the lines highest

## This Will Interest Stomach Sufferers

Says Indigestion Comes from an Excess of Hydrochloric Acid.

A well-known authority states that stomach trouble and indigestion is nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acid fluids and gas, which inflate the stomach like a toy balloon. We then get the heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, waterbrash, or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescent, and furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making matter, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.

## WILL PROTECT ART TREASURE

Parisians Take Steps to Save Valuable Works from Destruction in Hun Raids.

Paris, Feb. 3.—Measures have been taken by the authorities to protect the art treasures of Paris from air raids. The stained glass windows of the Sainte Chapelle have been moved to vaults. The sculpture on the Arc de Triomphe has been covered with sandbags. The decorations by Carpeaux illustrating the dance, in front of the opera and other art works, have been protected similarly.

## FIRE IN TRINITY CHURCH, QUEBEC

Blaze Starts During Morning Service, Probably from an Overheated Furnace.

Quebec, Feb. 3.—Fire broke out here during the service this morning in the basement of Trinity church on St. Stanislas street. The fire is thought to have been caused by an overheated furnace. The basement of the building was badly gutted while the upper portion of the church suffered from smoke and water. While the building is being repaired services will be held in the Anglican Cathedral, Church Hall.

## ACCIDENTAL DEATH, IN WELSH'S CASE

Coroner's Jury Makes Report on Death of Native of Newcastle.

Montreal, Feb. 3.—"Accidental death" was the verdict of a coroner's jury Saturday in connection with the death of Private Alfred Welsh of A. Company, 1st Depot Battalion, on electric light wires just outside of the Guy street barracks last Friday night. In trying to get to the street from the roof of the barracks he caught in the wires, which electrocuted him. Welsh was a native of Newcastle.
