Berlin, Sept. 19.—The Independent Socialist organ, the Freiheit, energically combats the semi-official

tempt at whitewashing General von der Goltz. It cites the Left Labor party's organ as stating that a plot for a military revolt at Mitau was

drawn up in July by German and Russian reactionaries and the Baltic bourgeois, the aim being to establish a coalition with Koltchak, and preserve the privileges of the big landowners. The paper alleges that General von d

Goltz went to Tilsit to procure the necessary means, and that Count Kautz's division of 28,000 men draws pay from General von der Goltz. The Freiheit further reports that Count Kautz's division refuse to supply food to the Germans are fined 6000 marks; that almost all the Left command

in the districts of Dobiet and Baus have been removed from their commands and that a number of Lett soldiers have been shot.

ceding in the East, the Monarchists according to the Freiheit, are struggling to get the army at home in the lands. Men suspected of Republican views are persecuted and efforts of an increasing magnitude are made to transform the army into a force under the leadership of the Monarchists and inspired by a reactionary spirit. The paper alleges that H

Nowke is completely in the hands of the reactionaries, and it tries to show that the present Government is no longer in a position to do anything to combat the counter-revolution.

The Vorwarts, as a matter of fact, has also recently drawn attention

the agitation in the army and among the public security forces. It has published several documents throwing a vivid light on the machinations of reactionary officers, which are producing an increasing estrangement of the troops from the Government.—Pravda Association.

"Everything depends on how organized labor uses the weapon of industrial unity which it has been able to forge."

This was the burden of Mr. J. H. Clynes' speech at Carlisle last night, the eve of the great Trade Union Congress.

"Labor," continued Mr. Clynes, "is in danger of handing over completely to its opponents all the strategy of politics, and by threatening a wrong method to attain its ends it is incurring the risk of alienating the public approval and support which it has secured before Labor can attain its rightful place of parliamentary representation."

"In the past year trade union force have increased by nearly a million. The parliamentary party was nearly doubled at the last election. The election contests prove that Labour no longer viewed as a freakish
