overcast weather Thursday.

## AROUND THE CITY

**NEW CHAIRMAN**  
A. M. Rowan succeeds the late Geo. A. Knodell as chairman of the Municipal Home Board.

**MEETING POSTPONED.**  
The regular meeting of the associated Charities has been postponed from yesterday afternoon until Wednesday next.

**HAS PURCHASED PROPERTY**  
J. H. Poots & Son, Nelson street, have bought from Hugh Lawrence, St. George, his warehouse property on Nelson street. Report places the price at about \$9,000.

**APPROVES CITY'S ACTION.**  
L. R. Ross, president of the New Brunswick Power Co., yesterday expressed his approval of the action of the city in pressing for the marking of all poles in the city.

**MOVE TO MONTREAL**  
The staff of the C. G. M. located in this city during the shipping season, expect to finish their work here in about ten days. They will be transferred to Montreal for the summer.

**ACCEPTS APPOINTMENT**  
Rev. H. B. S. Stoddard of Chatham, has accepted the position of Field Secretary of Sunday Schools and Young People's Societies for the Maritime Provinces and Newfoundland. He will take over his new duties on July 1.

## Marion Wilson In Critical Condition

Run Over by Automobile Receiving Injuries from Which Not Expected to Recover.

Marion Wilson, the nine year old child of Mr. and Mrs. Robert Wilson, residing at 6 Sydney Street, lies at the point of death in the St. John Public Hospital, as the result of injuries received when the child was knocked down and run over by an auto truck yesterday afternoon.

The accident happened in front of the old burying ground. It is said the child ran out on to the street from behind a team as the truck came along. She was hit and knocked down by the fender, the front and rear wheels of one side of the truck passing over the child. She sustained a broken leg, injuries to the head and internal injuries.

Reports from the hospital at an early hour this morning said there was no hope for the little girl's recovery.

**It's wonderful the response we get when we advertise that Navy Blue Suing Serge at \$2.45 yard.**

This is the third shipment we have got in, not so large this time. Just one good sized piece of each, but the quality is here. And when you stop to think that this \$2.45 represents serge that was sold before at \$4.25 the reason so many send mail orders in is not far to seek.

All pure wool, 62 inches wide. Bot any weave and indigo dye, beautifully soft to the touch and generous weight, simply great for suits, dresses and children's wear. Comes in two qualities, reg. \$4.25 for \$2.45 yd and regular \$5.75 for \$2.75 yd.

Send in your order today, before it's all gone, when you see it you'll be glad you did. F. A. Dykeman Co. The Store for Bargains.

**SOLIS TYPEWRITER CO., LTD.**  
F. O. Solis is in town and has taken over the office at the corner of Hill and Union streets, formerly occupied by the St. John Typewriter Co., Ltd., and will continue the agency for the L. C. Smith and Corona Typewriters, Multigraph and Addressograph machines, also supplies. The new firm operating under the name of the Solis Typewriter Co., Ltd., will also extend service to those having typewriters. Mr. C. F. Wetmore will take over the management for the Province of New Brunswick.

**UNTIL FURTHER NOTICE**  
Steamer *Maestri* will leave for Fredericton at 9 a.m. on Saturday and Tuesday; Thursday for Washville at 10 a.m.

## Matters Before Anglican Synod

Important Resolutions Passed and Much Business Transacted Yesterday.

A large amount of business was transacted at the two sessions of the Anglican Synod yesterday. At one o'clock the delegates were guests of St. John Church of England members to lunch at Bond's.

**Morning Session.**  
F. A. Dykeman made an appeal on behalf of the Red Cross peace program and asked the aid of the Anglicans to make this effort a success. They were out for a membership of 40,000 and the members of the synod were urged to carry home the message and co-operate to bring this about.

Rev. J. V. Young read the report of the Social Service Council and moved its adoption. Rev. Dr. Ross spoke on behalf of the Maritime Home for Girls and that at Truro. After considerable discussion it was decided to participate in the work and the following resolutions adopted:

Canon R. A. Armstrong moved and Canon Sism of Moncton seconded the following motion: "Resolved, that the diocese of Fredericton accept its share in the establishment and conducting of a maritime home for women at Moncton." The motion was carried.

With regard to the home at Truro the following motion was presented by Jeffrey Stead of Chatham and seconded by Mr. Hoyt: "Resolved, that the diocese be authorized to advance to the Social Service Council of this diocese, from the Forward Movement money, a sum not exceeding \$1,000 to meet the part indebtedness of the synod to the Maritime Home for Girls at Truro; and, further, that at next session the Social Service Council be authorized to add to the allotment for Social Service Council work a sum sufficient to meet the synod's share of ordinary maintenance from October 20, 1920, and for the discharge of the loan." This motion was also carried.

It was moved and seconded that the bishop be authorized to appoint representatives to the board of governors of Maritime Home for Women at Moncton.

Rev. W. Tomlin of Shediac, Rev. A. W. Teed of Mt. Whately and H. Usher Miller of St. John were appointed to the board of governors of the Maritime Home for Women.

## Afternoon Session

At the afternoon session Bishop Richardson presided. H. Usher Miller read a report of the nominating committee. A discussion ensued upon the committee on Theological Study.

Rev. E. Hallstone thought that a smaller board would be preferable. It was passed on motion of Rev. J. LeRoy that the committee shall be reduced from twenty to ten including the Bishop as chairman.

The report on Governors of King's College Windsor will have to be dealt with later as it may be necessary to elect a larger body of governors.

Rev. H. A. Cody suggested that the committee on the Preservation of Church Records be re-appointed. Records are kept in a strong room at Fredericton.

Rev. R. T. McKim spoke of value of records of marriages, deaths and baptisms, which are frequently destroyed by fires. He recommended a duplicate system, copies to be sent to Fredericton.

The Bishop stated that legal advice had been given as to subject which pronounced that the clergy or church officers are legal custodians of such records and have no right to give them out. Dr. W. S. Carter advocated more care in the preservation of ancient and present day records. The matter was referred to the executive with power to act. The name of James S. Vroom of St. Stephen was suggested as a valuable member for the committee. Rev. Mr. Hallstone recommended those present that inspection of records is part of an archdeacon's duty.

Nominations for delegates to the General Synod to be held at Hamilton, Ont., in October and for the Provincial Synod were called for and will be balloted on today.

George Raymond moved and seconded that Dr. J. Roy Campbell and W. M. Jarvis be unable to be present. Dr. M. G. Teed in seconding asked that copies of this resolution be sent to Dr. Campbell and that W. M. Jarvis be sincerely thanked for his valuable services in connection with the Synod for many years.

## Sections of Bishop's Charge

Sections of the Bishop's charge were then taken up, the section referring to Missions having been reached. Rev. Canon Smithers told of several aided missions which have greatly increased their contributions. Parishes are giving as never before. Individuals are contributing splendidly for the church. Thanks were due Rev. F. W. Bacon and Mr. Hart for assistance. Lay readers have filled vacant missions and good contributions have been made for their services.

F. D. Stannell of Temperance Vale told of difficulties of some parishes. Some objections had been made to special collections and H. E. Clark said that he felt all rural parishes do not understand the missioners' apportionment. A committee might be appointed to each parish to explain the call.

The Bishop stated that there was a deficit of \$4,000 on the Mission Funds. M. G. Teed moved a resolution that lay delegates be a committee with power to take such steps as will lead to a canvas for funds for Diocesan Missions. In his experience city people did give more generously. According to the apportionment St. John and Fredericton pay one-half of the whole.

Mr. Simpson of Campbellton in a humorous kindly speech told of conditions in his parish, describing how United States citizens had stolen two clergymen from them.

Arthur Coates pointed out the wisdom of making the collection early in the church year and Ven. Archdeacon Newham stated that Christ Church St. Stephen has made up its apportionment. Rev. J. Mason of Pictou told of a successful collection by the envelope system. People are proud that they belong to the Church.

## Returns To St. John After Sixteen Years

W. Orton Tewson Talks Interestingly on Present Situation in the Old Country.

After sixteen years away from the city, W. Orton Tewson, of London, Eng., is spending a few days in St. John. Mr. Tewson, who is a newspaperman, arrived on the *Furness*, with liner *Ariane* yesterday, accompanied by Mrs. Tewson. They are en route for Philadelphia and will go on to their destination when the *Ariane* sails on Saturday for that port.

The *Ariane* had a splendid trip, making the passage from London in exactly fourteen days. Barring one or two days' rough weather and some fog, the voyage was without incident.

## Was St. John Reporter

Mr. Tewson spent six months in St. John in 1905 as a reporter on the old "Star." Leaving St. John for New York he was for several years on the staff of the "New York Times," but not sent by that paper in 1909 to England as London correspondent. In 1912 Mr. Tewson was appointed European manager for the *Times* and he remained there until 1917, when he became associated with Lord Beaverbrook in the work of the British Ministry of Information. In this capacity he visited Canada in 1917 and assisted in the formation of the Canadian Ministry of Food. For the last year of the war Mr. Tewson was stationed in Paris as the British representative of the inter-Allied Wireless News Bureau.

## Old Country Conditions

"Black as the situation in the Old Country may seem on the surface," said Mr. Tewson last night, "I am certain the dawn is in sight. The great body of middle class Englishmen and women are solid on the two great disturbing factors of today, labor and Ireland. The present miners' strike and the threat of similar action by the Triple Alliance in England—for that is what it is—should be put into effect, will be the signal for a fight, which many people think must come and which will sound the death knell of Bolshevism in England—for that is what the struggle is about."

"Bolshevism has not got a dog's chance in the Old Country, and any government that attempted to negotiate or compromise with the elements that are really at the back of the present industrial trouble, would not last a week. Thank God, Mr. Lloyd George as he has well proved, is not made of that kind of stuff, and he has almost the entire country with him—that is, the great middle class—in his firm determination to stand no nonsense. But there is no doubt the 'hot-heads' will go the limit to gain their nefarious ends, and I look for big news from London during the next few weeks, unless the so-called labor leaders read and heed the writing on the wall."

## England Canada "Mad"

Mr. Tewson says that England is Canada "mad" since the war. Everywhere one hears of preparations for whole families pulling up stakes and trying their luck here. He only wants the word to go out that Canada has opened her doors and the stream will begin. A feature is that many of the intending emigrants come from the better classes. The first propaganda for Canada, said Mr. Tewson, was the great work and splendid record of the Canadians in the war.

Of England and are giving individually. Representative from Church of the Good Shepherd, Patrillo, stated that within six years all giving has doubled.

F. J. LeRoy told of successful giving in St. George, through appeal of circular letters and a personal collection. Preached that the more you give to Missions the more you get for your own parish. Thankful for splendidly increased contributions. Mr. Anderson of Bathurst, told of envelope system which had had successful results. Parish generally going ahead. The Bishop's Charge was further approved of section by section.

It was announced that a celebration of the Holy Communion this morning at 7.30 at the Mission of St. John Baptist which the clergy are invited to will take place. Breakfast will be served later.

## Marriage Section

The section on Marriage brought up discussion. The Bishop stated that this Province is far behind the times in regard to public notice being given. Rev. J. R. Belyea of Andover gave instances of the uselessness of the license system to prevent undesirable marriages. The clause was referred to the standing committee to take action to memorialize the government.

## King's College

Rev. E. B. Spurr, treasurer of King's College addressed the Synod upon King's College Windsor the institution of the Church in the Maritime Provinces. He pointed out need for increased endowment funds even before the fire occurred which made it imperative. It is hampered at every turn by lack of funds. In year of adversity there is the largest body of students in its history, loyal to the college in spite of all drawbacks, of discomforts and loss of equipment. For the life of the church we must have a training college of our own in our midst and that must be supported. We need men sufficient to represent us not only in our own diocese but to send out throughout the world to represent Canada.

Proud of magnificent body of fourteen students from this diocese of Fredericton. One million dollars is needed. The diocese of Fredericton will be asked for \$400,000. Laid gave a Forward Movement and it clergy do not think it is certain that all congregations will go amazingly beyond the objective. A general canvas will be carried out Jan 6th to 11th.

Rev. R. Taylor Motion stated report on Sunday Schools. Rev. J. H. Holmes read report on Teachers' Training and a Theological Study. Rev. C. W. Nichols reported on the Home Department. The report to registrar and report of the secretary of seal of the Synod were taken as read.

## Education As Factor in National Life

Brilliant Address Delivered by Rev. Canon Cody to Members of Canadian Club.

The large number of members of the Canadian Club and their friends who lunched at Bond's last evening, were favored with an eloquent address on "Education as a Factor in National Life," by the Rev. Canon H. J. Cody, D. D., LL. D., formerly Minister of Education for Ontario.

The Canon's address was particularly interesting in view of the fact that in the course of his remarks, he dwelt on two subjects which have recently been considerably in the public eye, namely the kindergarten in the school and state aid for higher education in the universities.

In introducing the guest of the evening, the club's president, M. Beidling, congratulated him on his election to the archbishopric of Melbourne, Australia, that had been announced in the evening papers.

After thanking the president for his kind introduction Canon Cody said he felt that the province of New Brunswick was a particularly good center in which to speak of Education, in view of the number of educationalists it had given to the Dominion at large. He had in view in particular, Sir George Parkin, and President Murray of the University of Saskatchewan.

## Factor in National Life

The speaker said Education must play as a factor in national life, he said, had been recognized in all schemes for post-war reconstruction. In England the fact had been amply recognized, was borne out by the largely increased grants for education. The same was true in the United States, and in Canada, where in every province larger increases were being voted in all expenditures for education. In Ontario the increase totalled \$1,000,000, and the end was not yet.

All nations had learned the power of Education as a factor in public life in the lessons taught by the war, when the Kultur of the Huns had stood out as an example of the pernicious influence to which Education might be adopted, in the lowering of the nation's ideals. Japan's rise in fifty years from a feudal organization to a world power was another example of the influence of Education.

In Canada, as in the United States, the welding into a nation of the emigrants of Europe might be secured, and is being secured through Education. In the Canadian West, where the need was particularly great, the work was being carried into with enthusiasm by the teachers there.

## Germany's Greediness

Germany's greediness lay in the fact that when conquered by Napoleon Bonaparte he allowed them to control their schools. Though not a naturally rich country she became one of the most wealthy nations of the world, because she applied Education to every branch of commerce and industry.

Technical schools dotted the land, and the universities took up the work where the secondary schools left off. In Britain today, the plan is being adopted and technical education has been introduced into the secondary schools.

"Education," said Canon Cody, "is not a gift or charity, it is the soundest investment any community or nation can make. At the present time a demand spread all over the world for a greater distribution of wealth, a more equal share of leisure for all, a greater share by labor in the management and directing of industry and of the country."

## More Production Needed

More production meant more wealth. The restriction of production therefore was opposed to the best interests of labor. Science applied to industry alone would enable leisure to become a thing of the past. If labor was to share in industrial and national government it must do so through an educational system.

In Canada the educational system consisted of elementary and secondary schools, and universities, each province being provided with at least one state university to cap the general educational system of the province.

On the efficiency of the university which supplies the most teachers, will determine the efficiency of the secondary schools, and it is the secondary schools who supply the teachers for the primary schools. So in this way the three divisions are inter-dependent.

The success of the educational system depended on its aim, its organization, and its attendance. Its aim should be to develop the mind of the child for life and service, not merely to develop the brain and body. If the system fails in teaching the boy and girl to live well and wisely, it has failed in its purpose.

As to the organization, the efficiency of the building was a factor, the curriculum another, but both were dwarfed in comparison with the teacher. The teacher made the school, therefore the teacher's dignity, status, and salary must be commensurate with the service given to the country.

## Elementary Schools

In the elementary schools of Ontario attendance was made compulsory as it was felt that Education was so essential to the state that the children must not be allowed to grow up in ignorance, nor be allowed to become recruits to the army of child labor.

The speaker said he would not favor the restricting of the curriculum of the elementary schools of the country. He would reserve that, for the secondary schools. In his own province the kindergarten had been made an essential part of the school system, although it had not been made compulsory, and the nature it should assume was left in the hands of the local boards. There were kindergartens in most of the cities, though more closely related with the primary departments than most kindergartens elsewhere.

In view of the fact that but ten per cent of those attending the primary

**A Brush or Broom**  
Ask for **SIMMS**

You know the good old substantial policy of the Simms concern—Best in Quality, Best in Workmanship; Best in Finish; Perfect Satisfaction to the User; BEST VALUE DOLLAR FOR DOLLAR in each grade and class of Simms product.
