

MAHATMA GANDHI'S THREAT REGARDED MOST SERIOUS ONE

Leader of the Non-Cooperators Declares Intention of Promoting Civil Disobedience When Opportunity Presents Itself.

Allahabad, Jan. 31.—Now that the All India Congress Committee has passed its resolution of non-violence, the British Government but of all enlightened people in India. The same conditions are made applicable to districts where the programme is attempted to be put into force.

A further important qualification was that no resisters would be supported out of public funds, but that they must maintain themselves by working, hand spinning and hand weaving. It has been proved on the authority of Mr. Gandhi himself that after a lengthy period of probation and working 14 or 15 hours a day, a man might earn three or four annas a day, or about eight rupees a month, this being the wages which coolies and sweepers and the lower ranks of labor at present are receiving.

Can one see ranks of the army and the civil service, the members of which are generally looked up to in their little villages, being emptied to join in effect the lowest paid ranks of labor, where the work is intrinsically hard instead of being comparatively easy and where there are no pensions and as far as one can tell no prospect. For Lankashire and Japan will always beat the coarse homespun or khaddar. At Delhi Mr. Gandhi admitted that the progress toward swaraj had been very disappointing during 1921, and said that the Congress had not authorized all its members to go to the barracks to persuade the soldiers to come out because if they were to do so, Congress would be quite unable to provide for them. A motion in favor of sending Congress representatives to foreign states as the representatives of the Indian people was rejected through the influence of Mr. Gandhi as being premature.

In a long speech he emphasized the seriousness of the occasion and declared that there must be no turning back. The resolution was certainly more advanced than that passed by the emergency meeting of the Congress at Bombay some time ago. Mr. Gandhi declared that he intended, in his personal capacity, to commence civil disobedience at Gujarat, after the arrival of the Prince of Wales. It will be interesting to see what form his continuity will take, if it will turn out to be some trifle to force the government to arrest him and perhaps to make a martyr of him. This is certainly the message flashed from all parts of the country.

Excited newspaper correspondents, with the rules of correspondence, schools of journalism before them, made vivid word pictures of a night quake in Los Angeles and all Southern California. In checking up, however, it developed that the seismographs had recorded no earth tremors having that entire excitement was caused by big gun salutes from the California and sister dreadnaughts resisting imaginary attack by an imaginary foe on Los Angeles Harbor.

The initial performance of the California dreadnaughts was a masterpiece of the kind. The result was that a deep rumble from the ocean penetrated miles inland, rattled windows and gave a high class imitation of a gentle earthquake.

SEES JOKE AS HER SOUL MATE HANGS FROM POST

Former Brooklyn Woman Watches Companion Slowly, But Surely Strangle.

Philadelphia, Jan. 30.—Leo Sweeney, a young landscape gardener, committed suicide early today in a room in West Philadelphia, according to the police, by hanging himself with a belt to a bedpost while Mrs. May Kraus, formerly of Brooklyn, N. Y., sat in a rocking chair and watched, believing it a joke. Sweeney was married and had two children.

Twice before Sweeney had shamed death, Mrs. Kraus was reported to have told the authorities, and first time she thought his toes were touching the floor and that he was in no danger of choking. Finally, becoming alarmed, she ran to his side, saw he was strangling and cut him down. He was dead when the police arrived.

Detectives said Mrs. Kraus, a comely young woman, told them she had left her husband in Brooklyn, to help Sweeney after the landscape gardener had shaken Kraus's faith in her.

"Sweeney said he had told my husband, George Kraus, tales about men so that I would be driven away," Mrs. Kraus was quoted by the police as having said. "He said he did it because he loved me and wanted me for himself. I knew he was married and had two children, but I let him persuade me."

"Sweeney had often joked about death with me. I got used to his tricks after a time. I thought today he was trying to frighten me again."

"I turned my back on him, thinking he would hold the belt strap and keep the noose from choking. But when I turned around I saw his arms were at his side and his body was stiffening. I tried to release him, but I could not untangle the belt. When I finally released him he was dead."

Mrs. Kraus was held without bail as a material witness pending the coroner's inquest.

California Jarr'd by Guns of U. S. Pacific Dreadnaught—Thought It An Earthquake.

Los Angeles, Calif., Jan. 31.—"Please tell us when you are going to about the message flashed from all parts of the country," said a Southern California newspaper editor.

Uncle Sam's Pacific Fleet of dreadnaughts, the S. O. S. from the California coast, was sent out yesterday to inaugurate the initial practice of the dreadnaught California, recently put into commission as the flagship of the Pacific Fleet.

The mighty guns of the California equal 750,000 musket power, so when they are all fired, it makes a roar equal to four-fifths of the shooting noise of the Kaiser's standing army at the time the world war began. It so happened when the California guns cut loose the first time with a few terrific broadsides, there were low hanging clouds over Los Angeles and vicinity. The result was that a deep rumble from the ocean penetrated miles inland, rattled windows and gave a high class imitation of a gentle earthquake.

Appetite Good, Gained 20 lbs. Could Not Feel Better

From a nervous wreck this man was restored to health, strength and happiness.

He tells his own story in this letter.

Mr. Ralph A. Roberts, Lovers, Sask., writes:

"In 1917 I had lost all appetite, failed 25 pounds in weight, became very nervous and shaky and in fact gave up all hope of recovery. For some time I had suffered from constipation, which kept getting worse, until I was fast becoming a total wreck. Doctors and their pills were ending me to my grave at the age of 39."

"Then I read about people being restored by Dr. Chase's Kidney-Liver Pills, and after three months' use of Dr. Chase's Kidney-Liver Pills I found that my bowels were restored to normal movement each day and the constipation was no more. I had a good appetite, had gained 20 pounds and could not feel better. I shall always be grateful for these benefits."

Lawrence, Mass., Jan. 31.—Edna Gilverman, 18, was attacked in her bedroom in Bradford place this forenoon by a man alleged to have been Sam Baker, 23, and is at the General Hospital suffering from severe acid burns about the face and head.

After throwing the acid on the girl, Baker is alleged to have turned on the gas, then to have gone to his own room in a house nearby where he swallowed some of the acid and earned on the gas. Bizarre Displays In Salons Get On Nerves of Parisians

Paris, Jan. 31.—The thirty-third Salon des Independents opened its doors yesterday at the Grand Palais and as it is the first of this year's art salons it has been thoroughly commiserated by critics and generally condemned as "mediocre," and the term mediocre in reference to the Independents is the most understating comment that could be made.

The Salon is a bizarre and startling collection of about 4,000 canvases, probably four or five which are recognizable as objects of art, while the rest testify to the poverty of ideas that attempt to present something new or escape from what has already been done.

The Independents, which include all dissenters from normal art and sponsors of the modern schools in all their violent varieties, appear to be getting on the nerves of Paris.

FIFTEEN BOILS ON NECK AT ONE TIME

Any one who has suffered from boils can sympathize with poor old Joe.

There was no Barlock Blood Bitters in those days so Joe had to endure the misery of boils.

Boils are simply eruptions of the blood and just when you get rid of one, another seems ready to take its place and prolong your misery.

All the poultices and ointments you may do will not stop more coming. What you have to do is take Barlock Blood Bitters.

and the blood will be cleansed of all its impurities, and then every boil will disappear.

Mr. Roy McBrain, High Bank, P. E. I., writes: "I was troubled with boils for some time, and had as many as fifteen on my neck at once. After taking one bottle of Barlock Blood Bitters they commenced to get better, and after I had taken two bottles I was relieved of them and felt much better. I think B. B. B. is a grand blood medicine, and can recommend it highly."

For the past 45 years B. B. B. has been manufactured only by The T. McBrain Co., Limited, Toronto, Ont.
