HALIFAX GARRISON BEATEN

By the Toronto Pair in the Fastest Possible Manner—Sailors Help to Extinguish a Fire—Winners of Horse Races.

SYDNEY, C. B., July 15.—Sydney is now more than ever a hotbed of excitement. The day opened cloudy with light showers, but the water was smoother than it has been yet this week. A large crowd of miners came in on a special train.

This morning blue jackets and marines from British ships landed at Victoria park with an ambulance and a light corps, and gave a grand display of arms and maneuvers before the town, headed by the flagship's band.

The big double scull race, which was won by the Toronto pair to the great surprise of the Halifax sports, who were sure either the Lynchs or Brennans would win, was held at 10 o'clock.

At 5 o'clock the water was rough with a southeast wind blowing across the course, but the referee decided, after going over the course, to start the struggle at 6 o'clock.

Accordingly the Toronto pair, the former rowing stroke, were first out at 6:05 and Brennans were first out at 6:15 and the Sydney Lynches were next to start. The Lynches and Darnan next to the Brennans' outside.

At exactly quarter past six Referee Ross had the starting gun fired and the three pairs went away.

Darnan and Aylward started with thirty-seven strokes; Brennans doing thirty-four and Lynchs thirty-eight. The course slants off from the shore at thirty-four and Lynchs thirty-eight.

The course slants off from the shore at thirty-four and Lynchs thirty-eight. The course slants off from the shore at thirty-four and Lynchs thirty-eight.

All kept pretty well over to the shore opposite the town. A mile from the start the Lynchs were rowing 36 and Darnan 33, while the Brennans seemed to be holding their own well with their

28 stroke. When they settled to their slow stroke it varied but little, while the other two pairs seemed to jump in and then slacken. At 10 mid, 20 seconds, Darnan and Aylward struck the turn and they were around and straightened away for home, when the Brennans and Lynchs stroked to the turn. It was the loss of a cent as to which got there first. Darnan and Aylward went away for home with 28 strokes, while the Brennans occasionally, while the Lynchs were doing 33 and 35. The Brennans quickened to 30 when leaving the turn, but they dropped back into their slower and more powerful stroke again after getting well straightened away.

As the Lynchs turned Aylward stroked over to their side of the course, and gave them their backwash.

After this it was a procession so far as the Toronto men and the Lynchs were concerned, but the Brennans were well in the running for second place and with their slow stroke they were keeping pretty even with the Lynchs.

Darnan and Aylward won in 19:25 with a length and a half to spare. The time was 11:49. The Brennans were rowing like giants. They came to the line with a rush and the finish was so close that the referee had to count the finish judges before deciding who was entitled to second place, but the Lynchs split had done the business and the judge's decision was kept by a few feet. They finished about eight seconds behind the winners.

Senior Bro. won the double scull pleasure boat race with Garde and Weston second and Heffer and Patterson a close third. The race was straightaway.

D. Campbell's store and dwelling were badly gutted by fire and water this afternoon. The fire was all in the upper part of the building, and the upper part of the main floor, but the house of the men were seriously injured.

The house was not burnt, but the roof was badly damaged.

A crowd of sailors from the British warships rendered assistance. Tonight there is a pyrotechnic display at Victoria Park, and the warships are illuminated and working searchlights.

Four thousand eight hundred people were in the mines today and watched the sports. The town was crowded but quiet, and there was little noise from the mines and the professional single take place tomorrow morning.

At the trotting races today in the 2:25 class Minnie took first money. Morning was second, Lester third. Best time, 2:29.

In the 2:40 class Dolly King took first, Maudie second, and Fawn third. Best time, 2:52.

Saturday there will be a free-for-all, 2:35 and three mile class race.

Horse Stolen at Sussex.

SUSSEX, N. B., July 11.—A horse and wagon was stolen last night from under the horse sheds, back of W. B. McKay & Co.'s store, by some person or persons at present unknown. The rig which was the property of Albert Dign, of Ward's Creek, had been brought to Sussex in the early part of the evening by some members of his family who wished to attend the St. Francis church sixteenth festival at Old Fellows' hall. Although search has been made in every direction part of last night and all today, no trace of the horse and wagon has been obtained. The missing horse is in color bay, with white stripes on nose, 10 years old and weighs about 1100 pounds. The wagon is a Pringle's piano box in good condition and harness quite old. The theft was first discovered about 10 o'clock, and nearly all night was kept busy making a search for the horse, as its owner, Mr. W. B. McKay, had a good horse and it might have got loose and strayed away and done some mischief. Detective McLeod has the matter in hand.

He said today that among these applications was one offering to transport one regiment to Manila for \$150 per capita, including board. This is considered to be a very low rate. The recruiting officers and their assistants were kept busy today applying applicants for the volunteer regiments at three existing stations in this city. Major Murray at the head of the depot, on this avenue, had more men than he could handle.
