LONDON, April 3.-In the House of Commons today the parliamentary secretary of the war office, Mr. George Wyndham, said that if all the forty-four commissions in the army offered to Canada were filled the government was quite ready to offer further commissions.

A Downpour of Rain and An Early Arrival Fail to ATTEMPT TO ASSASSINATE Diminish the Enthusiasm of the Irish People -Dear, Dirty Dublin in Holiday Finery and Wet.

Dublin, April 4, 12.20 a. m.—In spite of the rain that was falling and the huge puddles of water underfoot, the arrival of Queen Victoria, in the Royal yacht, Vic-toria and Albert, off Kingston, was the occasion for much enthusiasm although this did not take an organized form, ow-

The passage of the channel was smooth and the Queen suffered no discomfort, al-though she expressed regret that the premature departure from Holyhead, owing to the threatening weather condi-tions should cause her Irish subjects dis-appointment. It had been officially an-nounced that she would reach Kingstown at 5.30 p. m., Tuesday, instead of 2 p. m., but at the lotted between officially an-and, if the lotted between officially an-nounced that she would reach fingstown the between secured in the place of Mr. James Egan; and, if the universal wish for fair tions should cause her Irish subjects dis-appointment. It had been officially an-nounced that she would reach Kingstown at 5.30 p. m., Tuesday, instead of 2 p. m., but at the latter hour the Victoria and Al-bert loomed up through the haze and rain and was greeted with the thunder of 21 guns from each ship of the British Chan-nel squadron. Thousands had poured into Kingstown regardless of the pelting rain. The celebrations were confined to an il-lumination of the war vessels and to a few Ine celebrations were conduct to an in-lumination of the war vessels and to a few fire works here and there. A shining shamrock stood out against the blackness of Dublin bay and from the jackies clus-tered on the decks of the squadron came strains of "God Save the Queen," which were taken up, with a will be the nationt

were taken up with a will by the patient crown on shore, and when "Soldiers of the Queen" floated across the quiet water, the spectators on Kingston Pier joined in with equal fervor. Although all political conditions are rep-

presented in Kingston, there was no at-tempt at a counter demonstration. In tempt at a counter demonstration. In fact the evening's fireworks, singing and cheering were not marred by any hostile note and the entry of the Queen into Dublin Wedneeday, will probably be a repetition of similar friendly conditions. In Dublin itself, seven miles from Kingstown, the epithet "Dear, dirty Dublin" was never before presumably better justificed than vecterday. Dublin was bedraged

of Ireland. By the exercise of tact, political con-siderations have been either kept entire-ly in the background or banished entirely. Of the Dublin evening papers yesterday, the Telegraph, which belongs to the Free-man's Journal, alone strikes a note which approaches the discordant. It says: "Political considerations must chill to

THE PRINCE OF WALES. Brussels, April 4--At the railway station today, as the Prince and Princess of Wales were leaving for Copenhagen, two shots were fired at them.

The would-be assassin is a tinsmith named Sipido, a resident of Brussels, six-teen years of age. His pockets were found to be full of anarchistic literature. Sipido subsequently said he wanted to kill the Prince of Wales "because he ed in South Africa." He fired two shots at the Prince of Wales The Princess of Wales and others

cushed to the scene and knocked down the would-be assassin's arm as he pre-pared to fire a third shot and a number

of persons threw themselves on the Prince's assailant. In the confusion a second man, who was quite innocent, was seized, roughly handled and beaten. After the Prince of Wales had ascertained that the man who fired the shots had been arrested, he declared himself and the princess uninjured and the train

started. When examined by the railway station St. John. officials Sipido declared he intended to kill the Prince of Wales, that he did not regret his action and that he was ready to do it again if given a chance to do so. Intense excitement prevailed for the moment, as it was feared the prince had been hit, the shots having been fired al-most point blank. The railway carriage door was hastily thrown open, and great relief was felt when the prince himself appeared at the window unhurt. Both the prince and the princess, how-

ever, had a narrow escape. The police-man on duty took Sipido in charge. The latter appeared proud of his exploit and man on duty took Sipido in charge. The thorities that he lived on the Rue de la Forge, at Saint Gillies, two miles south

These were secured and throughout the day she wore them on her breast.
