### PROVIDE A HOME FOR YOUR BOOKS

You have probably often had to hunt all over the house for a book you wanted just because there is no regular place provided to keep them in, and they are left lying all over wherever last used, becoming torn, soiled, and in a condition that makes you feel ashamed when your friends see them.

### MACEY SECTIONAL CASES

Do away with all such neglect and loss, and besides provide a handsome piece of furniture that will be a real delight in the home and, perhaps most important of all, they don't cost much.

### BUY THEM AS YOU NEED THEM

You don't have to provide for future needs—all you do is buy what you need *now*—you can enlarge your case at any time to take care of additional books you may acquire. Let us send you our *Macey Style Book*, which tells you all about these famous cases, besides giving you a lot of information every booklover should have. Just send us your address, and we mail you the book free of charge.
