Gentlemen:—

Before purchasing your 1908 Chatham Mill
I had several other makes on trial and while they
will all do fairly good work cleaning grain I found
your mill very much stronger built, has a better
bagger, cleans faster and will stand more hard
usage than any other mill that I tried.

Any farmer requiring a good mill cannot
make any mistake in buying a No. 2 Chatham
Fanning Mill.

Yours truly,

Dear Sir:

I did not try the Fanning Mill and Bagger
which you sent me until last Friday and we then
cleaned up seed wheat with it and must say that
we are well satisfied with the mill and bagger.
It removes outs thoroughly and fast
I enclose you a money order for the same.
I am,
Yours truly,

I have just finished cleaning up 600 bushels of seed grain and I am well pleased with it and I am satisfied it stands without an equal for taking oats out of wheat and it don't take a month to clean up your seed grain like some other mills.

Trusting this will receive your approval, I am,

Gentlemen:—

I enclose you herewith payment for Chatham Fauning Mill and Bagger and I would say that I have tried two other kinds of Fauning Mills previous to getting yours and I find that the Chatham will take as much barley and wild oats from wheat at once passing through and wild oats from wheat at once passing through as the others did after putting it through three times.

I remain,
Yours truly,

barley. This is the one machine that will get those oats out easily and with positive certainty.

# **ECHATHAM** Fanning Mill

It will not only take all the oats out of your seed-wheat and the wheat you sell, but it will grade your wheat - separate the shrunken, immature and undersized grains, which you can profitably feed your stock. It will positively add ten cents a bushel to the value of your seed wheat and five cents a bushel to the price you get for what grain you market.
