Art Classes Resume

P

Three Courses Offered

tre has announced the re- hoped that the courses will sumption of evening art aid the student in finding an classes in Memorial Hall.

Students have three courses from which to choose. Two painting classes, dealing mainly with techniques, are instructed by Brigid Grant and Molly Bobak. A graphics course, taught by Marjory Donaldson, will include several methods of print-making, lino and wood cuts, silk screens,

The UNB Creative Art Cen- etching and lithography. It is individual approach to his work.

Each course consists of fifteen lessons, and regular UNB students pay only \$5.00 per course.

The Painting Class given by Molly Bobak will start Tuesday, October 4 at 7:30 p.m.; Brigid Grant's Painting Class will start Wednesday October

5 at 7:30 p.m.; and Marjory Donaldson's Graphics Class will start Thursday, October 6 at 7:30 p.m.

Students are requested to bring a pencil and sketch pad on the first evening. All classes will be two hours long, and will be held in the Art Centre in Memorial Hall. Beginners as well as more advanced students are encouraged to attend.

If you can help us move faster we need you

(An open letter to '67 grads)

Northern Electric is moving faster today than any selfrespecting 70-year-old should. Away back in the late 1800's, before autos or airplanes, or radio, or television were invented, a few men started a business that later grew into Northern Electric. For years we relied upon American sources for most of our technical development. But back in 1958 a rather disturbing thing occurred: Linus threw away his blanket. Northern began to do her own research and development: began to plan aggressively for technological change and an active penetration into world markets.

The last eight years have been exciting ones. A new air has permeated the atmosphere at Northern and developments are taking place that present a challenge in every sphere of our activity. To meet this challenge we need university grads-top-notch university grads!

Camping In Residence

Recently there was posted a notice, headed as above, regarding persons sleeping in the lounges of the men's residences. This notice, undersigned by Dean Grant, stated that any person discovered by a commissionaire sleeping in the lounge of any residence would be subject to a fine of \$10.

Mr. Grant had the following to say to the Brunswickan: "There is a porter on duty throughout the night in the Residence Office. Persons requiring emergency accomoda-

Councils Discuss Union

The amalgamation of the student councils of St. Thomas University and the University of New Brunswick will be discussed at private sessions soon, an official of the Students Representative Council said this week.

Following the appointment of a committee chairman to study the problem, informal discussions and surveys will begin, followed by more formal studies.

The move is expected to improve the efficiency of operation of the two organizations. It would tie together the activities of the committee in charge of the new Student Cetnre and other activities already shared by the two universities, as well as initiating new cooperative measures.

Council President Lawson Hunter is expected to announce the appointment of a chairman in the near future.

tion can often be looked after at \$1.50 per night. The notice of a fine is simply to make sure people check at the office so that the commissionaire doing his rounds can be informed of any people who may be in the building."

Dean Grant did admit to the existence of exceptional cases when persons might find it necessary to "camp" in a lounge but again emphasized that they should first see the commissionaire at the office - otherwise this person (alone or otherwise) would be disturbed from his sleep and fined.

There has been theft from the lounges in the past, and Mr. Grant mentioned "security reasons" · as further evidence of the need for a fine.

When asked whether it might not be better for the houses themselves to take whatever action they might consider necessary, Mr. Grant replied that there was a little the houses could do to carry out any such restrictions as have been imposed.

ARE YOU ABOUT TO RECEIVE A BACHELOR OF SCIENCE DEGREE?

We need engineers-electricals and mechanicals especially, but we've room for civils, metallurgicals and chemicals. None of our departments has asked for a mining or forestry man yet, but don't bet on it!

We need B.Comm.'s-mostly for accounting and business administration, but our Marketing, Production and Personnel departments are always coming up with requirements for a good B.Comm.

We need B.Sc.'s-not only honors grads, but those majoring in chemistry, maths, physics and related disciplines.

And because we're pushing into so many experimental areas, in the pure and applied sciences, we need Master's and Ph.D.'s, people who can spearhead the attack on the more complex problems that face us.

If you want to become part of Northern's exciting future, see your Placement Officer. He'll give you more detailed information and arrange an interview for you with one of our recruiters who will be on campus soon.

Think about an administrative career in one of the many technically oriented federal government departments.

The Departments of:

6066-11A

Agriculture **Mines and Technical Surveys** Industgry **Public Works** Transport **Trade and Commerce** and others are looking for YOU. To qualify, write the Civil Service Exam to be held on OCTOBER 19 at 7:00 P.M. **ROOM 140 - CARLETON HALL**

> Exemption: only for those who hold Master's or Doctorate degrees in 1967.

It is preterred that you send, in advance of the examination, Application Form CSC 100 (available at the Placement Office) to the CIVIL SERVICE COMMISSION OF CANADA, UNIVERSITY RECRUITMENT, OTTAWA 4, ONTARIO. It will be possible also to complete an Application Form at the examination.
