Ottawa, Nov. 11, 1912.

Sir,

I have been informed that your Department publishes specifications regarding the construction of bridges on public highways. It is proposed to construct a bridge in the neighbourhood of Maniwaki, P.Q. What is particularly desired is to know ~~as~~ if there is a regulation as to the width and as to the amount of rolling and dead load the bridge is required to carry. I shall be obliged if you will be good enough to send me regulations regarding the construction of bridges on public highways.

Your obedient servant,

Assistant Deputy and Secretary.

Evan Wallace, Esq., C.E.,

Assistant Engineer,

Dept. of Public Works,

Quebec, P.Q.

Dept. of Indian & Northern Affairs, Letterbook,
2 November 1912 - 14 November 1912, (R.G. 10, Volume 5428)
